

Higher Blends Infrastructure Incentive Program (HBIIIP) Transportation Fueling Facility Applicant Deep Dive

Questions and Answers

Project Eligibility

1. Would cost for DEF equipment be covered as part of a larger project?

ANSWER: HBIIIP can only cover costs related to fuel infrastructure for higher blends of ethanol (greater than 10%) and/or biodiesel (greater than 5%).

Application

1. For Historical Data fuel gallons sold, would we include Racing Fuel or Kerosene (non-conventional fuels) in that total?

ANSWER: Historical data includes all fuels sold with E10, E15, E85, and diesel specifically broken out. Historical sales revenue is also included.
