

STAKEHOLDER ANNOUNCEMENT

USDA Seeks Applications for Technical Assistance Grants to Support Community Facilities for People in Rural America

WASHINGTON, April 21, 2023 – U.S. Department of Agriculture (USDA) Rural Development Under Secretary Xochitl Torres Small today announced that the Department is accepting applications to help rural communities expand their capacity to access financial resources to help build or upgrade essential community facilities.

The funding is being made available under the [Community Facilities Technical Assistance and Training Grant program](#). The grants allow eligible public bodies as well as private and nonprofit organizations to provide technical assistance and training to help grantees identify and plan for community facility needs in their area. Once these needs are pinpointed, the grantee can seek additional public and private financial resources.

USDA is particularly interested in applications that will advance Biden-Harris Administration priorities to:

- Reduce climate pollution and increase resilience to the impacts of climate change through economic support to rural communities.
- Ensure all rural residents have equitable access to Rural Development (RD) programs and benefits from RD-funded projects; and
- Help rural communities recover economically through more and better market opportunities and through improved infrastructure.

Additional information on these key priorities is available at <https://www.rd.usda.gov/priority-points>.

Electronic applications will be accepted via [Grants.gov](#) until 11:59 p.m. Eastern time on June 15, 2023.

Any paper applications must be received by 4:00 p.m. local time on June 20, 2023.

For additional information, see page 24544 of the April 21, 2023, [Federal Register](#).
