It may be tangible--having physical existence--or intangible--having no physical existence, such as patents, inventions, and copyrights. "Nonexpendable personal property" means tangible personal property having a useful life of more than one year and an acquisition cost of \$300 or more per unit. A Grantee may use its own definition of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined above. "Expendable personal property" refers to all tangible personal property other than nonexpendable personal property. When nonexpendable tangible personal property is acquired by a Grantee with project funds, title shall not be taken by the Federal Government but shall vest in the Grantee subject to the following conditions:

(a) Right to transfer title. For items of nonexpendable personal property having a unit acquisition cost of \$1,000 or more, Rural Development may reserve the right to transfer title to the Federal Government or to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such reservation shall be subject to the following standards:

(i) The property shall be appropriately identified in the grant or otherwise made known to the Grantee in writing.

(ii) Rural Development shall issue disposition instructions within 120 calendar days after the end of the Federal support of the project for which it was acquired. If Rural Development fails to issue disposition instructions within the 120 calendar day period, the Grantee shall apply the standards of paragraph 1(c) below.

(iii) When Rural Development exercises its right to take title, the personal property shall be subject to the provisions for federally owned nonexpendable property discussed in paragraph 1(a)(iv) below.

(iv) When title is transferred either to the Federal Government or to a third party and the Grantee is instructed to ship the property elsewhere, the Grantee shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the Grantee participation in the cost of the original grant project or program to the current fair market value of the property, plus any reasonable shipping or interim storage costs incurred.

(b) Use of other tangible nonexpendable property for which the Grantee has title.

(i) The Grantee shall use the property in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When it is no longer needed for the original project or program, the Grantee shall use the property in connection with its other Federally sponsored activities, in the following order of priority:

(A) Activities sponsored by Rural Development.

(B) Activities sponsored by other Federal agencies.

(ii) Shared use. During the time that nonexpendable personal property is held for use on the project or program for which it was acquired, the Grantee shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the property was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by Rural Development; second preference shall be given to projects or programs sponsored by other Federal agencies. If the property is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by FmHA. User charges should be considered if appropriate.

(c) Disposition of other nonexpendable property. When the Grantee no longer needs the property, the property may be used for other activities in accordance with the following standards:

(i) Nonexpendable property with a unit acquisition cost of less than \$1,000. The Grantee may use the property for other activities without reimbursement to the Federal Government or sell the property and retain the proceeds.

(ii) Nonexpendable personal property with a unit acquisition cost of \$1,000 or more. The Grantee may retain the property for other use provided that compensation is made to Rural Development or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the property. If the Grantee has no need for the property and the property has further use value, the Grantee shall request disposition instructions from the original Grantor agency. Rural Development shall determine whether the property can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the property shall be reported, in accordance with the guidelines of the Federal Property Management Regulations (FPMR) to the General Services Administration by Rural Development to determine whether a requirement for the property exists in other Federal agencies. Rural Development shall issue instructions to the Grantee no later than 120 days after the Grantee request and the following procedures shall govern:

(A) If so instructed or if disposition instructions are not issued within 120 calendar days after the Grantee's request, the Grantee shall sell the property and reimburse Rural Development an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the Grantee shall be permitted to deduct and retain from the Federal share \$100 or ten percent of the proceeds, whichever is greater, for the Grantee's selling and handling expenses.

(B) If the Grantee is instructed to dispose of the property other than as described in paragraph 1 (a)(iv) above, the Grantee shall be reimbursed by Rural Development for such costs incurred in its disposition.

(C) The Grantee's property management standards for nonexpendable personal property shall include the following procedural requirements:

(1) Property records shall be maintained accurately and shall include:

(a) A description of the property.

(b) Manufacturer's serial number, model number, Federal stock number, national stock number, or other identification number.

(c) Sources of the property including grant or other agreement number.

(d) Whether title vests in the Grantee or the Federal Government.

(e) Acquisition date (or date received, if the property was furnished by the Federal Government) and cost.

(f) Percentage (at the end of the budget year) of Federal participation in the cost of the project or program for which the property was acquired. (Not applicable to property furnished by the Federal Government).

(g) Location, use, and condition of the property and the date the information was reported.

(h) Unit acquisition cost.

(i) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value when a Grantee compensates the Federal agency for its share.

(2) Property owned by the Federal Government must be marked to indicate Federal ownership.

(3) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years. Any difference between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The Grantee shall, in connection with the inventory, verify the existence, current utilization, and continued need for the property.

(4) A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft of nonexpendable property shall be investigated and fully documented; if the property was owned by the Federal Government, the Grantee shall promptly notify Rural Development.

(5) Adequate maintenance procedures shall be implemented to keep the property in good condition.

(6) When the Grantee is authorized or required to sell the property, proper sales procedures shall be established which will provide for competition to the extent practicable and result in the highest possible return.

(7) Expendable personal property shall vest in the Grantee upon acquisition. If there is a residual inventory of such property exceeding \$1,000 in total aggregate fair market value, upon termination or completion of the grant and if the property is not needed for any other federally sponsored project or program, the Grantee shall retain the property

for use on nonfederally sponsored activities, or sell it, but must in either case compensate the Federal Government for its share. The amount of compensation shall be computed in the same manner as nonexpendable personal property.

2. To provide a financial management system which will include:
    - (a) Accurate, current, and complete disclosure of the financial results of each grant. Financial reporting will be on an accrual basis.
    - (b) Records which identify adequately the source and application of funds for grant-supported activities. Those records shall contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.
    - (c) Effective control over and accountability for all funds, property, and other assets. Grantee shall adequately safeguard all such assets and shall assure that they are solely for authorized purposes.
    - (d) Accounting records supported by source documentation.
  3. To retain financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of at least three years after the submission of the final Project Performance report pursuant to paragraph B (9)(c) of this agreement except in the following situations:
    - (a) If any litigation, claim, or audit is commenced before the expiration of the three year period, the records shall be retained until all litigations, claims, or audit findings involving the records have been resolved.
    - (b) Records for nonexpandable property acquired with Federal funds shall be retained for three years after final disposition
    - (c) When records are transferred to or maintained by Rural Development, the three year retention requirement is not applicable.
- Microfilm copies may be substituted in lieu of original records. the Grantor and the Comptroller General of the United States, or any of their duly authorized representatives, shall have

access to any books, documents, papers, and records of the Grantee which are pertinent to the specific grant program for the purpose of making audits, examinations, excerpts, and transcripts.

4. To provide information as requested by the Grantor concerning the Grantee's actions in soliciting citizen participation in the application process, including published notice of public meetings, actual public meetings held, and content of written comments received.

5. Not encumber, transfer, or dispose of the property or any part thereof, furnished by the Grantor or acquired wholly or in part with Grantor funds without the written consent of the Grantor except as provided in Part C 1.

6. To provide Grantor with such periodic reports of Grantee operations as may be required by authorized representatives of the Grantor.

7. To execute Form RD 400-1, "Equal Opportunity Agreement," and to execute any other agreements required by Grantor to implement the civil rights requirements.

8. To include in all contracts in excess of \$100,000 a provision for compliance with all applicable standards, orders, or regulations issued pursuant to the Federal Clean Air Act as amended. Violations shall be reported to the Grantor and the Regional Office of the Environmental Protection Agency.

9. That, upon any default under its representations or agreements set forth in this instrument, Grantee, at the option and demand of Grantor, will, to the extent legally permissible, repay to the Grantor forthwith the grant funds received with interest at the rate of five percent per annum from the date of the default. The provisions of this Grant Agreement may be enforced by Grantor, at its option and without regard to prior waivers by it of previous defaults of Grantee, by judicial proceedings to require specific performance of the terms of this Grant Agreement or by such other proceedings in law or equity, in either Federal or State Courts, as may be deemed necessary by Grantor to assure compliance with the provisions of this Grant Agreement and the laws and regulations under which this grant is made.

10. That no member of Congress shall be admitted to any share or part of this Grant or any benefit that may arise therefrom;

but this provision shall not be construed to bar as a contractor under the Grant a publicly held corporation whose ownership might include a member of Congress.

11. That all nonconfidential information resulting from its activities shall be made available to the general public on an equal basis.

12. That the purpose for which this grant is made may complement, but shall not duplicate programs for which monies have been received, are committed, or are applied for from other sources, public and private.

13. That the Grantee shall relinquish any and all copyrights and/or privileges to the materials developed under this grant, such material being the sole property of the Federal Government. In the event anything developed under this grant is published in whole or in part, the material shall contain notice and be identified by language to the following effect: "The material is the result of tax-supported research and as such is not copyrightable It may be freely reprinted with the customary crediting of the source."

14. That the Grantee shall abide by the policies promulgated in OMB Circular A-102, Attachment 0, or OMB Circular A-110, Attachment 0, which provides standards for use by Grantees in establishing procedures for the procurement of supplies, equipment and other services with Federal grant funds.

15. That it is understood and agreed that any assistance granted under this Agreement will be administered subject to the limitations of Title V of the Housing Act of 1949 as amended, 42 USC 1471 et. seq., and related regulations, and that rights granted to Rural Development therein or elsewhere may be exercised by it in its sole discretion to carry out the purposes of the assistance, and protect Rural Development's financial interest.

Proposals which are clearly inappropriate and do not meet the basic priorities of §1944.529 (a) of this Subpart should not be encouraged due to the complexity of the preapplication submission.

In no case should the State Office forward their selected TSA preapplication(s) later than thirty (30) days after the closing date for receipt of applications.
6. Preapplications not selected by the State Office will be returned to the applicants through the appropriate District Offices with notice of appeal rights.
7. In accordance with §1944.525 of this Subpart, State Offices will be advised of the number of preapplications to be submitted from each State to the National Office.

E. §§1944.531 and 1944.533 of this Subpart detail the responsibilities of the State Office after tentative selection of concurrence of the TSA grantees by the National Office. Those preapplications not selected will be promptly notified and their preapplication returned with notice of appeal rights. Form AD-622, "Notice of Preapplication Review Action," will be mailed from the State Office to the applicants. District Offices will receive a copy from the State Office.

F. After execution of the grant agreement, the State Office will work closely with the District Office and the grantee to obtain additional resources from other Federal and State agencies to meet the needs of the TSA service area. The State Office should closely review the quarterly project performance reports and assist the District Director, as appropriate, in resolving any problems or taking advantage of favorable funding or program opportunities.
