CHAPTER 13: SPECIAL PROPERTY TYPES

13.1 INTRODUCTION

This chapter describes the requirements for processing loans for special property situations. Section 1 of this Chapter deals with processing requirements for community land trusts and leasehold estates. Section 2 describes the specific processing requirements for loans made for manufactured homes. Section 3 outlines loan processing requirements for modular housing.

SECTION 1: SPECIAL FORMS OF OWNERSHIP

13.2 OVERVIEW

This section discusses processing requirements for guaranteed loans for dwellings that fall under two types of special ownership: community land trusts and leasehold estates. Unless otherwise indicated in this section, the same basic requirements for loan guarantee approval discussed elsewhere in this handbook applies to these loans.

13.3 LOANS FOR UNITS IN A COMMUNITY LAND TRUST [7 CFR 3555.206]

Loans to finance the purchase of dwellings located on land owned by a community land trust may be guaranteed if the conditions described in this paragraph are met, and if the applicant and the property otherwise meet the requirements outlined in this handbook.

A. Definition

A community land trust is defined as a private not-for-profit community housing development organization that owns and leases land at affordable prices. A community land trust sells the property improvements (i.e., buildings, streets, sewers) that normally increase the land’s value, but leases the land under a long-term ground lease to low- and moderate-income households. The organization must:

- Be organized under State or local laws.
- Have no part of its net earnings benefiting any member, founder, contributor, or individual.
- Comply with financial accountability.
- Maintain, through significant representation on the organization’s governing board, accountability to low-income community residents with regard to decisions on the design, siting, development, and management of affordable housing.
- Have its corporate membership open to any adult resident of a particular geographic area specified in the by-laws of the organization.
- Be established to carry out all of the following activities:
  - Acquire parcels of land, held in perpetuity, primarily for conveyance under long-term ground leases.
  - Transfer ownership of any structural improvements located on such leased parcels to the lessees.
  - Retain a pre-emptive option to purchase any such structural improvements at a price determined by a formula that is designed to ensure that the improvement remains affordable to low- and moderate-income people in perpetuity.

  The lender must ensure that the lease contains provisions for continued use of the land for low- and moderate-income housing.

  - The lender’s mortgage file must contain documentation that the community land trust has received local market acceptance, as evidenced by market acceptance of comparable community land trust projects in the area.

  - The lender must verify that the community land trust has broad-based community representation, and that the Community Land Trust has a two-year record of providing affordable housing.

**B. Protection of Lender Rights and Lien Position**

The relevant legal documents must contain language that ensures that all restrictions relating to community land trusts will automatically and permanently terminate upon foreclosure or lender acceptance of a deed in lieu of foreclosure. Language that merely subordinates the restrictions to the mortgage is not sufficient. The restrictions also cannot be forced upon subsequent purchasers following resale by the lender.

**C. Restrictions on Resale Price**

Restrictions on the limits to the resale price of the property or recapture of equity are permitted. A maximum sales price may be imposed or the sales proceeds due the
borrower may be limited, with any excess payable to a governmental body or nonprofit organization for reuse in the community land trust. When such restrictions apply, the requirements listed below must be met. Any other arrangements for sharing appreciation must be approved by the State Director.

- The borrower must be permitted to recover at least the original purchase price, sales commission, and cost of capital improvements when the borrower sells the property.

- If the program permits the borrower to sell the property at market value but recaptures part of the equity, the Agency considers a reasonable share of appreciation to be at least 50 percent. The Agency does not object to situations whereby the borrower’s share of appreciation is on a sliding scale beginning at zero, provided that within two years the homeowner would be permitted to retain 50 percent of the appreciation.

- The borrower must be permitted to recover a reasonable amount of appreciation as determined by the lender. Appreciation is measured by the difference between the original purchase price and the actual price at which the property is resold.

- If the program sets a maximum sales price restriction, the borrower must be permitted to retain 100 percent of the appreciation.

D. Right of First Refusal

One method commonly used to ensure that housing remains part of an affordable housing program is for the community land trust to hold a “right of first refusal” or an “option right” that can be exercised when the borrower proposes to sell the home to a purchaser not eligible for the program benefits. Such a provision is permitted if all of the requirements listed below are met.

- The rights must be held only by a governmental body or eligible nonprofit organization and exercised by them or someone they have identified as an eligible purchaser.

- Any right must be exercised within 45 days after the holder of these rights may exercise them (for example, the rights are often triggered by a notice of sale from the borrower).
• Any option price must allow the borrowers to recover their investments plus reasonable shares of appreciation.

E. Appraisals

A property located on a site owned by a community land trust must be appraised as a leasehold interest.

13.4 LOANS ON LEASEHOLD ESTATES [7 CFR 3555.203(b)]

Loans to finance the purchase of dwellings located on leasehold estate may be guaranteed if the conditions described in this paragraph are met, and the applicant and the property otherwise meet the requirements outlined in this handbook.

A. Definition

A leasehold estate is the right to use and occupy real estate for a stated term and under certain conditions that have been conveyed by a lease. In most cases, improvements to real estate are purchased in fee simple, subject to ground rent. Rent is paid for the right to use and occupy the land.

The lender’s mortgage file must have documentation indicating that the appropriate legal documents have been reviewed for compliance with Agency regulations.

B. Lease Requirements

Mortgages subject to leasehold estates must meet the following conditions:

• The mortgage must cover both property improvements and the leasehold interest in the land;

• The leasehold estate must constitute real property, be subject to the mortgage lien, and be insured by a title policy;

• The estate’s term runs fifteen or more years beyond the maturity date of the loan closing, except in the case of properties located on American Indian restricted land where the lease must have an unexpired term at least equal to the term of the loan. Leases on American Indian land for a period of 25 years which are renewable for a second 25 years are permissible;

• The leasehold estate must be assignable or transferable; and

• The lease cannot be terminated except for nonpayment of lease rents.
The lease must:

- Provide for lender notification of any default by the borrower and the option to cure the default.
- Provide that the borrower will pay taxes, insurance, and association dues on the land and retain voting rights in the association;
- Provide that the leasehold can be transferred, mortgaged, and sublet without restriction;
- State rental increases in exact dollar amounts;
- Be recorded and constitute an interest in real estate;
- Permit mortgaging of the leasehold;
- Provide for written notice of default; and
- Provide renewal options for the leasehold mortgagee.
SECTION 2: MANUFACTURED HOMES

[7 CFR 3555.208]

13.5 DEFINITION

Manufactured housing units are single-or multi-width units constructed partially off-site and then transported to a site to be completed and attached to a permanent foundation. Manufactured homes are built to different construction standards and codes and have different inspection requirements than those manufactured structures generally referred to as “modular” or “panelized” homes.

13.6 AUTHORIZED LOAN PURPOSES

When a real estate mortgage or deed of trust covers the unit and the site, a loan to finance the following may be guaranteed.

- Site development work that conforms to the standards imposed by the state and local government.

- Purchase of an eligible new unit, transportation and set-up costs, and purchase of an eligible site if not already owned by the applicant. Manufactured units must be less than 12 months old and never occupied and will include the site. The date of the purchase agreement must be within one year of the manufactured date displayed on the plat attached to the unit. The following criteria outlines an eligible unit for guarantee with the SFHGLP:

  - To be an eligible unit, the new unit must have a floor area of not less than 400 square feet.

  - The unit must meet the Federal Manufactured Home Construction and Safety Standards (FMHCSS).

  - The unit must be placed on a permanent foundation built to FHA guidelines in effect at the time of certification. Guidelines are presently published in the “Permanent Foundation Guide for Manufactured Housing” (HUD-4930.3G) which is found at http://www.huduser.org/portal/publications/destech/permfound.html.

  - Certification the foundation design meets HUD Handbook 4930.3, “Permanent Foundations Guide for Manufactured Housing (PFGMH).” The foundation certification must be from a licensed
A professional engineer, or registered architect, who is licensed/registered in the state where the manufactured home is located and must attest to current guidelines of the PFGMH. The certification must be site specific and contain the engineers or registered architect’s signature, seal and/or state license/certification number.

- The manufactured home must be classified and taxed as real estate. Lenders are responsible for ensuring the title has been purged and the manufactured home has been officially converted from chattel to real property, as state law allows.

- The mortgage must cover both the unit and its site.

- Purchase of a unit on hand that has not been installed, or occupied at any other site or location. Manufactured units may be moved only from the manufacturers or dealer’s lot to the site on which the unit will be guaranteed. This type of unit is eligible as long as the purchase agreement is dated within 12 months of the date the unit was manufactured. The date of manufacture is available on the factory installed plate on the unit. Manufactured home units with a manufacture date exceeding 12 months of the purchase agreement contract will be ineligible for a guaranteed loan.

- The Agency will not guarantee the purchase of an existing manufactured home that has been moved from another site.

- Alteration or remodeling of the unit when the initial loan is made (i.e. garages). All alternations and modifications must meet FMHCSS.

**13.7 LOAN RESTRICTIONS**

The Agency will not guarantee loans to finance the following:

- The purchase of a site without also financing a new unit;

- A unit that does not meet FMHCSS;

- Repairs not associated with a transfer, Real Estate Owned (REO) sale, or unit that is already financed with a Section 502 loan; or
Furniture, including movable articles of personal property such as drapes, beds, bedding, chairs, sofas, divans, lamps, tables, televisions, radios, stereo sets, and other similar items of personal property. Furniture does not include wall-to-wall carpeting, refrigerators, ovens, ranges, washing machines, clothes dryers, heating or cooling equipment, or other similar equipment.

13.8 ADDITIONAL LOAN PROCESSING PROCEDURES FOR PROPOSED CONSTRUCTION INVOLVING A NEW MANUFACTURED HOME

For the purpose of underwriting and for payment of the guarantee fee, a newly constructed manufactured home is considered a purchase loan transaction and is subject to the fee further outlined in Chapter 6 of this Handbook.

In addition to the documents required for a guaranteed loan, the lender must obtain the following prior to loan approval. The documentation will be retained in the lender’s permanent loan file. Lenders may utilize Attachment 13-A as an option in support of applicable documentation.

- An itemized cost breakdown of the total package, including the base unit, eligible options, site development, installation, set-up, lot costs, and any credit for wheels and axles.

- A statement signed by the dealer indicating that any cash payment or rebate as a result of the purchase will be deducted from the price of the unit and not paid to the applicant.

- A statement signed by the dealer that the proposed cost is the full price of the unit and if furniture is being purchased by the applicant with personal funds, that a lien will not be filed against the security property.

- The label number of the unit shown on the FMHCSS data plate on the exterior of each section.

- A signed statement by the dealer confirming thermal requirements in effect at the time of purchase are met.
13.9 ADDITIONAL LOAN PROCESSING PROCEDURES FOR EXISTING PROPERTIES INVOLVING A MANUFACTURED HOME

The lender must document the following relative to an existing manufactured unit:

- The unit is presently financed with a Section 502 direct or guaranteed loan, is being sold from Agency inventory, or is being sold from the Lender’s inventory after being acquired through a loan guaranteed by the Agency.

- The unit must be installed on its initial installation site on a permanent foundation complying with the manufacturer’s guidelines and the guidelines published in the PFGMH. The PFGMH guide can be ordered by calling (800) 245-2691 or from the web at http://www.huduser.org/portal/publications/destech/permfound.html.

The Agency will not guarantee an existing manufactured home, which has had additions or structural modifications made to the original home.

13.10 CONSTRUCTION AND SITE REQUIREMENTS

Manufactured homes must meet several specific site and dwelling requirements in addition to those required for other properties guaranteed under the SFHGLP. The unit must meet the requirements for new dwellings as contained in Chapter 12 of this Handbook. Plans and certifications will be retained in the lender’s permanent case file. The lender is responsible for ensuring that:

- The unit is to be placed on a permanent foundation that meets the guidelines published in the PFGMH. The PFGMH guide can be ordered by calling (800) 245-2691 or from the web at http://www.huduser.org/portal/publications/destech/permfound.html. The foundation plan will be retained in the lender’s permanent file.

- A plot plan and site development plan are prepared for the proposed construction.

- Certification of site and foundation designs in accordance with Chapter 12.

- Inspections for new construction are performed.

- Alterations or modifications upon placement must be supported with plans and specifications as provided in Chapter 12 of this Handbook.
The unit must meet or exceed the Federal Manufactured Home Construction and Safety Standard (FMHCSS) Uo Value Zone for the geographic area the unit will be placed. The Uo Value Zone will be indicated on the Comfort Heating and Cooling Certificate.

- The unit must have a floor area of 400 square feet or more.

13.11 LOAN CLOSING FOR MANUFACTURED HOUSING

In general, loan closing procedures are the same whether the guarantee is made for the purchase of a manufactured home or another type of single family home. However, the lender should be aware of the following requirements.

A. Warranty Requirement

A dealer must provide the borrower with a copy of all manufacturers’ warranties. The warranty must identify the unit by serial number. The dealer must certify that the unit sustained no hidden damage during transportation.

The borrower will contract with a licensed homebuilder to complete the access, set up of the unit, utilities, appendages, etc. The general contractor will be responsible for providing the borrower with a warranty that meets the requirements of new construction outlined in Chapter 12 of this Handbook and HUD for new manufactured homes on permanent foundations. If the home was manufactured in separate sections, the contractor will certify that the sections were properly joined and sealed according to the manufacturer's specifications. Additionally, the contractor will certify the home sustained no hidden damage during transportation and erection.

A copy of all warranties and certifications will be retained in the lender’s permanent file.

B. Certification Requirements

Lenders may utilize Attachment 13-A to document manufacturer dealer certifications required of this Chapter and Attachment 13-B to document contractor certifications required of this Chapter.

C. Lien Release Requirements

The dealer must furnish a manufacturer's certificate of origin indicating that the unit is free and clear of all legal encumbrances. A copy of the manufacturer’s statement or certificate of origin should be retained in the lender’s mortgage file.
D. Real Estate Tax Requirement

Whether manufactured homes are considered personal or real property may vary state-to-state. When the loan closes, the unit and site must be taxed as real estate by the jurisdiction in which it is located, if such taxation is permitted under applicable law. If applicable state law so permits, any certificate of title to the manufactured home must be surrendered to the appropriate state government authority. If the certificate of title cannot be surrendered, the lender must indicate its lien on the certificate.

E. Title and Lien Requirements

Both the unit and the land must be evidenced by a recorded mortgage or deed of trust. A combination of a chattel and real estate mortgage is not acceptable. The manufactured home must be legally classified as real property under applicable state law and if state law permits, any certificate of title to the manufactured home must be surrendered to the government authority. If state law does not permit, the certificate of title must reference the lender’s lien. A standard real property insurance and any other manufactured home endorsement requirement in the applicable jurisdiction is required. The borrower must execute a written statement acknowledging that the unit is a fixture and part of the real estate securing the mortgage. Documentation will be retained in the lender’s permanent file.

F. Eligibility of Manufactured Homes in SFHAs

The finished grade level beneath the manufactured home shall be at or above the 100-year base flood elevation and is subject to the requirements of Section 12.10 of Chapter 12 of this Handbook.

SECTION 3: MODULAR HOMES

Modular homes are sectional prefabricated houses that consist of multiple modules or sections which are typically manufactured in a remote facility and delivered to their site of intended use. They differ from manufactured homes largely in their absence of axles or frame. Modular dwellings are commonly transported to their site by means of flat-bed trucks and set in place with the assistance of a crane. Permanent on-frame homes do not meet the definition of modular homes.
13.12 **LOAN PROCESSING PROCEDURES FOR NEW PROPERTIES INVOLVING MODULAR HOMES**

New modular/panelized homes are to be treated as stick built housing. Follow the requirements outlined in Paragraph 12.9 B of Chapter 12 of this Handbook.

13.13 **LOAN PROCESSING PROCEDURES FOR EXISTING PROPERTIES INVOLVING MODULAR HOMES**

Existing modular homes will be required to meet the inspection requirements outlined in Paragraph 12.9 A of Chapter 12.
ATTACHMENT 13-A

Dealer Certification – New Manufactured Home

<table>
<thead>
<tr>
<th>Name(s) of Purchaser/Owner</th>
<th>Manufactured Home Dealer Name, Address and Telephone</th>
</tr>
</thead>
<tbody>
<tr>

The undersigned hereby certifies that any cash payment or rebate as a result of the purchase of the manufacture unit identified has been deducted from the price of the unit and was not paid to the identified purchaser/applicant.

The proposed cost of the identified unit represents the full price of the unit, excluding any purchase with personal funds by the purchaser for furniture.

If furniture was purchased in conjunction with this transaction, we certify a lien will not be filed against the security property.

Thermal requirements in effect at the time of purchase have been met.
