

9007 Rural Energy for America Program Energy Auditor List

None of these auditors are endorsed by USDA Rural Development nor have been put through any type of screening process. They have all indicated they will perform audits in Minnesota regardless of their location. We recommend to interview and ask for references before hiring an individual.

Organization	Name	Address	Phone Number	Email
Your Utility Company or Rural Electric Cooperative	The utility and electric cooperatives that employ a certified energy manager or a professional engineer varies between organization. If you contact the organization they may be able to assist with the energy audit.
