USDA, Rural Development  
Nebraska

SUBJECT: Firms/Organizations Previously Conducted Environmental Assessments (EA) for Rural Development (RD) in Nebraska

Attached is a list of firms and organizations that have successfully provided EAs for RD in Nebraska. This list is not intended to be a recommendation but rather a guide to help potential borrowers procure these services. There is an increasing need for Class II and RD 1794 Environmental Reports to be written. RD staff is encouraged to have clients needing Class II environmental reports use private consultants. The consultants can assist in completing the 1940-20 and additional documentation. These firms have provided satisfactory environmental assessments for Rural Development applicants.
