## CREDIT SCORE DISCLOSURE

In accordance with the Fair and Accurate Credit Transactions Act of 2003 (FACT Act) and in connection with your application for a Rural Development Single Family Housing (hereafter referred to as "the Agency") home loan, the Agency, upon request, must disclose to you the score that a credit bureau distributes to users and will be used by the Agency in connection with your home loan as well as the key factors affecting your credit scores.

While the Agency does not consider credit scores in determining adverse credit decisions, we may use them to presume acceptable credit in lieu of other credit underwriting practices.

Credit scores assist lenders in evaluating your credit history in a more expedient and objective manner. Your credit scores are found on your residential mortgage credit report, a copy of which will be provided to you upon request. The range of possible scores is from 0 to 850. The Agency may also obtain and consider other credit scores in making its decision on your application from the credit bureaus listed below.

In addition to the credit scores, your credit report lists the key factors related to why your scores were less than the maximum possible score. Please keep in mind that the factors are only indicators of why you received less than the maximum score possible. The listing of these factors does not by itself indicate that you would not be approved for the loan you have requested. Rural Development considers many factors in addition to your credit scores in making a decision on your application. If your application is not approved, you will receive a separate notice stating the specific reason(s) for that action which may or may not relate to your credit scores. The Agency did not calculate your credit scores or develop the scoring models. If you have any questions about your credit scores or the information in the residential mortgage credit report from which the scores were computed, you can contact the credit bureau at the address listed below.
