

Electric Program

This program provides loan guarantees to make improvements in rural electric infrastructure.

State	Recipient	Loan	Project Description
AL	Central Alabama Electric Cooperative	\$60,621,000	To build or improve 484 miles of line, and make other system improvements.
AL	Dixie Electric Cooperative	\$25,840,000	To build or improve 89 miles of line, and make other system improvements. The loan amount includes \$2,250,000 for smart grid projects and \$684,000 for energy efficiency projects.
AL	South Alabama Electric Cooperative	\$24,700,000	To build or improve 169 miles of line, and make other system improvements. The loan amount includes \$220,000 for smart grid projects.
AR	Petit Jean Electric Cooperative Corp.	\$21,692,000	To build or improve 135 miles of line, and make other system improvements.
AZ, CA, NM	Arizona Electric Power Cooperative	\$31,167,000	To make generation system improvements.
CA, NV	Plumas-Sierra Rural Electric Cooperative	\$23,826,000	To build or improve 1 mile of line and make other system improvements. The loan amount includes \$4,250,000 for smart grid projects and \$7,000,000 for solar photovoltaic renewable projects.
CO	CoBank	\$375,000,000	To provide a loan guarantee for rural electric cooperative infrastructure relending.
CO	Sangre De Cristo Electric Association	\$20,866,000	To build or improve 166 miles of line, and make other system improvements.
FL	Peace River Electric Cooperative	\$22,604,000	To build or improve 141 miles of line, and make other system improvements. The loan amount includes \$2,194,913 for smart grid projects.
FL	Talquin Electric Cooperative	\$57,400,000	To build or improve 187 miles of line, and make other system improvements. The loan amount includes \$3,100,000 for smart grid projects.
FL	Tri-County Electric Cooperative	\$9,000,000	To build or improve 92 miles of line, and make other system improvements. The loan amount includes \$162,000 for smart grid projects.
GA	Coweta-Fayette EMC	\$52,291,000	To build or improve 222 miles of line, and make other system improvements. The loan amount includes \$487,000 for smart grid projects.
GA	Excelsior Electric Membership Corp.	\$3,199,000	To build or improve 46 miles of line, and make other system improvements. The loan amount includes \$89,030 for smart grid projects.
GA, AL, FL	Georgia Transmission Corp.	\$114,966,000	To build or improve 23 miles of line, and make other system improvements. The loan amount includes \$35,719,961 for smart grid projects.
GA, AL, FL	Georgia Transmission Corp.	\$86,700,000	To build or improve 18 miles of line, and make other system improvements. The loan amount includes \$4,431,560 for smart grid projects.

State	Recipient	Loan	Project Description
GA	Oglethorpe Power Corp.	\$448,307,000	To make generation system improvements.
GA	Sumter Electric Membership Corp.	\$12,500,000	To build or improve 515 miles of line, and make other system improvements. The loan amount includes \$688,800 for smart grid projects.
GA	The Central Georgia Electric Membership Corp.	\$13,506,000	To build or improve 2 miles of line, and make other system improvements. The loan amount includes \$12,841,000 for smart grid projects.
IA	Chariton Valley Electric Cooperative	\$6,700,000	To build or improve 50 miles of line, and make other system improvements. The loan amount includes \$1,510,200 for smart grid projects.
IA	Hawkeye Tricounty Electric Cooperative	\$13,000,000	To build or improve 301 miles of line, and make other system improvements. The loan amount includes \$1,852,000 for smart grid projects and \$361,275 for restoration projects caused by storm damage.
IA	Western Iowa Power Cooperative	\$525,000	To build a solar photovoltaic renewable generation system consisting of 664 solar panels, to supplement power needs and generate additional energy back into the grid. The loan amount of \$525,000 is all for smart grid projects.
IN	Carroll White Rural Electric Membership Corp.	\$6,000,000	To build or improve 62 miles of line, and make other system improvements. The loan amount includes \$182,400 for smart grid projects.
IN	Fulton County Rural Electric Membership Corp.	\$3,732,000	To build or improve 18 miles of line, and make other system improvements. The loan amount includes \$42,000 for smart grid projects.
IN	Jasper County Rural Electric Membership Corp.	\$5,000,000	To build or improve 83 miles of line, and make other system improvements. The loan amount includes \$153,900 for smart grid projects.
IN	Kankakee Valley Rural Electric Membership Corp.	\$6,000,000	To build or improve 98 miles of line, and make other system improvements. The loan amount includes \$180,600 for smart grid projects.
KS	Ninnescah Rural Electric Cooperative Association	\$5,438,000	To build or improve 8 miles of line, and make other system improvements.
KY	Big River Electric Corp.	\$25,630,000	To make environmental system improvements to meet federal regulations for Mercury and Air Toxic Standards.
KY	Big River Electric Corp.	\$20,511,000	To improve 4 miles of line, build two new substations, install two transformers at an existing substation, and make other transmission system improvements.
KY	Big Sandy Rural Electric Cooperative Corp.	\$10,000,000	To build or improve 47 miles of line, and make other system improvements. The loan amount includes \$392,975 for smart grid projects.
KY	Blue Grass Energy Cooperative Corp.	\$44,000,000	To build or improve 237 miles of line, and make other system improvements. The loan amount includes \$6,142,240 for smart grid projects.
KY	Clark Energy Cooperative	\$20,000,000	To build or improve 155 miles of line, and make other system improvements. The loan amount includes \$3,061,261 for smart grid projects.
KY	Cumberland Valley Electric	\$17,889,000	To build or improve 96 miles of line, and make other system improvements. The loan amount includes \$3,665,099 for smart grid projects.
KY	West Kentucky Rural Electric Cooperative Corp.	\$25,000,000	To build or improve 180 miles of line, and make other system improvements. The loan amount includes \$4,890,569 for smart grid projects.

State	Recipient	Loan	Project Description
KY, TN	South Kentucky Rural Electric Cooperative Corp.	\$40,000,000	To build or improve 436 miles of line, and make other system improvements. The loan amount includes \$805,000 for smart grid projects.
MI	Ontonagon County Rural Electrification Association	\$8,000,000	To build or improve 100 miles of line, and make other system improvements. The loan amount includes \$84,694 for smart grid projects.
MI, IN, OH	Midwest Energy Cooperative	\$39,652,000	To build a headquarters and warehouse facility. The loan amount includes \$1,098,036 for energy efficiency projects.
MN	Lake Region Electric Cooperative	\$20,331,000	To build or improve 127 miles of line, and make other system improvements. The loan amount includes \$2,358,700 for smart grid projects.
MN	Renville-Sibley Cooperative Power Association	\$10,000,000	To build or improve 63 miles of line, and make other system improvements. The loan amount includes \$713,268 for smart grid projects.
MN	Wright-Hennepin Cooperative Electric Association	\$40,000,000	To build or improve 242 miles of line, and make other system improvements. The loan amount includes \$9,385,000 for smart grid projects.
MN, IA	Freeborn-Mower Electric Cooperative	\$8,300,000	To build or improve 40 miles of line, and make other system improvements. The loan amount includes \$41,000 for smart grid projects.
MO	Barry Electric Cooperative	\$55,965,000	To build or improve 116 miles of line, and make other system improvements. The loan amount includes \$38,124,081 for smart grid projects.
MO, IA	Northeast Missouri Electric Power Cooperative	\$24,199,000	To build or improve 21 miles of line, and make other system improvements. The loan amount includes \$506,000 for smart grid projects.
MO, IA	United Electric Cooperative, Inc.	\$28,000,000	To build or improve 164 miles of line, and make other system improvements. The loan amount includes \$3,499,930 for smart grid projects.
MS	South Mississippi Electric Power Association	\$88,737,000	To improve transmission and generation system. The loan amount includes \$1,250,000 for solar photovoltaic renewable projects.
MS, AL	Singing River Electric Power Association	\$49,939,000	To build or improve 576 miles of line, and make other system improvements.
MT	Hill County Electric Cooperative	\$15,606,000	To build or improve 90 miles of line, and make other system improvements. The loan amount includes \$120,000 for smart grid projects.
NC	Edenton Solar LLC	\$26,000,000	To build a 20 MW solar photovoltaic renewable farm.
NC	Four County Electric Membership Corp.	\$28,000,000	To build or improve 125 miles of line, and make other system improvements. The loan amount includes \$556,575 for smart grid projects.
NC	Lumbee River Electric Membership Corp.	\$60,000,000	To build or improve 256 miles of line, and make other system improvements. The loan amount includes \$867,100 for smart grid projects.
NC	North Carolina Electric Membership Corp.	\$67,100,000	To make generation system improvements.
NC	Pee Dee Electric Membership Corp.	\$9,000,000	To build or improve 132 miles of line, and make other system improvements. The loan amount includes \$2,371,530 for smart grid projects.

State	Recipient	Loan	Project Description
NC	Piedmont Electric Membership Corp.	\$35,000,000	To build or improve 205 miles of line, and make other system improvements.
NC	Rutherford Electric Membership Corp.	\$16,000,000	To build or improve 63 miles of line, and make other system improvements.
NC, TN	French Broad Electric Membership Corp.	\$32,000,000	To build or improve 292 miles of line, and make other system improvements. The loan amount includes \$1,007,250 for smart grid projects.
ND, MN	Minnkota Power Cooperative	\$65,975,000	To build a new headquarters building to meet changing physical security requirements, projected employee growth, and better access for larger operations equipment.
OH	Buckeye Rural Electric Cooperative	\$28,000,000	To build or improve 138 miles of line, and make other system improvements. The loan amount includes \$4,552,100 for smart grid projects.
OH	Firelands Electric Cooperative	\$7,000,000	To build or improve 49 miles of line, and make other system improvements. The loan amount includes \$203,479 for smart grid projects.
OH	North Central Electric Cooperative	\$11,100,000	To build or improve 83 miles of line, and make other system improvements. The loan amount includes \$856,670 for smart grid projects.
OH	The Frontier Power Co.	\$7,500,000	To build or improve 114 miles of line, and make other system improvements. The loan amount includes \$576,000 for smart grid projects.
OK	Central Rural Electric Cooperative	\$15,700,000	To build or improve 34 miles of line, and make other system improvements.
OK	Southeastern Electric Cooperative	\$11,669,000	To build or improve 276 miles of line, and make other system improvements. The loan amount includes \$601,110 for smart grid projects.
OK, TX	Harmon Electric Association	\$13,838,000	To build or improve 534 miles of line, and make other system improvements. The loan amount includes \$32,069 for smart grid projects and \$3,656,000 for restoration projects due to storm damage.
PA	Central Electric Cooperative	\$18,000,000	To build or improve 87 miles of line, and make other system improvements. The loan amount includes \$1,186,040 for smart grid projects.
SC	Berkeley Electric Cooperative	\$158,181,000	To build or improve 929 miles of line, and make other system improvements. The loan amount includes \$1,617,731 for smart grid projects.
SC	Central Electric Power Cooperative	\$60,494,000	To build or improve 81 miles of line, and make other system improvements. The loan amount includes \$17,442,000 for smart grid projects.
SC	Lynches River Electric Cooperative	\$15,000,000	To build or improve 124 miles of line, and make other system improvements. The loan amount includes \$3,500,000 for smart grid projects.
SC	York Electric Cooperative	\$53,000,000	To build or improve 260 miles of line, and make other system improvements. The loan amount includes \$5,159,878 for smart grid projects.
SC, NC	New Horizon Electric Cooperative Inc.	\$15,746,000	To improve transmission system.
SD	Codington-Clark Electric Cooperative	\$8,511,000	To build or improve 171 miles of line, and make other system improvements. The loan amount includes \$66,800 for smart grid projects.

State	Recipient	Loan	Project Description
SD	Rosebud Electric Cooperative	\$10,553,000	To build or improve 147 miles of line, and make other system improvements. The loan amount includes \$498,339 for smart grid projects.
SD, MN, IA	Sioux Valley Energy	\$73,197,000	To build or improve 687 miles of line, and make other system improvements. The loan amount includes \$535,936 for smart grid projects and \$200,000 for solar photovoltaic renewable projects.
SD	Union County Electric Cooperative	\$2,848,000	To build or improve 28 miles of line, and make other system improvements. The loan amount includes \$274,782 for smart grid projects.
TN	Sequachee Valley Electric Cooperative	\$17,000,000	To build or improve 42 miles of line, and make other system improvements.
TX	United Electric Cooperative Services Inc.	\$90,480,000	To build or improve 834 miles of line, and make other system improvements. The loan amount includes \$363,475 for smart grid projects.
VA	Barc Electric Cooperative	\$11,162,000	To build or improve 63 miles of line, and make other system improvements. The loan amount includes \$642,320 for smart grid projects.
VA	Barc Electric Cooperative	\$17,000,000	To construct Phase 1 of a system-wide fiber-optic communication network.
VA	Central Virginia Electric Cooperative	\$23,800,000	To build or improve 307 miles of line, and make other system improvements. The loan amount includes \$1,186,040 for smart grid projects.
VA	Northern Neck Electric Cooperative	\$18,500,000	To build or improve 89 miles of line, and make other system improvements. The loan amount includes \$605,100 for smart grid projects.
VA	National Rural Utilities Finance Corporation	\$375,000,000	To provide a loan guarantee to National Rural Utility Cooperative Financing Corporation for rural electric cooperative infrastructure relending.
WA	Yakama Power	\$30,782,000	To build or improve 574 miles of line, and make other system improvements.
WI	Dunn Energy Cooperative	\$7,000,000	To build or improve 149 miles of line, and make other system improvements. The loan amount includes \$960,000 for smart grid projects.
WI, IA, IL, MI, MN	Dairyland Power Cooperative	\$87,000,000	To build or improve 12 miles of line, and make other system improvements. The loan amount includes \$3,770,000 for smart grid projects.
Total		\$3,569,475,000
