Electronic Application Submission Using...
Presented by the Single Family Housing Direct Loan...
eForms Highlights

- eForms allows applicants, loan application packagers, self help grantees, and others to submit applications electronically.
- Applications that are "accepted" in eForms upload into Rural Development's (RD or Agency) loan origination system (a.k.a. UniFi) automatically where they can be "parsed" for further processing.
- Intermediaries under the certified loan application packaging process are required to submit applications via eForms.
As previously mentioned, intermediaries are required to submit loan application packages electronically using the eForms system.

To help intermediaries meet this requirement, RD State Offices are responsible for ensuring that:

- Their offices are properly set up in the eForms system.
- Their staff is familiar with the eForms field office user guide.
- Their staff reviews applications received via eForms in a timely manner and promptly takes the appropriate action.
There are three major steps to the electronic application submission using eForms:

1. The submitter's loan application package submission.
2. The Agency's review of the submitted package which will result in accepting the application, returning the application, or re-directing the application.
3. The Agency's importing and parsing of the application into UniFi once an application is accepted.
To submit loan application packages via eForms, intermediaries must:

- Request access to eForms (i.e. a Level 2 eAuthentication account). Each staff member that will submit applications will need to request access individually.

- Complete Form RD 410-4, Uniform Residential Loan Application (URLA), from eForms.

- Following the Agency's stacking order, attach the additional required documentation outlined in Handbook-1-3550, Attachments 3-A and 3-J.

- Submit the application to the "right" RD office.
Level 2 eAuthentication account - what is it and how do I get it?

• A Level 2 eAuthentication account, which consists of a User ID, password, and user profile, allows the user to enter an application with high security requirements through a USDA website portal.

• To register for a Level 2 eAuthentication account you will need to visit the following site and provide certain information used to verify your identify.

Level 2 eAuthentication website
After a Level 2 eAuthentication account has been established, it’s time to log into eForms to complete and submit an application package. [eForms website hyperlink]
There are three ways to complete the URLA:

- Import the industry standard Form 1003, or
- Complete the 410-4 online within eForms, or
- Export the 410-4, complete offline, and then import the completed form into eForms.

Always make sure the instruction icon appears next to the 410-4 being submitted!

Application for Rural Assistance (Nonfarm Tract)

Uniform Residential Loan Application

This application is designed to be completed by the applicant with the lender's assistance. Applicants should consider this form an "Applicant's Form," or "Applicant's Form," as applicable. All questions require personal information, and the appropriate box checked when the income or assets of a person other than the "Applicant," including the Applicant's sponsor, is used as a basis for further qualification. However, if the Applicant resides in a community property state, the income or assets of the Applicant's sponsor may be used as a basis for further qualification. The information is intended to be used as a basis for further qualification.
