# Index of Electric Issuances

---

## Borrower's Edition

## INTRODUCTION

This index serves as a valuable resource for identifying current RUS issuances and maintaining current files

To maintain your files, you may wish to make a periodic check of your bulletins files against the numerical list (Part III) to identify any missing or rescinded issuances.

RUS is continuing its efforts in the renumbering of its publications. New and revised electric issuances will appear with a 1700 series number, which corresponds with RUS policy issued in the Code of Federal Regulations (CFR).

RUS Borrowers will be notified of new and revised bulletins by memo or e-mail. RUS borrowers should notify their business associates of the availability of these bulletins. New and revised RUS bulletins will be available on the RUS Home Page at: <http://www.usda.gov/rus/electric/>. We encourage you to visit our home page. If you have any questions, CALL (202) 720-8674, FAX (202) 720-8435 or send an E-mail to [adam.miller@wdc.usda.gov](mailto:adam.miller@wdc.usda.gov). Certain items are available directly from the Government Printing Office (GPO). These publications are indicated by a, "#" in Part III of this publication. See Part V for GPO ordering information.
