

**Electric Loans -- USDA Rural Development
November 2, 2017**

State	Recipient	Loan	Project Description
AK	Golden Valley Electric Association	\$101,825,000	Rural Development funds will be used to build 53 miles, improve 28 miles of line and make other system improvements. The loan includes \$39,600,275 for smart grid projects.
AL	Clarke Washington EMC	\$19,473,000	Rural Development funds will be used to build 117 miles, improve 50 miles of line, and make other system improvements. The loan includes \$2,810,000 for smart grid projects.
AL	Baldwin County EMC	\$37,260,000	Rural Development funds will be used to build 166 miles, improve 132 miles of line and make other system improvements. The loan includes \$766,500 for smart grid projects.
AR	Arkansas Valley Electric Co-op Corp	\$44,011,000	Rural Development funds will be used to build 183 miles, improve 176 miles of line, and make other system improvements.
AR	South Central Arkansas Electric Co-op	\$5,000,000	Rural Development funds will be used to finance \$5 million for smart grid projects.
AR	Woodruff Electric Co-op Corp.	\$37,000,000	Rural Development funds will be used to build 222 miles, improve 75 miles of line and make other system improvements.
CA	Plumas-Sierra Rural Electric Cooperative	\$14,261,000	Rural Development funds will be used to build 1 mile, improve 44 miles of line and make other system improvements.
FL	Withlacoochee River Electric Co-op	\$130,000,000	Rural Development funds will be used to build 297 miles, improve 66 miles of line and make other system improvements. The loan includes \$1,350,000 for smart grid projects.
FL	Sumter Electric Co-op	\$125,000,000	Rural Development funds will be used to build 706 miles, improve 821 miles of line and make other system improvements.
GA	Georgia Transmission Corp.	\$67,240,000	Rural Development funds will be used to build 136 miles of line, and make other system improvements.
GA	Georgia Transmission Corp.	\$342,522,000	Rural Development funds will be used to build 103 miles, improve 59 miles of line, and make other system improvements.
GA	Flint Electric Membership Corp.	\$63,898,000	Rural Development funds will be used to build 281 miles, improve 52 miles of line and make other system improvements. The loan includes \$1,790,000 for smart grid projects.
GA	Carroll EMC	\$30,442,000	Rural Development funds will be used to build 110 miles of line and make other system improvements.
HI	Kaua'i Island Utility Cooperative	\$60,712,000	Rural Development funds will be used to build 38 miles, improve 34 miles of line and make other system improvements. The loan includes \$10,917,017 for smart grid projects.
ID	City of Plummer	\$1,085,000	Rural Development funds will be used for system improvements. These funds will also benefit Native Americans from the Coeur d'Alene Indian Reservation.
KY	Farmers RECC	\$19,951,000	Rural Development funds will be used to build 140 miles, improve 83 miles of line and make other system improvements. The loan includes \$373,500 for smart grid projects.
KY	Pennyrile RECC	\$35,438,000	Rural Development funds will be used to build 139 miles, improve 100 miles of line and make other system improvements. The loan includes \$545,400 for smart grid projects.
KY	Cumberland EMC	\$30,000,000	Rural Development funds will be used to build 119 miles of line and make other system improvements.
LA	Southwest Louisiana EMC	\$94,617,000	Rural Development funds will be used to build 697 miles, improve 72 miles of line and make other system improvements. The loan includes \$1,026,516 for smart grid projects.
ME	Fox Islands Electric Co-op	\$1,579,000	Rural Development funds will be used to improve 5 miles of line and make other system improvements.
MN	North Itasca Electric Co-op	\$7,774,000	Rural Development funds will be used to build 25 miles, improve 29 miles of line and make other system improvements. The loan includes \$142,080 for smart grid projects.
MN	Todd-Wadena Electric Co-op	\$6,500,000	Rural Development funds will be used to build 102 miles, improve 43 miles of line and make other system improvements. The loan includes \$491,700 for smart grid projects.
MN	Beltrami Electric Co-Op	\$23,713,000	Rural Development funds will be used to build 98 miles, improve 66 miles of line and make other system improvements. The loan includes \$4,394,803 for smart grid projects.

State	Recipient	Loan	Project Description
MN	Crow Wing Power	\$27,700,000	Rural Development funds will be used to build 55 miles, improve 116 miles of line and make other system improvements. The loan includes \$1,833,268 for smart grid projects.
MO	Southwest Electric Co-op	\$12,011,000	Rural Development funds will be used to make system improvements.
MO	Howell-Oregon Electric Co-op	\$27,000,000	Rural Development funds will be used to build 94 miles, improve 29 miles of line and make other system improvements.
MO	Associated Electric Co-op	\$29,220,000	Rural Development funds will be used to make transmission system improvements.
MO	Central Electric Power Co-op	\$40,248,000	Rural Development funds will be used to build 11 miles, improve 77 miles of line and make other system improvements. The loan includes \$322,983 for smart grid projects.
MO	New-Mac Electric Co-op	\$9,150,000	Rural Development funds will be used to build 20 miles of line and make other system improvements.
MO	Barry Electric Co-op	\$1,302,000	Rural Development funds will be used to build 3 miles of line and make other system improvements.
MS	Central Electric Power Association	\$9,250,000	Rural Development funds will be used to build 240 miles, improve 323 miles of line and make other system improvements. The loan includes \$100,000 for smart grid projects.
MS	Coast Electric Power Association	\$47,589,000	Rural Development funds will be used to build 136 miles, improve 270 miles of line and make other system improvements. The loan includes \$689,287 for smart grid projects.
NC	Energy United EMC	\$72,000,000	Rural Development funds will be used to build 283 miles, improve 132 miles of line, and make other system improvements. The loan includes \$796,875 for smart grid projects.
NC	North Carolina EMC	\$43,794,000	Rural Development funds will be used for generation system improvement projects.
NC	Five Forks Solar	\$23,000,000	Rural Development funds will be used to build a 20 MW solar photovoltaic renewable farm.
NC	North 301 Solar	\$18,000,000	Rural Development funds will be used to build a 16 MW solar photovoltaic renewable farm.
NC	Bear Poplar Solar	\$4,100,000	Rural Development funds will be used to build a 3.695 MW solar photovoltaic renewable farm.
NC	Cape Hatteras EMC	\$11,853,000	Rural Development funds will be used to build 9 new miles, improve 25 miles of line, and make other system improvements. The loan includes \$1,130,390 for smart grid projects.
NC	Gamble Solar, LLC	\$3,500,000	Rural Development funds will be used to build a 3 MW solar photovoltaic renewable farm.
NC	Wadesboro Solar	\$6,500,000	Rural Development funds will be used to build a 5 MW solar photovoltaic renewable farm.
NC	Salisbury Solar	\$4,100,000	Rural Development funds will be used to build a 3.75 MW solar photovoltaic renewable farm.
ND	Dakota Valley Electric Cooperative Inc.	\$21,000,000	Rural Development funds will be used to build 146 miles, improve 187 miles of line and make other system improvements. The loan includes \$2,542,000 for smart grid projects.
ND	Cass County Electric Co-op	\$25,000,000	Rural Development funds will be used to build 617 miles, improve 185 miles of line and make other system improvements. The loan includes \$4,906,771 for smart grid projects.
NM	Jemez Mountains Electric Co-op	\$18,337,000	Rural Development funds will be used to build 58 miles, improve 28 miles of line and make other system improvements. The loan includes \$6,990,000 for smart grid projects.
NM	Roosevelt County Electric Cooperative Inc.	\$13,864,000	Rural Development funds will be used to build 66 miles, improve 40 miles of line, and make other system improvements. The loan includes \$217,000 for smart grid projects.
NY	Steuben Rural Electric Co-op	\$5,050,000	Rural Development funds will be used to build 8 miles, improve 24 miles of line, and make other system improvements. The loan includes \$137,400 for smart grid projects.
NY	Delaware County Electric Co-op	\$5,113,000	Rural Development funds will be used to build 7 miles, improve 25 miles of line and make other system improvements. The loan includes \$37,200 for smart grid projects.
OK	Western Farmers Electric Co-op	\$382,514,000	Rural Development funds will be used to build 144 miles, improve 42 miles of line and make other system improvements.

**Electric Loans -- USDA Rural Development
November 2, 2017**

State	Recipient	Loan	Project Description
OK	East Central Oklahoma Electric Co-op	\$22,180,000	Rural Development funds will be used to build 64 miles and make other system improvements.
OR	Umatilla Electric Co-op Association	\$48,831,000	Rural Development funds will be used to build 25 miles, improve 41 miles of line and make other system improvements. The loan includes \$1,450,000 for smart grid projects.
OR	Harney Electric Co-op	\$11,677,000	Rural Development funds will be used to build 53 miles of line and make other system improvements.
PA	Bedford Rural Electric Co-op	\$6,000,000	Rural Development funds will be used to build 13 miles, improve 46 miles of line and make other system improvements. The loan includes \$660,000 for smart grid projects.
PA	REA Energy Cooperative, Inc.	\$6,500,000	Rural Development funds will be used to build 28 miles, improve 998 miles of line and make other system improvements. The loan includes \$351,400 for smart grid projects.
SD	Southeastern Electric Co-op Inc.	\$47,295,000	Rural Development funds will be used to build 180 miles, improve 394 miles of line and make other system improvements. The loan includes \$521,944 for smart grid projects.
SD	West Central Electric Co-op	\$11,960,000	Rural Development funds will be used to build 36 miles, improve 106 miles of line and make other system improvements. The loan includes \$48,544 for smart grid projects.
TN	Newport Utilities	\$37,000,000	Rural Development funds will be used to build 3 miles, improve 82 miles of line and make other system improvements. The loan includes \$23,225,799 for smart grid projects.
TX	Bowie-Cass Electric Co-op	\$36,000,000	Rural Development funds will be used to build 208 miles, improve 83 miles of line and make other system improvements.
TX	Houston County Electric Co-op	\$34,539,000	Rural Development funds will be used to build 144 miles, improve 69 miles of line and make other system improvements. The loan includes \$3,000,000 for smart grid projects.
VA	Mecklenburg Electric Co-op	\$30,000,000	Rural Development funds will be used to build 19 miles, improve 164 miles of line and make other system improvements. The loan includes \$177,493 for smart grid projects.
WI	Vernon Electric Co-op	\$23,000,000	Rural Development funds will be used to build 97 miles, improve 124 miles of line and make other system improvements. The loan includes \$2,852,331 for smart grid projects.
WI	Chippewa Valley Electric Cooperative	\$7,000,000	Rural Development funds will be used to build 52 miles, improve 27 miles of line and make other system improvements. The loan includes \$265,900 for smart grid projects.
WY	Powder River Energy Corp.	\$55,750,000	Rural Development funds will be used to build 208 new miles, improve 167 miles of line, and make other system improvements. The loan amount includes \$5,487,122 for smart grid projects.
