

**Water and Environmental Programs
USDA Rural Development
September 17, 2018**

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
AL	Richard Shelby, Doug Jones	Martha Roby (02)	Friendship Water Works	\$318,000	\$212,000	This Rural Development investment will be used to replace a water main in Tallassee, Ala. that has experienced frequent breaks and leaks. Replacing the water main will increase the reliability of water service in the community of 4,800 and help reduce system maintenance costs.
AL	Richard Shelby, Doug Jones	Martha Roby (02)	Town of Kinston	\$774,000	\$551,000	This Rural Development investment will be used to drill a well to provide a local source for the public water system. Kinston currently purchases all its water from a neighboring community. The community previously received a \$30,000 grant from USDA Rural Development to determine the feasibility of this project. The town has a population of more than 1,700.
AL	Richard Shelby, Doug Jones	Terri Sewell (07)	Town of Myrtlewood	\$2,185,000	\$1,743,000	This Rural Development investment will be used by the town to install radio-read meters, upgrade computer monitoring systems, purchase related equipment and make repairs to a water tank and water mains. These upgrades will contribute to more efficient system operations in the town of 2,700.
AR	John Boozman, Tom Cotton	Bruce Westerman (04)	City of Huntsville	\$1,200,000		This Rural Development investment will be used to construct a storage tank which will serve about 1,400 users. The new tank will also stabilize water pressure, and allow improved maintenance of an existing tank.
AR	John Boozman, Tom Cotton	Rick Crawford (01)	City of Stuttgart	\$1,050,000		This Rural Development investment will be used to replace deteriorated water lines. The project will enable the city of more than 9,300 to have a safer and more reliable water supply.
AR	John Boozman, Tom Cotton	Bruce Westerman (04)	Ladd Water Users Association	\$380,000		This Rural Development investment will be used to replace ageing asbestos-cement waterlines, improving service to 863 customers in Jefferson and Lincoln Counties.
CA	Dianne Feinstein, Kamala Harris	Tom McClintock (04), John Garamendi (03)	Amador Water Agency	\$3,014,000	\$1,976,000	This Rural Development investment will be used to replace two failing water tanks with two new 1-million-gallon water storage tanks. The project will also include installation of 1,900 feet of new pipeline to connect the tanks to the water distribution system. This tank replacement project will improve water quality and reliability for more than 1,700 residents of Amador County.
CA	Dianne Feinstein, Kamala Harris	Doug LaMalfa (01)	City of Mt. Shasta	\$1,309,000	\$1,608,000	This Rural Development investment will be used to replace sewer collection mainlines and install additional manholes in the downtown section of the City of Mt. Shasta. The project will replace 3,540 feet of clay sewer main and 3,580 feet of main lines. The project will benefit about 3,000 residents. The California State Revolving Loan Fund provided a \$245,000 planning grant.
CO	Michael Bennett, Cory Gardner	Ken Buck (04)	Town of Wiggins	\$6,030,000	\$1,970,000	This Rural Development investment will be used to upgrade the Town's water capacity, treatment and storage capability. The community will install a 500,000 gallon elevated storage tank, extend distribution lines, construct a new water treatment plant and add booster pumps to better serve about 800 residents.

**Water and Environmental Programs
USDA Rural Development
September 17, 2018**

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
DE	Thomas Carper, Christopher Coons	Lisa Blunt Rochester (At Large)	Sussex County Council	\$5,601,000	\$1,900,000	This Rural Development investment will be used to extend sewer service to 713 homes in the Herring Creek District. Removing the homes from individual septic systems will improve ground water quality in Sussex County, Del. The project also allows the county to expand its regional sewage treatment facility. This is the third and final phase of the project.
FL	Bill Nelson, Marco Rubio	Neal Dunn (02)	Town of Malone	\$1,226,000	\$3,534,000	This Rural Development investment will be used to fund expansion of the existing wastewater system to serve all of the Town's 2,088 residents. Upon completion, individual septic systems will be retired. Previously USDA provided a \$30,000 Special Evaluation Assistance for Rural Communities and Households Grant to determine project feasibility.
FL	Bill Nelson, Marco Rubio	Val Demings (10)	Zellwood Water Users, Inc.	\$1,041,000	\$865,000	This Rural Development investment will be used to cover additional costs associated with replacing a water pump building, water mains, generators and an additional water supply. The system serves more than 2,800 residents.
GA	Johnny Isakson, David Perdue	Barry Loudermilk (11), Austin Scott (08)	City of Pavo	\$680,000	\$1,965,000	This Rural Development investment will be used to replace water distribution lines throughout the city. The project also includes drilling a new well and construction of an elevated storage tank, to improve service to the community of more than 600 residents. Previous funding includes a \$30,000 Rural Development Special Evaluation Assistance for Rural Communities and Households grant to determine project feasibility.
GA	Johnny Isakson, David Perdue	Doug Collins (09)	Coosawattee River Resort Association Inc.	\$545,000		This Rural Development investment will be used to replace undersized water distribution lines. Radio read meters and fire hydrants will also be installed. The loan funds will be used to complete the project, which was initially funded in 2017.
HI	Mazie Hirono, Brian Schatz	Tulsi Gabbard (02)	County of Hawaii	\$3,699,000	\$1,071,000	This Rural Development investment will be used to install about 6,000 feet of sewer line to eliminate the existing cesspools, septic systems. The installation will protect groundwater supplies and coastal waters. The new sewer collection lines will connect into the existing Kealakehe Treatment Plant, which serves more than 9,800 residents.
IA	Chuck Grassley, Joni Ernst	Steve King (04)	City of Blairsburg	\$990,000	\$560,000	This Rural Development investment will be used to dig a well and a construct a treatment plant, install water meters, and provide a standby power system. A treatment plant that is almost 90 years old will be replaced, improving service to the community of 200.
IA	Chuck Grassley, Joni Ernst	David Loebsack (02)	City of Fairfield	\$11,124,000		This Rural Development investment will be used to replace part of the wastewater collection system in the City of Fairfield in southeast Iowa. This project is step two of a multi-phase project which will correct sewer overflow issues in the City due to conveyance bottlenecks and inflow and infiltration issues in the current system. Approximately 9,500 residents and businesses will benefit from these improvements. The City is under an Administrative Consent Order from the Iowa Department of Natural Resources to address the issue.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
IA	Chuck Grassley, Joni Ernst	Rod Blum (01)	Eastern Iowa Regional Utility Service System	\$435,000	\$100,000	This Rural Development investment will be used to construct two groundwater wells, a small water treatment plant to inject chlorine and polyphosphate, as well as six miles of transmission and distribution lines that will benefit 6,620 rural residents in southwest Iowa.
IA	Chuck Grassley, Joni Ernst	David Young (03)	Southwest Regional Water District	\$2,048,000	\$500,000	This Rural Development investment will be used to dig two water wells, provide treatment and a transmission line in southwest Iowa. A current water source will be replaced.
IA	Chuck Grassley, Joni Ernst	David Loebsack (02)	Wapello Rural Water Association, Inc.	\$3,150,000		This Rural Development investment will be used to lay 14 miles of water main and construct a pump station to serve almost 6,000 rural residents in the Wapello Rural Water Association service area. This project will connect to another water system.
ID	Mike Crapo, James Risch	Mike Simpson (02)	Bruneau Water and Sewer District	\$650,000	\$1,582,000	This Rural Development investment will be used to reconstruct, raise and re-line the wastewater treatment lagoon system. Capacity will be increased, allowing the system to meet State requirements. Additional funding includes a \$30,000 Rural Development Pre-Development planning grant; \$4,978 applicant contribution, \$500,000 Idaho Department of Commerce Community Development Block Grant, \$1,200,000 in U.S. Army Corps of Engineers Section 595 funding, and a \$19,077 Idaho Department of Environmental Quality Planning Grant.
ID	Mike Crapo, James Risch	Raul R. Labrador (01)	Central Shoshone County Water District	\$1,100,000	\$300,000	This Rural Development investment will be used to replace old, leaking water distribution pipes. The project will benefit 2,674 water users in Shoshone County. Additional funding includes a \$309,000 applicant contribution, and \$1,650,000 in Rural Development Water & Waste Disposal loan funds obligated in 2016.
ID	Mike Crapo, James Risch	Raul R. Labrador (01)	City of Council	\$4,179,000	\$221,000	This Rural Development investment will be used to construct new sewer treatment lagoons in the City of Council. In addition, nearly 10,000 feet of leaky sewer mains will be replaced within the City, along with 65 manholes being either replaced or repaired. The new lagoon treatment system will enable the city to meet IDEQ sewer discharge permit limits and no longer be in violation. The collection system improvements will reduce infiltration and inflow into the treatment system and thereby reduce the volume of sewage treated. The 524 users connected to the system will have their risk and costs reduced by not having to pay EPA/State of Idaho levied fines for violating their discharge permit. Additional funding includes \$262,500 in applicant contribution, \$2,150,000 in IDEQ SRF Funding, \$37,500 In IDEQ-SRF Planning Grant, \$400,000 on USACE Section 595, and \$30,000 in Rural Development Pre-Development Planning Grant funds.

Water and Environmental Programs
USDA Rural Development
September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
IL	Richard Durbin, Tammy Duckworth	Rodney Davis (13)	Greene County Rural Water District	\$400,000	\$600,000	This Rural Development investment will provide water to 107 users in Patterson, Walkerville, Bluffdale and White Hall Townships in Greene County who need a safe and dependable water supply. This project will alleviate a health and sanitary issue due to unsafe wells and cisterns. This is a cost overrun that occurred due to delays in moving the project forward with easement issues that increased the cost of the project. The project was delayed due to obtaining easements that slowed down the complete of the right of way documents. In addition to the addition easement costs, once the project was ready for bidding, other costs had increased, as well and additional funds are needed to complete the project. Addition funding includes a \$3,246,500 Rural Development Water & Waste Disposal loan and grant awarded in FY 2016 and a \$253,500 in applicant contribution.
IL	Richard Durbin, Tammy Duckworth	Darin LaHood (18)	Menard Rural Water Cooperative	\$420,000		This Rural Development investment will be used to construct 10,600 feet of water main for up to 20 users and 4,800 feet of water main for up to 14 users to provide clean, safe drinking water.
IL	Richard Durbin, Tammy Duckworth	John Shimkus (15)	Village of Cisne	\$610,000		This Rural Development investment will used to repair and upgrade the village water treatment plant. The village provides water to more than 330 users in Wayne County.
IL	Richard Durbin, Tammy Duckworth	Rodney Davis (13)	Village of Mansfield	\$1,008,000		This Rural Development investment will be used to replace approximately 4,850 feet of water mains, improving water quality and fire protection. The system serves 465 residential customers and 13 businesses.
IL	Richard Durbin, Tammy Duckworth	John Shimkus (15)	Village of Wayne City	\$1,400,000	\$682,800	This Rural Development investment will improve water quality for 663 users in Wayne County, IL. The village will complete an upgrade of its water treatment plant.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
IN	Joe Donnelly, Todd Young	Larry Bucshon (08)	City of Petersburg	\$9,230,000		This Rural Development investment will be used to improve the water source, treatment, and storage of the City of Petersburg Water Utility System. The current Water Treatment Plant has outlived its useful life and is in poor condition. With current Indiana Department of Environmental Management treatment requirements, the City is looking to construct a new Treatment Plant that can better meet water demands and regulatory requirements. The City will also add an additional well at the current well-field to insure supply of water for future demands. One additional elevated storage tank will be added to the two existing storage tanks to insure water supply for the customer base. With the completion of I-69 south of the City, anticipated economic development is being planned for future growth. Any development will look to improve the economic well-being for the community. Due to the fact that Petersburg sells water to the community of Otwell as well as the regional water system Pike-Gibson Water, the improvements at the well-field and Water Treatment Plant will serve a much larger area of the region than Petersburg and the immediate surrounding connections. This project is the result of \$28,500 Rural Development Special Evaluation Assistance for Rural Communities and Households grant.
KS	Pat Roberts, Jerry Moran	Roger Marshall (01)	Riley County	\$319,000	\$250,000	This Rural Development investment will be used to construct a new sewer system for households in the Fairmont Heights Sewer District. Upon completion, individual septic systems will be retired and sewage will be piped to the local treatment facility. The project will improve ground water quality for a population of more than 5,400.
KY	Mitch McConnell, Rand Paul	James Comer (01)	City of Cadiz	\$3,000,000	\$734,000	This Rural Development investment will be used to complete the replacement of an outdated water plant with a new 1.5 million gallon-per-day plant, improving service to about 2,100 Trigg County residents. This project includes a \$1,890,000 Rural Development Loan (FY 2018), an \$810,000 Rural Development Grant (FY 2018), a \$1 million Community Development Block Grant, a \$1.8 million Kentucky Solid Waste Grant, and a \$400,000 Delta Regional Authority Grant.
KY	Mitch McConnell, Rand Paul	S. Brett Guthrie (02)	Edmonson County Water District	\$1,032,000	\$258,000	This Rural Development investment will be used to construct approximately 4.5 miles of water lines to serve 25 new customers, and interconnect with existing lines. Also, 30 hydrants and four leak detection meters will be installed, improving service to more than 10,400 customers in Edmonson County.
KY	Mitch McConnell, Rand Paul	Harold Rogers (05)	Laurel County Water District No. 2	\$1,850,000	\$500,000	This Rural Development investment will be used to construct a 500,000 gallon water storage tank and replace approximately two miles of water line to improve service to almost 6,000 Laurel County customers.
KY	Mitch McConnell, Rand Paul	Harold Rogers (05)	Southeastern Water Association, Inc.	\$2,196,000	\$549,000	This Rural Development investment will be used to replace aging, undersized water lines, three booster pump stations and to upgrade a pump station to meet the demands of more than 7,400 customers in Pulaski County.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
ME	Susan Collins, Angus King	Bruce Poliquin (02)	Lincolnton Sewer District	\$450,000	\$150,000	This Rural Development investment will be used to construct a sewer collection and treatment system, providing service to 42 residential and 19 business customers. Additional funding includes a \$2,600,000 Rural Development Water & Waste Disposal loan and grant awarded in FY 2016, a \$500,000 State Community Development Block Grant, and a \$250,000 Northern Border Regional Commission Grant.
MI	Debbie Stabenow, Gary Peters	John Moolenaar (04)	Albee Township	\$1,116,000	\$913,000	This Rural Development investment will be used to construct 4.65 miles of water mains, adding 58 users. Fire hydrants, valves, and restoration will be included. This is phase four of a project that will serve 214 residential and 5 commercial customers.
MI	Debbie Stabenow, Gary Peters	Daniel Kildee (05)	Beecher Metropolitan District	\$1,290,000	\$2,825,000	This Rural Development investment will be used to improve the sanitary sewage collection system. This is the second phase of the project and includes private sump pump disconnections, manhole rehabilitation, and pump station improvements. More than 3,100 residential and 100 commercial customers will benefit.
MI	Debbie Stabenow, Gary Peters	Daniel Kildee (05)	Beecher Metropolitan District	\$1,132,000		This Rural Development investment will be used to replace a water main, improve a water tank, rehabilitate two water wells and a generator. The project will serve more than 3,100 residential and 100 commercial users.
MI	Debbie Stabenow, Gary Peters	Fred Upton (06)	Charter Township of Oshtemo	\$8,346,000		This Rural Development investment will be used for expansion of the sewer collection system to unserved areas of the township. Phase 1 of a 3 phase project includes 898 new residential and commercial customers. These customers currently have onsite septic systems. Many of these septic systems are over 20 years old, built to code at that time, but are now needing repair and replacement. These private septic systems are on small lots, which do not meet current septic replacement standards. The County Health Department has documented that over half (59.1%) of the homes do not comply with the standards required today. The township currently has eleven wastewater pump stations. Each of these pumping stations are operated and maintained by the City of Kalamazoo per a wastewater treatment agreement. Kalamazoo is also paid to operating and maintain the collection system with O&M fees built into the commodity charge. The city also provides billing services for the customers of Oshtemo Township. The total three phase project is estimated to be \$25,182,000. This first phase will address the areas with the most imminent need of providing sewer collection and treatment for failing septic systems. The proposed project will include 4.5 miles of gravity sewer, one lift station, manholes, and road restoration.
MI	Debbie Stabenow, Gary Peters	John Moolenaar (04)	City of Beaverton	\$277,000	\$829,000	This Rural Development investment will be used to replace three sewage pump stations, and end groundwater infiltration. New force mains will be installed to improve service to 321 residential and 114 commercial customers.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
MI	Debbie Stabenow, Gary Peters	Paul Mitchell (10)	City of Croswell	\$1,257,000	\$3,740,000	This Rural Development investment will be used to improve the secondary sewage treatment process, upgrade the wastewater treatment facility, fund building improvements, address a riverbank discharge area and fund an energy recovery system. The changes will improve water quality and better serve 964 residential and 28 commercial customers.
MI	Debbie Stabenow, Gary Peters	Bill Huizenga (02)	City of Newaygo	\$976,000	\$1,194,000	This Rural Development investment will be used to complete reconstruction of deteriorated sanitary sewer pipes, rehabilitate sewer lift stations, add standby power to lift stations, add controls, and rehabilitate the inlet structure. The project will serve an area with 333 residential and 165 commercial users.
MI	Debbie Stabenow, Gary Peters	Daniel Kildee (05)	City of Swartz Creek	\$2,940,000	\$2,391,000	This Rural Development investment will be used to replace four miles of old, brittle iron water mains, hydrants and valves. The project will serve an area with 2,098 residential and 216 commercial customers.
MI	Debbie Stabenow, Gary Peters	Tim Walberg (07)	Village of Concord	\$3,521,000	\$679,000	This Rural Development investment will be used to replace four miles of old, brittle cast-iron distribution main. The project will improve service for 489 residential and 70 commercial customers.
MI	Debbie Stabenow, Gary Peters	Bill Huizenga (02)	White Cloud Sherman Utilities Authority	\$4,950,000		This Rural Development investment will upgrade equipment, and add generators to 15 sewage pump stations. Repairs will also be made to the wastewater treatment plant pump house. Additionally, aerators at the sewage lagoons will be replaced. Improvements will benefit 954 residential and 87 commercial customers.
MN	Amy Klobuchar, Tina Smith	Collin C. Peterson (07)	City of Currie	\$900,000	\$1,574,000	This Rural Development investment will be used to replace undersized water mains, install remote-read meters, renovate a water tower and repair the water treatment infrastructure. Portions of the storm sewer collection system will be replaced and extended. Additional funding includes a State of Minnesota Water Infrastructure Fund (WIF) grant for \$2,546,000 and applicant contribution of \$201,000. Improvements will benefit 233 users.
MN	Amy Klobuchar, Tina Smith	Timothy J. Walz (01)	City of Lakefield	\$8,452,000	\$2,513,000	This Rural Development investment will be used to provide more efficient treatment of wastewater, replacing water mains, and improve water quality for 1,700 customers. This project will enable the city to provide treated water to the residents so that in-home water softeners will no longer be needed. This will reduce the chloride levels going into the wastewater treatment plant. Additional funding includes a State of Minn. Water Infrastructure Fund grant of \$4,905,000 and applicant contribution of \$1,888,000.
MO	Roy Blunt, Claire McCaskill	Sam Graves (06)	City of Clarksdale	\$226,000	\$539,000	This Rural Development investment will be used to replace water lines, meter equipment, install ten hydrants, and improve water tower equipment. Service will be improved for more than 270 users. Additional funding for the project included a \$500,000 Community Development Block Grant.

Water and Environmental Programs
USDA Rural Development
September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
MS	Hyde-Smith, Cindy (MS), Wicker, Roger (MS)	Bennie G. Thompson (02)	Bigfield Water Association, Inc.	\$251,000	\$651,000	This Rural Development investment will be used to connect three water utilities through the construction of distribution lines. A pressure storage tank will be installed, along with a generator and fence. The project will allow for better, more reliable water service for the 248 customers of the three systems. Additional funds for this project come from a Community Development Block Grant.
MS	Roger Wicker, Cindy Hyde-Smith	Gregg Harper (03)	Crooked Creek Water Association, Inc.	\$1,981,000	\$1,489,000	This Rural Development investment will be used to construct two new water supply wells, radio read meters for all connections, a monitoring and control system, emergency generators for the wells, and water distribution system replacements as needed. The improvements will reduce water loss in a system that serves 918 customers.
MT	Jon Tester, Steve Daines	Greg Gianforte (At Large)	Flathead County Water District #101	\$587,000	\$431,000	This Rural Development Investment will be used to replace and upgrade a severely deteriorated water distribution system, improving service to 10 non-residential and 62 residential users.
NC	Thom Tillis, Richard Burr	Patrick T. McHenry (10)	City of Bessemer City	\$732,000	\$1,555,000	This Rural Development investment will be used complete construction of three new facilities including a new Administration Building, a Materials Storage shed, and a Equipment Storage Building with wash bay as well as improvements to the existing Administrative Facility and landscape . Original USDA funding included a \$471,000 Rural Development grant and a \$1,844,000 Rural Development direct loan awarded in FY 2017 and a \$40,000 applicant contribution.
NC	Thom Tillis, Richard Burr	Richard Hudson (08)	East Moore Water District	\$1,395,000	\$1,118,000	This Rural Development investment will be used to extend the public water distribution system to serve an additional 111 residents by constructing almost 9 and a half miles of new water lines.
NC	Thom Tillis, Richard Burr	Patrick T. McHenry (10)	Town of Grover	\$70,000	\$141,000	This Rural Development investment will be used to make various improvements to the town of Grover's water system. The project includes replacing the altitude valve on the water tank, valves within the system, and fire hydrants. The project will benefit 337 residential, 27 commercial, and 12 industrial users by providing a more efficient water service and a more effective operation of the system. Further, the project corrects a specific safety standard by replacing inoperable fire hydrants as well as a specific health and sanitation concern by replacing inoperable valves. The proposed improvements will allow the overall system to be more financially reliable, more efficiently operated, and better prepared to respond to users and emergency situations.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
NC	Thom Tillis, Richard Burr	David Rouzer (07)	Town of Princeton	\$310,000	\$815,000	This Rural Development investment will be used to make improvements to the town's water and sewer systems. Old pipe will be replaced, valves and fire hydrants will be replaced, sewer collection lines will be repaired or replaced, and an old grit removal system will be replaced. The project will improve service to 616 residential and 84 commercial water customers and 545 residential and 82 commercial sewer customers. Additional funding for the project includes a \$25,000 Special Evaluation Assistance for Rural Communities and Households grant and a \$7,202 applicant contribution.
NC	Thom Tillis, Richard Burr	Robert Pittenger (09), Richard Hudson (08)	Town of Red Springs	\$2,200,000	\$4,887,000	This Rural Development investment will be used to improve the water treatment plant and distribution system. A membrane treatment system will be installed, along with a new building to house it. A monitoring system will also be installed to improve service to 206 commercial and 1,447 residential users.
NC	Thom Tillis, Richard Burr	Richard Hudson (08)	Town of Taylortown	\$963,000	\$2,648,000	This Rural Development investment will be used to rehabilitate the Town's water and sewer systems by replacing the existing elevated storage tank, existing well, existing water meters, and 2 pump stations as well as installing approximately 15,200 linear feet of water line and an emergency interconnection with Moore County. The project will benefit the town's 380 residential water users as well as 124 residential and 37 commercial sewer users.
ND	Heidi Heitkamp, John Hoeven	Kevin Cramer (At Large)	City of Beach	\$482,000	\$307,243	This Rural Development investment will be used for construction of a sewer lift station and installation of approximately 4,000 feet of force main. The old lift station will be demolished. Additional funding includes a \$81,357 Community Development Block Grant from the Roosevelt Custer Regional Council for Development, and a \$307,243 Rural Development grant.
ND	Heidi Heitkamp, John Hoeven	Kevin Cramer (At Large)	City of New Town	\$2,857,000	\$2,330,000	This Rural Development investment will help fund sewage lagoon improvements for the City of New Town. The current lagoon serves a population of 1,925, and the improvements will serve projected population growth.
NE	Ben Sasse, Deb Fischer	Adrian Smith (03)	City of Ainsworth	\$1,274,000	\$453,000	This Rural Development investment will be used to reconstruct sewage lift stations and provide backup power to lift stations by installing generators. New radio read meters will be installed. Also, pipe linings will be upgraded, providing better service to more than 880 users.
NE	Ben Sasse, Deb Fischer	Adrian Smith (03)	Village of Alexandria	\$332,000	\$357,000	This Rural Development investment will be used to add an additional well to the water system and increase the size of water distribution main lines. The improvements will add both safety and efficiency to the water system for the village's 76 residents. The project was funded after completion of a report paid for with a \$30,000 Rural Development Special Evaluation Assistance for Rural Communities and Households Grant.

**Water and Environmental Programs
USDA Rural Development
September 17, 2018**

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
NE	Ben Sasse, Deb Fischer	Adrian Smith (03)	Village of Wauneta	\$1,485,000	\$1,559,000	This Rural Development investment will be used to construct two wells with well houses to provide safe drinking water to 356 users. These new wells will replace two older wells. A 50,000-gallon ground storage tank will be constructed and an emergency backup generator will also be installed. Radio read meters will replace the existing meters.
NE	Ben Sasse, Deb Fischer	Adrian Smith (03)	Village of Western	\$1,035,000	\$463,000	This Rural Development investment will be used to replace a sewage treatment facility with a land application lagoon system. Additional funding includes a \$24,000 Rural Development Special Evaluation Assistance for Rural Communities and Households grant awarded in FY 2016.
NJ	Robert Menendez, Cory Booker	Leonard Lance (07)	Borough of Frenchtown	\$434,000		This Rural Development loan guarantee investment will fund completion of the new wastewater treatment facility. The facility serves 113 businesses and 1373 residents. Additional funding includes a \$3,633,000 Rural Development Water & Waste Disposal loan and grant awarded in FY 2012, and \$4,746,000 from the NJ State Revolving Loan Fund (NJ State Infrastructure Trust).
NJ	Robert Menendez, Cory Booker	Donald Norcross (01)	Borough of Paulsboro	\$1,758,000	\$1,300,000	This Rural Development investment will be used for water improvements with the Borough of Paulsboro's 80-plus year-old water distribution system. Through previously completed hydrant testing and computer modeling of the water system, it is determined that the available fire flows in the Billingsport neighborhood, including the elementary school, are in some cases currently below 500 (gpm). This project will install a new 16-inch diameter water main-approximately 3500 linear feet through the Billingsport section of Paulsboro to the new marine terminal along the new water tower, located at 55 Lincoln Avenue (between Lincoln Avenue and Nassau Avenue) to the Paulsboro Marine Terminal. The new main will replace existing tuberculated cast iron water mains. The new water main will also provide improved fire flow service and water quality to the Billingsport Elementary School and surrounding residential area. Approximately 75 existing water system residential customers will be connected to the new water main and benefit from the improved water quality and enhanced fire flow protection. The new water main will provide and form a basis for a future of sustainable water system improvements.
NM	Tom Udall, Martin Heinrich	Steve Pearce (02)	Dona Ana MDWCA	\$655,000		This Rural Development investment will be used to complete an upgrade of the water system to include water line replacement, tank rehabilitation, and purchase of related equipment. Additional funding includes a \$32,355 applicant contribution, a \$100,200 loan and grant from the New Mexico Finance Authority Colonias Infrastructure Project Fund, an \$808,000 Rural Development Water & Waste Disposal loan and a \$3,226,000 Rural Development Water & Waste Disposal Colonia grant; both awarded in FY 2016.

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
NV	Dean Heller, Catherine Cortez Masto	Mark Amodei (02)	Mount Rose Bowl Property Owners' Water Company, Inc.	\$40,000	\$279,000	This Rural Development investment will be used to replace an outdated storage tank with a new 30,000-gallon water tank. The investment will also be used to construct a aeration building, an access road, approximately 775 feet of waterline, and purchase new aeration equipment. The upgrade will benefit 15 users. Additional Funding includes \$500,000 from the Nevada Revolving Loan Fund.
NV	Dean Heller, Catherine Cortez Masto	Mark Amodei (02)	Pine View Estates Home Owners Association	\$1,785,000	\$3,496,000	This Rural Development investment will be used to construct a waste water transmission line to connect to the local sanitation district. Also, 43 manholes will be removed and replaced, a failing treatment plant will be abandoned, 200 individual septic tanks will be bypassed and abandoned, and the pump station will be retrofitted.
NY	Charles Schumer, Kirsten Gillibrand	Tom Reed (23)	Town of Benton	\$178,000	\$145,000	This Rural Development investment is to complete a project which will provide safe water to 76 town residents. Additional funding includes a \$390,000 Rural Development loan and a \$319,000 Rural Development grant awarded in FY 2015.
NY	Charles Schumer, Kirsten Gillibrand	Elise Stefanik (21)	Town of Madrid	\$1,263,000		This Rural Development investment will be used to replace a water storage tank to improve service to 228 users in the water district. New water meters and billing software will improve accuracy and reliability. The total project cost is \$1,288,500 with RD funding of \$1,263,000, an RD Pre-Development Planning Grant (previously obligated) of \$12,000, and an applicant contribution of \$30,000.
NY	Charles Schumer, Kirsten Gillibrand	Elise Stefanik (21)	Town of Peru	\$3,612,000		This Rural Development investment will be used for improvements to replace a sewer line to avoid waste water discharge into a river. This sewer district provides service to 624 residential hook-ups and 57 other/commercial hook-ups.. Additional funding includes a \$1,006,481 NYS Water Infrastructure Improvement Act Grant.
NY	Charles Schumer, Kirsten Gillibrand	Chris Collins (27)	Town of Royalton	\$1,646,000		This Rural Development investment will help finance sewer system replacement and updates, including replacement of cracked pipes. The project will provide sanitary sewer service to 339 homes.
NY	Charles Schumer, Kirsten Gillibrand	John Katko (24)	Town of Schroepfel	\$606,000	\$485,000	This Rural Development investment will fund the installation of a low pressure sewer system to serve 47 homes. Failing septic systems will be abandoned.
NY	Charles Schumer, Kirsten Gillibrand	John Faso (19)	Village of Middleburgh	\$2,618,000	\$1,000,000	This Rural Development Investment will be used to upgrade the existing wastewater treatment plant. The 1,398 residents of the village will benefit from this investment. Additional funding includes a \$30,000 Rural Development Pre-Planning grant awarded in FY 2017 and \$10,000 in applicant contribution.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
NY	Charles Schumer, Kirsten Gillibrand	Tom Reed (23)	Village of Naples	\$1,920,000		This Rural Development investment will replace two water transmission lines, improving service to 517 residential and commercial users.
NY	Charles Schumer, Kirsten Gillibrand	John Katko (24)	Wayne County Water & Sewer Authority	\$9,000,000		This Rural Development investment will be used to construct a regional water storage tank and complete distribution system improvements that would serve 14,500 homes in six Wayne County communities. Additional funding includes a \$1,000,000 Rural Development Water & Waste Disposal loan guarantee.
OH	Sherrod Brown, Rob Portman	Steve Stivers (15)	Earnhart Hill Regional Water & Sewer District	\$3,000,000		This Rural Development investment will help finance the construction of a new water transmission line to serve 3,900 customers. Previous USDA funding includes a Water and Waste Disposal loan and grant combination totaling \$1,675,000, awarded in July 2018; which financed the purchase of sludge handling equipment for the wastewater treatment plant.
OH	Sherrod Brown, Rob Portman	Warren Davidson (08)	West Alexandria	\$1,000,000	\$713,000	This Rural Development investment will be used to construct a wastewater treatment plant, replacing a facility that is 50 years old. The new plant will serve 1,350 village residents. Additional funding includes a \$3,870,000 Rural Development Water and Waste Disposal loan awarded in March 2018, \$1.5 million in Ohio EPA Water Pollution Control Loan Funds and \$500,000 in applicant contribution.
OK	James Lankford, James Inhofe	Markwayne Mullin (02)	Clayton Public Works Authority	\$1,582,000		This Rural Development investment will be used to upgrade the town of Clayton's current water distribution system. These improvements will reduce the amount of water loss and address the Oklahoma Department of Environmental Quality's requirements. This project will benefit the town of Clayton which has a population of 821.
OK	James Lankford, James Inhofe	Frank Lucas (03)	Leedey Public Works Authority	\$607,000	\$496,000	This Rural Development investment will be used to install about 13,000 feet of water lines to stop water loss and improve water pressure for a community of 435.
OK	James Lankford, James Inhofe	Markwayne Mullin (02)	Okfuskee County Rural Water District #2	\$1,538,000		This Rural Development investment will be used to replace approximately five miles of deteriorating waterline that has been in service for more than 90 years. The project will reduce water loss and improve water pressure for about 1,000 customers.
OK	James Lankford, James Inhofe	Markwayne Mullin (02)	Sequoyah County Water Association	\$7,330,000	\$1,820,000	This Rural Development investment will be used replace approximately 10 miles of undersized water line, improving water pressure and reducing the need to purchase water from other sources. Service will be improved to 5,872 residential users, 70 commercial users and three wholesale customers. Additional funding includes \$879,000.00 from Indian Health Services.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
OK	James Lankford, James Inhofe	Tom Cole (04)	Stonewall Public Works Authority	\$1,877,000	\$562,000	This Rural Development investment will be used for water distribution system improvements, replacement of water wells, and replacement of a water storage tank. The Chickasaw Nation has agreed to invest an additional \$425,000, along with Indian Health Services to invest \$500,000. Service will be improved for 470 customers.
OR	Ron Wyden, Jeff Merkley	Greg Walden (02)	Parkdale Sanitary District	\$203,000	\$202,639	This Rural Development investment will be used to fund the completion of a sewer project to better serve a community of 311. Additional funding includes a \$2,687,906 Rural Development Water & Waste Disposal loan and grant awarded in FY 2016.
PA	Robert Casey, Patrick Toomey	Tom Marino (10)	Bloomfield Borough Water Authority	\$1,868,000		This Rural Development investment in increase costs connected with permitting, design, treatment and monitoring requirements by Pennsylvania Department of Environmental (PA DEP) for the well portion of this project. The proposed user rate will require a slight increase for the additional loan funds. This project will serve 373 residential users and 80 commercial, institutional, and multi-unit users.
PA	Robert Casey, Patrick Toomey	Mike Doyle (14)	East Huntingdon Township	\$5,078,000	\$5,431,000	This Rural Development investment will result in the construction of a sanitary sewer collection system and a pump station to serve about 700 homes. The upgrade will reduce the potential for discharge of waste water into a stream, and wastewater from the system will be sent to a nearby treatment plant.
SC	Lindsey Graham, Tim Scott	Joe Wilson (02), Jeff Duncan (03)	Breezy Hill Water & Sewer Company, Inc.	\$4,930,000	\$1,589,000	This Rural Development investment will increase the capacity of a local water treatment plant and allows the local utility to buy and repair a dam, securing the reservoir, which is the water source.
SC	Lindsey Graham, Tim Scott	James E. Clyburn (06)	City of Lake City	\$2,795,000		This Rural Development investment will be used to seal manholes and gravity sanitary sewer lines where there is evidence of storm water intrusion, surcharges or deterioration.
SC	Lindsey Graham, Tim Scott	James E. Clyburn (06)	City of Lake City	\$4,940,000	\$3,054,000	This Rural Development investment will be used to remove an old sewage treatment system and install aeration basins. The project includes the installation of a receiving station to reduce clogging of waste water treatment plant components. Funding also covers demolition of the old system.
SC	Lindsey Graham, Tim Scott	James E. Clyburn (06)	City of Lake City	\$2,300,000		This Rural Development investment will be used to replace approximately 7,000 sewer main line.
SC	Lindsey Graham, Tim Scott	Tom Rice (07)	Trico Water Company	\$3,036,600		This Rural Development investment will be used to replace approximately 6,100 outdated meters with radio-read meters, to purchase an automated billing system, add related equipment, and install five base stations.
SD	John Thune, Mike Rounds	Kristi Noem (At Large)	Fall River Water Users District	\$506,000	\$401,000	This Rural Development investment will be used to dig a new well to better serve 1,015 customers.

Water and Environmental Programs
USDA Rural Development
September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
SD	John Thune, Mike Rounds	Kristi Noem (At Large)	Town of Frederick	\$1,420,000	\$1,294,000	This Rural Development investment will be used to finance improvements to the sewage collection system. Outdated collection lines will be replaced, improvements will be made at the sewage lagoon and new controls will be installed at a lift station. There will be 126 users of the system.
SD	John Thune, Mike Rounds	Kristi Noem (At Large)	Town of Hitchcock	\$728,000	\$391,300	This Rural Development investment will be used to rehabilitate the sewer collection system. Manholes will be repaired and replaced, and new cleanouts will be installed along the main sewer line. A standby generator will be installed and two sewage lagoons will be repaired and relined. Additionally, storm sewer lines will be cleaned an relined, and storm sewer manholes will be installed, benefiting about 90 residents.
TN	Lamar Alexander, Bob Corker	David Kustoff (08)	City of Paris	\$7,200,000	\$1,000,000	This Rural Development investment will be used for the construction of a new water treatment plant. A filter building with new pumps will also be constructed. Service will be upgraded for 5,060 users and three wholesale customers.
TN	Lamar Alexander, Bob Corker	John T. Duncan Jr. (02)	Hallsdale Powell Utility District	\$21,841,100		This Rural Development investment will be used to fund a total of 36 projects in Knox, Union, and Anderson Counties. The Hallsdale-Powell Utility District water system is unable to meet the needs of the District, in part, due to aging infrastructure. Many of the sections to be replaced are 30 to 40 years old. Once these projects are complete, the overall reliability and performance of the system will be improved, in turn, improving the public health and safety provided by the system. Applicant contribution - \$5,048,000
TX	John Cornyn, Ted Cruz	K. Michael Conaway (11)	Brookesmith Special Utility District	\$3,034,000	\$2,466,000	This Rural Development investment will be used to finance water line improvements, including line relocation and meter installation. The upgrade will improve service to almost 4,000 residents.
TX	John Cornyn, Ted Cruz	Will Hurd (23)	City of Bracketville	\$3,102,000	\$411,000	This Rural Development investment will help finance improvements to the City's water distribution and wastewater systems. Water system improvements include the installation of about 23 miles of lines, the construction of a new water plant with an elevated storage tank, and the installation of a new booster pump. The City's wastewater system will also be rehabilitated, including the addition of a new pond and irrigation system, the replacement of the existing lift station and an emergency generator. Improved utility services will be provided to a population of 5,318. Additional funding includes a \$2 million Water & Waste Disposal grant for colonias and a \$411,000 persistent poverty grant.
TX	John Cornyn, Ted Cruz	Louie Gohmert (01)	EMC WSC	\$1,963,000	\$1,517,000	This Rural Development investment will be used to construct water lines to add 21 new customers to the system. A ground storage tank, booster plants and pressure tank will be installed.

**Water and Environmental Programs

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
TX	John Cornyn, Ted Cruz	Joe Barton (06)	M.E.N. Water Supply Corporation	\$2,022,000	\$1,407,800	This Rural Development investment will help finance improvements to the water distribution system. The improvements include adding approximately 23 miles of lines, and a new water plant with an elevated storage tank, replacing two ground storage tanks, pressure tanks, and boost pumps at the existing plant sites. improvements will serve a population of 5,318.
UT	Orrin Hatch, Mike Lee	Chris Stewart (02)	Glendale Town Corp	\$868,000	\$100,900	This Rural Development investment will be used to make water source and system improvements to a community of 374. Six pressure reducing valves will be installed, water meters will be replaced, and new valves will be installed at two tanks.
UT	Orrin Hatch, Mike Lee	Mia Love (04)	Nephi City	\$781,000	\$2,000,000	This Rural Development investment will be used to complete the final phase of a water improvement project. Additional funding includes a \$14,290,000 Rural Development Water and Waste Disposal program direct loan and a \$2,000,000 Rural Development water and Waste Disposal program grant, both awarded in December 2016 and \$197,000 in applicant contribution.
VA	Mark Warner, Tim Kaine	Bob Goodlatte (06)	Town of Elkton	\$15,625,000	\$7,681,000	This Rural Development investment will be used to construct a wastewater treatment plant, install two filters; and convert two aeration basins. A building will be constructed to replace the existing sludge press building. The laboratory/control building will be renovated, and the old sludge press building will be renovated for use as a maintenance building. A pump station will be replaced, and pipes will be inspected and relined or replaced, improving service to 950 residential and 150 commercial users.
VT	Patrick Leahy, Bernard Sanders	Peter Welch (At Large)	City of Winooski	\$1,222,000	\$988,000	This Rural Development investment will fund water line replacement in a community of about 7,000.
VT	Patrick Leahy, Bernard Sanders	Peter Welch (At Large)	City of Winooski	\$3,755,000	\$2,605,000	This Rural Development investment will help fund replacement of the sewer collection system include piping, new manholes and new sewer services. The project will lower the likelihood of system leakages, increase safety for cyclists and pedestrians, and improve urban forest; serving 7,000 area residents. Other funding includes \$100,000 from the State Revolving Loan Fund.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
VT	Patrick Leahy, Bernard Sanders	Peter Welch (At Large)	Town of Canaan	\$208,000	\$172,000	This Rural Development investment will be used to make wastewater improvements in the Town of Canaan, Vermont. The system serves a total of 270 customers in both Canaan, Vermont and West Stewartstown, New Hampshire. Each town operates and maintains its collection system and are jointly responsible for the operation of the treatment facility. The project includes grinder systems at the wastewater treatment facility pump station and seepage receiving station and a telemetry system. Installing grinder systems will resolve the continued plugging of the pumps due to the flow of rags and debris, potential for raw sewage overflows will be eliminated, and operation and maintenance effort and cost will be reduced. Without a telemetry system, operators currently monitor outlying pump stations by physically travelling to the location and manually recording required data and survey for alarm conditions. The telemetry system will improve operator efficiency and give immediate notice of alarm conditions and prevent potential raw sewage overflows.
VT	Patrick Leahy, Bernard Sanders	Peter Welch (At Large)	Village of North Bennington	\$2,195,000	\$500,000	This Rural Development investment will fund replacement of water lines and adding a secondary main transmission line to improve service for a community of 1,610. Additional funding is \$5,000 from the State Revolving Loan Fund.
WA	Patty Murray, Maria Cantwell	Denny Heck (10)	Mason County	\$107,400		This Rural Development investment will be used to install water meters. Additional funding includes a \$166,000 Rural Development Water & Waste Disposal loan awarded in FY 2017 and \$163,394 in applicant contribution.
WI	Ron Johnson, Tammy Baldwin	Sean P. Duffy (07)	City of Rhinelander	\$5,373,000	\$4,554,000	This Rural Development investment will be used to upgrade and replace old sanitary sewers and storm sewers , improving service to a community of 7,798.
WI	Ron Johnson, Tammy Baldwin	Sean P. Duffy (07)	Lac Du Flambeau Band of Lake Superior Chippewa Indians	\$600,000	\$793,828	This Rural Development investment will be used to improve the sewage lagoon and stop potential groundwater leaks. This project will include a constructed wetland with subsurface discharge utilizing part of the existing system. This project will improve service to more than 540 residential users and almost 70 businesses. Additional funding includes a \$1,206,172 Rural Development grant, and \$2,828,000 provided by the Indian Health Service.
WI	Ron Johnson, Tammy Baldwin	Mark Pocan (02)	Village of Ridgeway	\$186,000	\$160,000	This Rural Development investment will be used to fund completion of wastewater treatment facility improvements, better serving a community of 653. Additional funding includes a \$4,305,000 Rural Development Water & Waste Disposal Loan & Grant awarded in FY 2017.
WV	Joe Manchin, Shelley Capito	Evan Jenkins (03)	Armstrong Public Service District	\$385,000	\$618,000	This Rural Development investment will be used to provide clean water to 743 customers, and will improve fire protection by stopping water loss and improving water pressure. A water storage tank will be replaced, water lines will be upgraded and operating expenses will be reduced. Additional funding in the amount of \$1,500,000 will be provided by a Small Cities Block Grant.

Water and Environmental Programs USDA Rural Development September 17, 2018

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
WV	Joe Manchin, Shelley Capito	David McKinley (01)	Mannington Public Service District	\$1,850,000	\$1,083,000	This Rural Development investment will be used to replace 32,350 feet of water lines. A new water storage tank and booster pump station will be constructed, improving service to 115 households.
WV	Joe Manchin, Shelley Capito	Evan Jenkins (03)	Town of Durbin	\$277,000	\$2,083,000	This Rural Development investment will be used to replace sewer collection lines and reconstruct storm drains. Existing lines will be replaced and upgrades will be put in place at the sewage treatment plant. System improvements will help protect the Greenbrier River. Additional funding includes \$500,000 from the West Virginia Infrastructure and Jobs Development Council.
WV	Joe Manchin, Shelley Capito	Alex Mooney (02)	Town of Grantsville	\$1,768,000	\$2,400,000	This Rural Development investment will be used to improve the water system treatment plant. A 520,000-gallon steel ground storage tank will be constructed as part of the project.
WV	Joe Manchin, Shelley Capito	Evan Jenkins (03)	Town of Pax	\$230,000	\$631,000	This Rural Development investment will be used to install approximately 11,300 feet of water line, eight fire hydrants, and 29 meters to provide water and fire service to 23 new customers. Radio read meters will also be purchased and installed.
WY	Michael Enzi, John Barrasso	Liz Cheney (At Large)	Jamestown - Rio Vista Water & Sewer District	\$300,000	\$1,350,000	This Rural Development investment will be used to provide cost overrun funds for repairs and rehabilitation to the supply lines for the Jamestown-Rio Vista connection project to the Town of Green River. The District's water treatment plant has reached the end of its useful life. Funding collaboration for this project includes a Wyoming Water Development Commission grant for \$4,288,000 and fiscal year 2016 USDA Rural Development Direct loan of \$1,951,000, applicant contribution of \$136,000, and connection tap fees of \$25,000. More than 200 customers are being assisted with this project.
WY	Michael Enzi, John Barrasso	Liz Cheney (At Large)	Town of Fort Laramie	\$87,000	\$223,000	This Rural Development investment will be used to improve the water distribution system and purchase related equipment. The project will improve service to 146 households and five other businesses and local government facilities. Additional funding includes a \$96,669 Wyoming Business Council grant, and a \$90,000 State Lands and Investment Board grant.
WY	Michael Enzi, John Barrasso	Liz Cheney (At Large)	Town of Fort Laramie	\$165,000	\$489,000	This Rural Development investment will be used to repair failing sewer lines and improve sewage lagoons. An estimated 133 households will benefit. Additional funding includes a \$210,000 State Land and Investment Board grant and a \$225,560 Wyoming Business Council grant.
WY	Michael Enzi, John Barrasso	Liz Cheney (At Large)	Town of Greybull	\$934,000	\$565,000	This Rural Development investment will be used to upgrade the sanitary sewer system by replacing clay tile sanitary sewer mains, manholes and upgrade sewer lines. This is the first of three phases to upgrade the sewer system for the 1,847 residents of the town.
TOTAL				\$272,312,100	\$119,240,510
