

## Water and Environmental Program March 26, 2019

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
AL	Doug Jones, Richard Shelby	Martha Roby (02)	Jack Water System Inc.	\$675,000	\$507,000	This Rural Development investment will be used to make much-needed infrastructure improvements to the Jack Water System in Coffee County. Constructing a larger, elevated water storage tank and rehabilitating the well will eliminate the need to purchase water from a neighboring system. With this additional supply, the Jack Water System will operate more efficiently and continue to provide safe, affordable drinking water to its 1,138 residential and commercial customers.
AL	Doug Jones, Richard Shelby	Terri Sewell (07)	Wilcox County Water Authority	\$2,065,000	\$5,905,738	This Rural Development investment will be used to expand and improve the water system. The expansion will provide access to safe, affordable drinking water for 137 new residential customers, and will provide an interconnection with the West Dallas Water Authority. Improvements include repainting all four water tanks; installing a new automated meter reading system, radio-read meters, and an automated control and data system on all wells and tanks; and conducting geographic information system mapping of the system's infrastructure. The Wilcox County Water Authority serves 1,868 residential and 157 commercial customers. Earlier this year, the authority received a \$22,462 USDA predevelopment planning grant for the project.
AR	Tom Cotton, John Boozman	Rick Crawford (01)	City of Oak Grove Heights	\$166,000		This Rural Development investment will be used to provide additional financing to rehabilitate the lift station, replace the force main and construct an activated sludge treatment facility for the city of Oak Grove Heights. Previous funding includes a \$1,480,000 Rural Development loan.
AR	Tom Cotton, John Boozman	Steve Womack (03)	City of Pea Ridge	\$2,470,000		This Rural Development investment will be used to provide additional financing to expand the wastewater treatment facility for the city of Pea Ridge, which has a population of 4,794. Previous funding includes a \$5,600,000 Rural Development loan.
AR	Tom Cotton, John Boozman	Rick Crawford (01)	Lake City	\$2,375,000		This Rural Development investment will be used to rehabilitate Lake City's wastewater treatment and collection system, which serves 2,082 residents. This project will provide the city with a public wastewater system that meets health and sanitary standards.
AR	Tom Cotton, John Boozman	Rick Crawford (01)	Town of Sulphur Rock	\$286,000		This Rural Development investment will be used to rehabilitate the town of Sulphur Rock's wastewater treatment system. The system serves 456 residents. This project will enable the town to have a public wastewater system that meets health and sanitary standards.
AR	Tom Cotton, John Boozman	Rick Crawford (01)	City of Reyno	\$399,000		This Rural Development investment will be used to rehabilitate the city of Reyno's water tank and water distribution system. The system serves 456 residents. This project will provide the city with a public water system that meets health standards.
AZ	Krysten Sinema, Martha McSally	Raul Grijalva (03)	Berry Utilities Inc.	\$3,625,000	\$150,000	This Rural Development investment will be used to purchase a water system, an emergency generator and make minor improvements. The system consists of four wells, six steel water storage tanks, four booster stations with hydro-pneumatic tanks, and 58.5 miles of distribution system pipeline. The system serves 3,190 people.

## Water and Environmental Program March 26, 2019

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
AZ	Krysten Sinema, Martha McSally	Ann Kirkpatrick (02)	Willcox Municipal Property Corp.	\$1,200,000		This Rural Development investment will be used to provide additional financing to construct a waste water treatment plant in Willcox, which serves 3,757 residents. Additional funding includes a \$3,504,000 Rural Development loan, a \$6,655,950 Rural Development grant; \$589,015 from the Border Environment Cooperation Commission; \$4,698,210 for the North American Development Bank and a \$425,000 applicant contribution.
CA	Kamala Harris, Dianne Feinstein	Jared Huffman (02)	Millview County Water District	\$3,000,000		This Rural Development investment will be used to help the Millview County Water District purchase property to gain access to its water source. Currently, Millview does not own the water rights to the four well sites, making it difficult to service the wells if there are any issues with them, such as contamination. Gaining access to the property will help the district secure water for future years and have the ability to maintain wells on the site 24 hours a day. Millview County Water District serves 4,332 residents.
CA	Kamala Harris, Dianne Feinstein	Anna G. Eshoo (18)	San Lorenzo Valley Water District	\$8,800,000		This Rural Development investment will be used to replace more than 10,000 linear feet of water pipeline and replace two redwood water storage tanks with a new, larger steel tank. The improvements will help prevent water loss through leaks, increase reliability and improve fire flow and water storage. The district serves 4,382 residents in connections in Ben Lomond, Boulder Creek and Brookdale in Santa Cruz County.
GA	Johnny Isakson, David Perdue	Tom Graves (14)	Town of Resaca	\$313,000	\$402,000	This Rural Development investment will be used to provide additional financing to install a sewerage collection system downtown to alleviate problems with septic failures. The sewerage will be transmitted to the city of Calhoun for treatment. This system will serve 544 residents. Additional funding includes a \$674,000 Rural Development loan and a \$1,882,000 Rural Development grant.
IA	Joni Ernst, Chuck Grassley	Steve King (04)	Gilmore City	\$175,000	\$125,000	This Rural Development investment will be used to provide additional financing to help Gilmore City update its water system. Funds will be used to construct a water tower, drill a well, make distribution system improvements and complete treatment plant renovations. These improvements will address the low water pressures that the city is experiencing and will update aging infrastructure. Gilmore City, population 504, received a \$1,350,000 Rural Development loan and an \$800,000 Rural Development grant in 2016.
ID	Mike Crapo, James Risch	Mike Simpson (02)	City of Hazelton	\$403,000	\$268,000	This Rural Development investment will be used to provide additional financing to help Hazelton upgrade its water system. Hazelton serves 753 residents. The improvements will help ensure that Hazelton's water system stays in compliance with Idaho Administrative Procedures Codes. The project also will ensure the health, safety and environmental needs of the community are met, and it will allow for future economic growth and development. Additional funding includes a \$6,000 applicant contribution.

## Water and Environmental Program March 26, 2019

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
ID	Mike Crapo, James Risch	Mike Simpson (02)	City of Franklin	\$900,000	\$522,000	This Rural Development investment will be used to increase the supply of water available to the Franklin Water System, which serves 641 residents. The city owns the water rights to two springs, but over the years it has been unable to get water from them due to the degradation of the piping system. Water storage and spring boxes will be rehabilitated, and approximately two miles of pipe to connect the springs to the water system will be replaced. This project will also add two backup wells. The project will provide the city's residents and businesses with reliable water quantity and quality. Additional funding includes \$900,000 from the U.S. Army Corps of Engineers, a \$500,000 Community Development Block Grant, \$45,000 from Idaho Department of Environmental Quality planning grant, and a \$45,000 applicant contribution.
IL	Richard Durbin, Tammy Duckworth	John Shimkus (15)	EJ Water Cooperative Inc.	\$200,000		This Rural Development investment will be used to provide additional financing for water system improvements. Funds will be used to enlarge and expand the main water transmission line. The increased water main will be beneficial to future developments as the cooperative expands its service area. This investment will ensure water is ready and available to future users. The cooperative serves 10,267 users in Shelby and Effingham counties. This project will benefit 392 residents. Additional funding includes a \$2,011,000 Rural Development direct loan and \$105,000 in tap fees.
IL	Richard Durbin, Tammy Duckworth	Mike Bost (12)	Lick Creek Public Water District	\$400,000	\$510,300	This Rural Development investment will be used to provide additional funding due to design changes to the water tower, environmental mandates and additional legal work required to obtain the large number of easements needed. The project includes construction of approximately 26 miles of water line, a 250,000 gallon storage tank and a pump station to serve an additional 100 customers. Once completed, the Water District will provide potable water to approximately 2,200 residents.
IL	Richard Durbin, Tammy Duckworth	Cheri Bustos (17)	Village of Windsor	\$675,000	\$1,266,000	This Rural Development investment will be used to provide additional financing to construct a gravity flow collection system with lift stations. A treatment plant with two covered aerated lagoons and a polishing reactor will also be constructed. This project will alleviate Illinois Environmental Protection Agency violations that exist because individual septic systems discharge inadequately treated sewage into drinking water sources. The improvements will provide a more dependable sewer system to the village's 748 residents.
IN	Mike Braun, Todd Young	Jim Baird (04)	City of Rensselaer	\$3,466,000	\$1,749,000	This Rural Development investment will be used to connect three unserved areas of the city to the sewer system and to replace the main lift station. The homes that will be connected are served by individual septic systems that do not perform well in rainy conditions. This will help eliminate unhealthy and unsanitary conditions. There will be 41 new connections, all to single-family homes. The city of Rensselaer serves 5,859 residents. This is part two of a four-phase project.
IN	Mike Braun, Todd Young	Larry Bucshon (08)	Town of Troy	\$182,000		This Rural Development investment will be used to provide additional financing to build a new water treatment plant and booster pumps and install related appurtenances will be installed. The town will contribute \$50,000 toward the project. The town of Troy serves 1,016 residents.

## Water and Environmental Program March 26, 2019

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
KY	Rand Paul, Mitch McConnell	Harold Rogers (05)	Big Sandy Water District	\$1,670,000	\$700,000	This Rural Development investment will be used to rehabilitate eight storage tanks, construct a new pump station, repair five pump stations, and replace approximately eight miles of distribution line to help alleviate potential health and sanitary issues and water loss in the system. A 3,000 square-foot office building will be constructed to replace a 20-year-old trailer. Additional funding includes an \$88,000 applicant contribution. These improvements will benefit 11,964 residents in rural Boyd County.
KY	Rand Paul, Mitch McConnell	S. Brett Guthrie (02)	City of Springfield	\$400,000	\$200,000	This Rural Development investment will be used to construct a water intake in the Beech Fork River to provide a supplementary water supply for the city of Springfield. This project will benefit 9,586 existing and any future customers who will be assured of a safe and dependable water supply.
KY	Rand Paul, Mitch McConnell	Harold Rogers (05)	Hyden-Leslie County Water District	\$1,727,000	\$1,152,800	This Rural Development investment will be used to construct 14 miles of waterline, a 200,000-gallon water storage tank, and make improvements at the water treatment plant. The raw water source dam will be repaired. This project will serve about 8,484 residents in Leslie County. Additional funding includes a \$900,000 Housing and Urban Development Community Development Block Grant, a \$500,000 Appalachian Regional Commission grant, a \$323,000 Abandoned Mine Land grant, a \$15,700 Coal Severance grant, and a \$2,500 Coal Severance grant.
ME	Susan Collins, Angus King	Jared Golden (02)	Town of Bethel	\$1,203,000		This Rural Development investment will be used to provide additional financing to help the town of Bethel upgrade its de-watering building. The system serves 2,607 residents and is more than 40 years old and beyond its useful life expectancy. This project will include upgrades to bring the facility into compliance and address health and safety hazards. Additional funding includes an \$800,000 Rural Development loan, a \$503,000 Rural Development grant, and a \$319,000 applicant contribution.
ME	Susan Collins, Angus King	Jared Golden (02)	Town of Livermore Falls	\$3,972,000	\$779,000	This Rural Development investment will be used to upgrade the town's wastewater treatment facility. This system also provides services to the neighboring town of Jay. This system was put into service in 1974. Many parts are in poor condition and are approaching the end of their useful life. The town will build two circular primary clarifiers, new sludge holding tanks, and a new chlorine contact tank. The town also proposes to upgrade associated equipment, including primary sludge pumps, tank drain pumps, new HVAC systems. The project will bring the facility into compliance with local regulations, will address safety issues, and will alleviate potential hazards. Additional funding includes \$1,008,232 from the State Revolving Loan Fund.
MI	Debbie Stabenow, Gary Peters	Jack Bergman (01)	Portage Charter Township	\$960,000	\$2,040,000	This Rural Development investment will be used to construct a sewer collection system in the Greens Acre Road/M-26 corridor. Up to 75 percent of homes in the corridor may have aging drain field systems that are failing. The proposed project will include a collection system for 53 new residents and nine commercial businesses, which will consist of gravity sewer mains and a low pressure sewer, along with nine grinder pump stations and one lift station with force main. The failing collection pipe will be replaced, and manholes will be repaired. The sewer collection system will serve 1,002 residents.

## Water and Environmental Program March 26, 2019

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
MI	Debbie Stabenow, Gary Peters	Fred Upton (06)	City of Fennville	\$1,115,000		This Rural Development investment will be used to make water system improvements. Once improved, the system will have improved capacity, reliability and performance. Service leads and the water main will be replaced. New radio frequency technology will be adopted, and valves, hydrants and pavement will be restored. The water system serves 507 residential and 119 commercial customers.
MI	Debbie Stabenow, Gary Peters	Justin Amash (03)	Village of Homer	\$826,000		This Rural Development investment will provide additional financing for wastewater system improvements. The project also includes reconstruction of lift stations, replacement of the aeration system, repair of the lagoon liners, as well as the replacement of the level control system and plant instrumentation. In addition, it may be necessary to replace sections of plant piping and valves that are currently inoperable. The sewer system serves 1,668 residents.
MI	Debbie Stabenow, Gary Peters	Fred Upton (06)	Village of Vicksburg	\$1,388,000		This Rural Development investment will be used to make water system improvements. Approximately 1,300 linear feet of water main will be replaced; an abandoned section will be connected to an existing main, while a small water main will be extended. The village will also replace lead and galvanized private service lines in accordance with Michigan's new law regarding lead service lines. The proposed project will improve the capacity, reliability and performance of the water distribution system. The water system serves 6,498 residents.
MI	Debbie Stabenow, Gary Peters	Fred Upton (06)	Village of Vicksburg	\$1,402,000		This Rural Development investment will be used to make storm sewer improvements. In 2017, a wastewater system evaluation identified several issues with the 11-mile storm sewer system. This project will replace approximately one-half mile of storm sewer and install a hydrodynamic separator to treat the storm water from the new trunk line. The project will serve 2,906 residents.
MS	Roger Wicker, Cindy Hyde-Smith	Trent Kelly (01)	City of Eupora	\$3,733,000		This Rural Development investment will be used to improve the water system for the city of Eupora in Webster County, which serves 5,564 residents. An elevated water storage tank will be constructed downtown to provide additional storage and fire flow capacity. The city will also install a 500 gallon-per-minute well at the Tomnolen site, and a backup generator for emergency power. The Lagrange treatment plant and pump station will be upgraded, and a 40,000-gallon collector tank will be added. Finally, the water main connections between the existing wells and the distribution system will be upgraded, and several creek crossings will be replaced with directionally bored lines. All of these improvements will greatly enhance the overall water facility and provide for a safer, more efficient system for the Eupora's residents.
MS	Roger Wicker, Cindy Hyde-Smith	Michael Guest (03)	Sessums Water Association Inc.	\$647,000	\$499,000	This Rural Development investment will be used to construct a backup water supply well. The new well will improve the water quality and system pressure and will provide a long-term, reliable water source to the system's 1,123 residents.

## Water and Environmental Program March 26, 2019

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
NC	Thom Tillis, Richard Burr	George Holding (02)	Goldston-Gulf Sanitary District	\$289,000	\$119,000	This Rural Development investment will be used to provide additional financing for a project to demolish the standpipe; purchase land for a new elevated storage tank; install a 250,000-gallon elevated storage tank; an altitude valve and vault; a new pump station; telemetry, and 300 linear feet of 10" water main. The project will benefit 1,250 residents. Additional financing includes a \$1,003,000 Water and Environmental Program (WEP) loan of \$1,003,000, a \$400,000 WEP grant and a \$30,000 applicant contribution.
NC	Thom Tillis, Richard Burr	Patrick T. McHenry (10)	City of Saluda	\$178,000		This Rural Development investment will be used to provide additional financing to make water and sewer improvements to a system serving 1,117 residents in the city of Saluda. Additional financing includes a \$1,903,000 Water and Environmental Program direct loan and an \$8,000 applicant contribution.
NC	Thom Tillis, Richard Burr	Mark Walker (06)	Town of Dobson	\$361,000	\$172,000	This Rural Development investment will be used to provide additional financing to make improvements to the town's water treatment plant. Additional financing includes a \$1,735,000 Rural Development direct loan and an \$813,000 Rural Development grant, a \$300,000 Appalachian Regional Commission grant, a \$500,000 grant from the NC Rural Center, \$100,000 from Surry County, and a \$200,000 applicant contribution. This project will benefit 2,563 residents.
NC	Thom Tillis, Richard Burr	Mark Meadows (11)	Town of Weaverville	\$2,800,000		This Rural Development investment will be used to construct approximately 17,600 linear feet of 12-inch water line, including various hydrants, valves and fittings along Clarks Chapel Road, Ollie Weaver Road, and a portion of Monticello Road. The new water line is needed to supplement a line that is unable to meet increased water demand due to growth in the area. The additional water line will allow for sufficient water to fill the storage tank and will provide increased water pressure to serve existing and future residents.
NC	Thom Tillis, Richard Burr	Tedd Budd (13)	Town of Pikeville	\$204,000	\$136,000	This Rural Development investment will be used to provide additional financing for wastewater treatment plant improvements. Previous funding included a \$2,027,000 Rural Development loan, a \$1,000,000 Rural Development grant and a \$58,000 applicant contribution. The project will serve 678 residents.
NE	Deb Fischer, Ben Sasse	Adrian Smith (03)	Johnson County Rural Water District # 1	\$298,000		This Rural Development investment will be used to provide additional financing to replace water mains, install new lines, repaint the standpipe and replace a well pump. The rural water district serves 2,024 residents. Previous funding includes a \$1,123,000 Rural Development loan and a \$90,000 applicant contribution.
NM	Tom Udall, Martin Heinrich	Xochiti Torres Small (02)	City of Socorro	\$4,950,000	\$2,942,462	This Rural Development investment will be used to upgrade and replace interceptor sewer lines that are no longer structurally sound. Also, several lift stations will be replaced. The project will upgrade other sewer lines and equipment designed to provide better service to Socorro's 9,051 residents.

## Water and Environmental Program March 26, 2019

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
OH	Rob Portman, Sherrod Brown	Steve Stivers (15)	City of Nelsonville	\$1,000,000	\$450,000	This Rural Development investment will be used to bolster a September 2018 loan and grant combination in the amount of \$10,696,000 for the construction of a wastewater treatment plant and the addition of collection lines in portions of Appalachian Athens and Hocking counties. The new plant will replace an antiquated, undersized system that is no longer compliant with Ohio Environmental Protection Agency standards. USDA funds also will be used to purchase the Village of Buchtel's wastewater treatment system, improving efficiencies and reducing user fees for the village's 558 residents. Additional funding includes \$52,500 in connection and tap fees, \$3,811,447 in state financing, and \$500,000 from the Appalachian Regional Commission. This project will provide centralized treatment service to 297 residents with failing on-site systems. When the project is completed, 6,600 residents will benefit from a cleaner environment and improved economic opportunities, drawing new visitors, residents, businesses and industry to the area.
OH	Rob Portman, Sherrod Brown	Bill Johnson (06)	Village of Cadiz	\$4,554,000	\$1,846,000	This Rural Development investment will be used to replace the Cadiz wastewater collection system. During wet weather, the inflow to the plant exceeds capacity, preventing proper treatment and harming the health and safety of Cadiz and the surrounding area. The project will help boost the potential for economic development for this rural Appalachian community's 3,363 residents by attracting future business and industry and provide better service to existing ones. Additional funding includes \$1,200,000 in additional federal assistance, \$1,149,500 in state funding and a \$100,000 applicant contribution.
OK	James Lankford, James Inhofe	Frank Lucas (03)	Creek County Rural Water District #1	\$451,000		This Rural Development investment will be used to provide additional financing to rehabilitate and expand the water treatment system. The population of the service area is 15,925. Previous funding included a \$2,949,000 Rural Development loan, a \$1,484,000 Rural Development grant and a \$1,299,000 applicant contribution.
PA	Robert Casey, Patrick Toomey	Matt Cartwright (08)	Central Wayne Regional Authority	\$700,000	\$679,400	This Rural Development investment will be used to construct a collection system to provide service for the village of White Mills in Wayne County, which serves 2,569 residents. This project will include 39,600 linear feet of low-pressure pipe, 6,100 linear feet of force main, a pump station and approximately 260 grinder pumps. Approximately 6,250 linear feet of main interceptor along the Lacawaxen River in Honesdale Borough will be replaced. The project will provide sanitary sewer service to 271 new dwelling units. It will alleviate a health and sanitary problem in this community.
SD	John Thune, Mike Rounds	Dusty Johnson (At Large)	South Lincoln Rural Water System Inc.	\$12,392,000		This Rural Development investment will be used to build a water treatment plant, improve small diameter pipe looping, and improve the main line. The project will improve water quality and water delivery for the system's 7,113 customers. The project also will help ensure the system has the capacity to support future growth.

## Water and Environmental Program March 26, 2019

State	Sen.	Rep.	Recipient	Loans	Grants	Project Description
TX	Ted Cruz, John Cornyn	K. Michael Conaway (11)	City of Eden	\$2,768,000	\$3,877,000	This Rural Development investment will be used to replace old water distribution lines and sewer collection piping within the existing system, and construct a lift station. It will alleviate health concerns in the water system due to undersized lines, minimum pressure deficiencies, and ineffective circulation caused by multiple dead-end mains. Some portions of the water and sewer systems have reached the end of their design life and are no longer capable of reliably serving the residents of the city. The new sewage lift station will also be constructed on the east side of town, providing first-time sewer service to 110 homes currently on individual septic systems. There will be 2,766 customers served by this project.
TX	Ted Cruz, John Cornyn	Veronica Escobar (16)	El Paso County	\$2,356,000		This Rural Development investment will help finance in providing potable water to 54 residents in the Hillcrest Center neighborhood, as well as, install approximately three miles of distribution lines and 13 fire hydrants. The proposed water distribution system will provide residents with safer and reliable water. El Paso County will serve a population of 122.
TX	Ted Cruz, John Cornyn	John Ratcliffe (04)	Marilee Special Utility District	\$1,380,000		This Rural Development investment will be used to construct a 300,000 gallon elevated water storage tank and make other improvements. The tank will provide redundancy during power outages. Marilee Special Utility District serves 5,973 residents.
UT	Mitt Romney, Mike Lee	Chris Stewart (02)	Town of Elsinore	\$1,507,000	\$797,000	This Rural Development investment will be used to upgrade the town of Elsinore's water distribution system. Elsinore, population 874, must make repairs and improvements to meet health and safety standards. Expected work includes adding a 250,000 gallon water tank, and repairing the well. Additional funding includes a May 2018 USDA Special Evaluation Assistance for Rural Communities and Households grant.
WA	Maria Cantwell, Patty Murray	Rick Larsen (02)	Town of Friday Harbor	\$448,000	\$593,000	This Rural Development investment will be used to provide additional funding to replace the headworks in its entirety and improve the city of Friday Harbor's wastewater treatment facility. The town has a population of 2,162. Previous funding includes a \$2,364,000 Rural Development loan and a \$180,141 applicant contribution.
<b>TOTAL</b>				<b>\$87,454,000</b>	<b>\$28,387,700</b>
