## Save The Date *for* **Diversity Day!**

Celebrating cultural diversity provides employees with an opportunity to learn about new perspectives for sustainable development of Rural Development's multicultural workforce of tomorrow. Cultural diversity is an integral part of our nation's history and although having similar identities, our cultures are very different. This event will enhance our cross-cultural communications as well as raise awareness and education to better understand our similarities, but also respect our diversity. Come out and celebrate the great things that are being done in Rural Development.
