

Build Out Georgia

Improving Rural Water and Waste Infrastructure

Abbeville-Wilcox, Ashburn-Turner, Fitzgerald-Ben Hill, Unadilla, Vienna-Dooly, Crisp-Cordele, Tifton-Tift

Build Out Georgia began in April 2015. It is a special initiative designed to increase the reach of USDA's Water and Waste Loan and Grant Program in Georgia.

The primary goals for the initiative are to use the millions of dollars in loans, grants and guarantees allocated for Georgia in FY 2016; reduce application processing times; increase outreach to rural communities; and inform rural residents, local officials and businesses of this vital financial support.
