8. LIST OF PREPARERS

Chase Jelden

Mr. Jelden has over nine (9) years of experience in natural resources consultation and has completed NEPA documentation for multiple federal agencies over the course of his career. Additionally, Mr. Jelden has a comprehensive skill set which includes wetland delineations, Section 404 permitting, noise analysis and NEPA documentation.

Ryan Doty

Mr. Doty is a seasoned environmental permitting and remediation professional. His skill set includes completing numerous hazardous material reviews: Phase I and II Environmental Site Assessments (ESAs); spill prevention control and countermeasures (SPCC), noise analysis, soil, and ground water sampling.

Kris Davenport

Ms. Davenport is an environmental scientist with seven (7) years of experience in wetland delineations, Section 404 permitting, threatened and endangered species, Phase I and II Environmental Site Assessments, and NEPA. She has a bachelor's degree in environmental studies and life science from the University of Nebraska.

Thomas Leihsing

Mr. Leihsing is an environmental scientist with one (1) year of professional expertise. His areas of specialization include wetland delineations, Section 404 permitting, and threatened and endangered species. Additionally, he has experience in avian and plant identification, along with expertise in various surveying methodologies.
