

Sample Architect/Engineer's Certification of Compliance with BABAA

Notes to User: This is a sample Architect's/Engineer's Certification of Compliance with Build America, Buy America domestic preference requirements. This certification is not intended to be a warranty in any way, but rather the designer's professional opinion that, to the best of their knowledge, sufficient documentation exists to show that all items used on the project comply with BABAA. This certification is to be provided to the Owner at Substantial Completion.

Project Name: _____

I hereby certify that all Bidding Documents, procurement documents, and any other design deliverables comply with all applicable federal requirements including the Build America, Buy America (BABAA) domestic preference requirements mandated by the Infrastructure Investment and Jobs Act of 2021 (Pub. L. 117-58, §§ 70901-70953), or are the subject of a waiver approved by the Secretary of Agriculture or designee.

I also certify that I have obtained and reviewed BABAA documentation, including manufacturers' certifications and waivers, for all Iron, Steel, Manufactured Products, and Construction Materials installed on the project, and verified that they demonstrate compliance with BABAA.

Architect/Engineer Signature: _____ Date: _____

Name and Title: _____
