Higher Blends Infrastructure Incentive Program  
10.29.2024**

**Number of Awards: 39  
Total Grant Amount: \$39,400,812  
Grand Total Amount: \$39,400,812**

State	Senators	Representatives	Program	Recipient	Grant Amount	Project Description
AR	John Boozman (AR);Tom Cotton (AR)	Steve Womack (AR03);French Hill (AR02)	Higher Blends Infrastructure Incentive Program	Hammer Williams Company	\$330,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Hammer Williams Company is the owner of more than 10 fueling stations. This project will install twelve E85 dispensers at two fueling stations, located in Arkansas. Station location impacted by this grant are: Rogers, and Fayetteville. This project projects to increase the amount of ethanol sold by 638,083 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Nanette Barragan (CA44)	Higher Blends Infrastructure Incentive Program - IRA	Abz Inc.	\$1,267,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. ABZ Inc. is the owner of 10 or fewer fueling stations. This project will install six E85 dispensers, four B20 dispensers one ethanol storage tank, and one biodiesel storage tank at one fueling stations, located in California. Station location impacted by this grant are: Long Beach. This project projects to increase the amount of biofuel sold by 258,933 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Jimmy Gomez (CA34);Brad Sherman (CA32);Judy Chu (CA28)	Higher Blends Infrastructure Incentive Program - IRA	America Oil Co. Inc. 9	\$1,365,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. America Oil Co. Inc. 9 is the owner of more than 10 fueling stations. This project will install four E85 dispensers, seven B20 dispensers, two ethanol storage tanks, and two biodiesel storage tanks at three fueling stations, located in California. Station location impacted by this grant are: Los Angeles, Sherman Oaks, and Pasadena. This project projects to increase the amount of biofuel sold by 189,180 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Sydney Kamlager-Dove (CA37)	Higher Blends Infrastructure Incentive Program - IRA	JB Station Inc.	\$390,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. JB Station Inc. is the owner of 10 or fewer fueling stations. This project will install four E85 dispensers at one fueling station, located in California. Station location impacted by this grant are: Los Angeles. This project projects to increase the amount of ethanol sold by 101,661 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.

Grand Total Amount: \$39,400,812**

CA	Alex Padilla (CA);Laphonza Butler (CA)	John Garamendi (CA08)	Higher Blends Infrastructure Incentive Program - IRA	7 Seas	\$1,072,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. 7 Seas is the owner of 10 or fewer fueling stations. This project will install six E85 dispensers, six B20 dispensers, one ethanol storage tank, and one biodiesel storage tank at one fueling station, located in California. Station location impacted by this grant are: Richmond. This project projects to increase the amount of biofuel sold by 94,260 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Adam Schiff (CA30)	Higher Blends Infrastructure Incentive Program - IRA	Sterling Enterprises Inc.	\$225,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Sterling Enterprises Inc. is the owner of 10 or fewer fueling stations. This project will install one ethanol storage tanks at one fueling station, located in California. Station location impacted by this grant are: Burbank. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Brad Sherman (CA32)	Higher Blends Infrastructure Incentive Program - IRA	4JR Enterprises Inc.	\$877,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. 4JR Enterprises Inc. is the owner of 10 or fewer fueling stations. This project will install two E85 dispensers, two B20 dispensers, and one biodiesel storage tank at one fueling station, located in California. Station location impacted by this grant are: Studio City. This project projects to increase the amount of biofuel sold by 119,871 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Darrell Issa (CA48)	Higher Blends Infrastructure Incentive Program - IRA	APC Oil Inc.	\$540,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. APC Oil Inc. is the owner of more than 10 fueling stations. This project will install six E85 dispensers and one ethanol storage tank at two fueling stations, located in California. Station location impacted by this grant are: Poway and San Diego. This project projects to increase the amount of ethanol sold by 242,562 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Linda Sanchez (CA38)	Higher Blends Infrastructure Incentive Program - IRA	T & RS Investment Group LLC	\$97,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. T&RS Investment Group LLC is the owner of 10 or fewer fueling stations. This project will install one E85 dispenser at one fueling stations, located in California. Station location impacted by this grant are: Walnut. This project projects to increase the amount of ethanol sold by 28,641 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.

CA	Alex Padilla (CA);Laphonza Butler (CA)	Adam Schiff (CA30)	Higher Blends Infrastructure Incentive Program - IRA	Galeb Properties LLC	\$877,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Galeb Properties LLC is the owner of 10 or fewer fueling stations. This project will install four E85 dispensers, four B20 dispensers, one ethanol storage tank, and one biodiesel storage tanks at one fueling station, located in California. Station location impacted by this grant are: Glendale. This project projects to increase the amount of biofuel sold by 190,844 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Anna Eshoo (CA16)	Higher Blends Infrastructure Incentive Program - IRA	HK Sandhu Inc.	\$877,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. HK Sandhu Inc. is the owner of 10 or fewer fueling stations. This project will install two E85 dispensers, two B20 dispensers, one ethanol storage tank, and one biodiesel storage tank at one fueling station, located in California. Station location impacted by this grant are: Saratoga. This project projects to increase the amount of biofuel sold by 93,872 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Mike Thompson (CA04)	Higher Blends Infrastructure Incentive Program - IRA	Jam Energy Inc.	\$390,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Jam Energy Inc. is the owner of 10 or fewer fueling stations. This project will install four E85 dispensers at one fueling station, located in California. Station location impacted by this grant are: Santa Rosa. This project projects to increase the amount of ethanol sold by 99,013 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Katie Porter (CA47)	Higher Blends Infrastructure Incentive Program - IRA	The Russell Fischer Partnership LP	\$292,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. The Russell Fischer Partnership LP is the owner of 10 or fewer fueling stations. This project will install three E85 dispensers at one fueling station, located in California. Station location impacted by this grant are: Huntington Beach. This project projects to increase the amount of ethanol sold by 781 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	Maxine Waters (CA43)	Higher Blends Infrastructure Incentive Program - IRA	RD 786 Enterprises Inc.	\$877,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. RD 786 Enterprises Inc. is the owner of 10 or fewer fueling stations. This project will install two E85 dispensers, two B20 dispensers, one ethanol storage tank, and one biodiesel storage tanks at one fueling station, located in California. Station location impacted by this grant are: Los Angeles. This project projects to increase the amount of biofuel sold by 45,583 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.

CA	Alex Padilla (CA);Laphonza Butler (CA)	Nancy Pelosi (CA11)	Higher Blends Infrastructure Incentive Program - IRA	Twin Peaks Petroleum Inc.	\$877,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Twin Peaks Petroleum Inc. is the owner of 10 or fewer fueling stations. This project will install two E85 dispensers, two B20 dispensers, one ethanol storage tank, and one biodiesel storage tank at one fueling station, located in California. Station location impacted by this grant are: San Francisco. This project projects to increase the amount of biofuel sold by 153,963 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
CA	Alex Padilla (CA);Laphonza Butler (CA)	John Garamendi (CA08)	Higher Blends Infrastructure Incentive Program	IMTT Holdings LLC	\$5,000,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. IMTT Holdings LLC is a fuel distribution facility company. This project will consist of installing one above ground ethanol storage tank, one above ground biodiesel storage tank, and loading equipment, at one location in California. Facility location impacted by this grant are: Richmond. This project projects to increase the amount of biofuel sold by 80,179,200 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
FL	Marco Rubio (FL);Rick Scott (FL)	Greg Steube (FL17)	Higher Blends Infrastructure Incentive Program - IRA	NUVU Fuels Florida LLC	\$150,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. NUVU Fuels Florida LLC is the owner of 10 or fewer fueling stations. This project will install four E85 dispensers and four E15 dispensers, at one fueling station, located in Florida. Station location impacted by this grant are: Sarasota. This project projects to increase the amount of ethanol sold by 177,515 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
IA	Chuck Grassley (IA);Joni Ernst (IA)	Mariannette Miller-Meeks (IA01)	Higher Blends Infrastructure Incentive Program - IRA	Kardes Inc.	\$930,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Kardes Inc is the owner of 10 or fewer fueling stations. This project will install eight E15 dispensers, eight E85 dispensers, eight B20 dispensers, two ethanol storage tanks, and two biodiesel storage tanks at two fueling stations, located in Iowa. Station location impacted by this grant are: Monticello (2). This project projects to increase the amount of biofuel sold by 1,710,115 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.

IA	Chuck Grassley (IA);Joni Ernst (IA)	Mariannette Miller-Meeks (IA01)	Higher Blends Infrastructure Incentive Program - IRA	SNK Gas & Food LLC	\$624,750	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. SNK Gas & Food LLC is the owner of 10 or fewer fueling stations. This project will install three E15 dispensers, five B20 dispensers, one ethanol storage tank, and one biodiesel storage tank at one fueling station, located in Iowa. Station location impacted by this grant are: Zwingle. This project projects to increase the amount of biofuel sold by 410,732 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
IA	Chuck Grassley (IA);Joni Ernst (IA)	Randy Feenstra (IA04);Zach Nunn (IA03)	Higher Blends Infrastructure Incentive Program - IRA	H&A Mini Mart Corp.	\$1,009,943	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. H&A Mini Mart Corp. is the owner of 10 or fewer fueling stations. This project will install eleven E15 dispensers, three B20 dispensers, three ethanol storage tanks, and one biodiesel storage tank at three fueling stations, located in Iowa. Station location impacted by this grant are: Des Moines (2), and Ames. This project projects to increase the amount of biofuel sold by 404,554 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
IA	Chuck Grassley (IA);Joni Ernst (IA)	Randy Feenstra (IA04)	Higher Blends Infrastructure Incentive Program - IRA	Stratford Country Store LLC	\$229,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Stratford Country Store LLC is the owner of 10 or fewer fueling stations. This project will install two E15 dispensers, one B20 dispenser, one ethanol storage tank, and one biodiesel storage tank at one fueling station, located in Iowa. Station location impacted by this grant are: Stratford. This project projects to increase the amount of biofuel sold by 204,659 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
IA	Chuck Grassley (IA);Joni Ernst (IA)	Mariannette Miller-Meeks (IA01)	Higher Blends Infrastructure Incentive Program - IRA	Libertyville Gas & Goodies	\$248,250	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Libertyville Gas & Goodies is the owner of 10 or fewer fueling stations. This project will install two E15 dispensers, one B20 dispenser, and one ethanol storage tanks at one fueling station, located in Iowa. Station location impacted by this grant are: Libertyville. This project projects to increase the amount of biofuel sold by 136,002 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.

IA	Chuck Grassley (IA);Joni Ernst (IA)	Randy Feenstra (IA04)	Higher Blends Infrastructure Incentive Program - IRA	GA Combine LLC	\$101,250	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. GA Combine LLC is the owner of 10 or fewer fueling stations. This project will install three E15 dispensers and two E85 dispensers at two fueling stations, located in Iowa. Station location impacted by this grant are: Fort Dodge. This project projects to increase the amount of ethanol sold by 165,637 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
IL	Dick Durbin (IL);Tammy Duckworth (IL)	Darin LaHood (IL16);Raja Krishnamoorthi (IL08);Mary Miller (IL15)	Higher Blends Infrastructure Incentive Program	Thorntons LLC	\$474,507	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Thorntons LLC is the owner of more than 10 fueling stations. This project will install eight E15 dispensers, twelve E85 dispensers and two ethanol storage tanks at three fueling stations, located in Illinois. Station location impacted by this grant are: East Peoria, Springfield, and St. Charles. This project projects to increase the amount of ethanol sold by 6,050,938 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
KS	Jerry Moran (KS);Roger Marshall (KS)	Ron Estes (KS04);Tracey Mann (KS01)	Higher Blends Infrastructure Incentive Program - IRA	Jump Start Stores Inc.	\$475,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Jump Start Stores Inc. is the owner of more than 10 fueling stations. This project will install eleven E15 dispensers and eleven E85 dispensers at three fueling stations, located in Kansas. Station location impacted by this grant are: Wichita, Augusta, and Abilene. This project projects to increase the amount of ethanol sold by 878,400 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
KS	Jerry Moran (KS);Roger Marshall (KS)	Tracey Mann (KS01)	Higher Blends Infrastructure Incentive Program - IRA	Dara's LLC	\$285,000	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Dara's LLC is the owner of 10 or fewer fueling stations. This project will install two E15 dispensers, two E85 dispensers and one ethanol storage tank at one fueling station, located in Kansas. Station location impacted by this grant are: Manhattan. This project projects to increase the amount of ethanol sold by 343,098 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
KS	Jerry Moran (KS);Roger Marshall (KS)	Tracey Mann (KS01)	Higher Blends Infrastructure Incentive Program - IRA	The Randall Farmers Co-Operative Union	\$37,500	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. The Randall Farmers Co-Operative Union is the owner of 10 or fewer fueling stations. This project will install one E15 dispenser at one fueling station, located in Kansas. Station location impacted by this grant are: Randall. This project projects to increase the amount of ethanol sold by 291,880 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.

Farmers Union Oil Company of Alexandria is the owner of 10 or fewer fueling stations. This project will install two E85 dispensers, three B20 dispensers, two ethanol storage tanks, and two biodiesel storage tanks at one fueling station, located in Minnesota. Station location impacted by this grant are: Garfield. This project projects to increase the amount of biofuel sold by 97,685 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
MN	Amy Klobuchar (MN);Tina Smith (MN)	Michelle Fischbach (MN07)	Higher Blends Infrastructure Incentive Program - IRA	Farmers Coop Fuel and Hardware	\$512,250	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Farmers Coop Fuel and Hardware is the owner of 10 or fewer fueling stations. This project will install two E85 dispensers, three B20 dispensers, two ethanol storage tanks, and one biodiesel storage tank at one fueling station, located in Minnesota. Station location impacted by this grant are: Fisher. This project projects to increase the amount of biofuel sold by 67,215 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
MN	Amy Klobuchar (MN);Tina Smith (MN)	Angie Craig (MN02)	Higher Blends Infrastructure Incentive Program - IRA	Mega Stop Inc.	\$330,750	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. Mega Stop Inc. is the owner of 10 or fewer fueling stations. This project will install seven B20 dispensers at one fueling station, located in Minnesota. Station location impacted by this grant are: Lakeville. This project projects to increase the amount of biodiesel sold by 273,814 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
MN	Amy Klobuchar (MN);Tina Smith (MN)	Dean Phillips (MN03);Betty McCollum (MN04)	Higher Blends Infrastructure Incentive Program - IRA	University One Inc.	\$1,476,750	This Rural Development investment will be used to create infrastructure to expand the sales and use of renewable fuels. University One Inc. is the owner of 10 or fewer fueling stations. This project will install six E15 dispensers, five E85 dispensers, five B20 dispensers, three ethanol storage tanks, and three biodiesel storage tanks at three fueling stations, located in Minnesota. Station location impacted by this grant are: St. Paul (2) and Hopkins. This project projects to increase the amount of biofuel sold by 1,075,000 gallons per year. The purpose of this funding program is to assist owners of transportation fueling and fuel distribution facilities in activities designed to expand the sales and use of ethanol and biodiesel.
