Pets Deserve Planet-Friendly Biobased Products too!

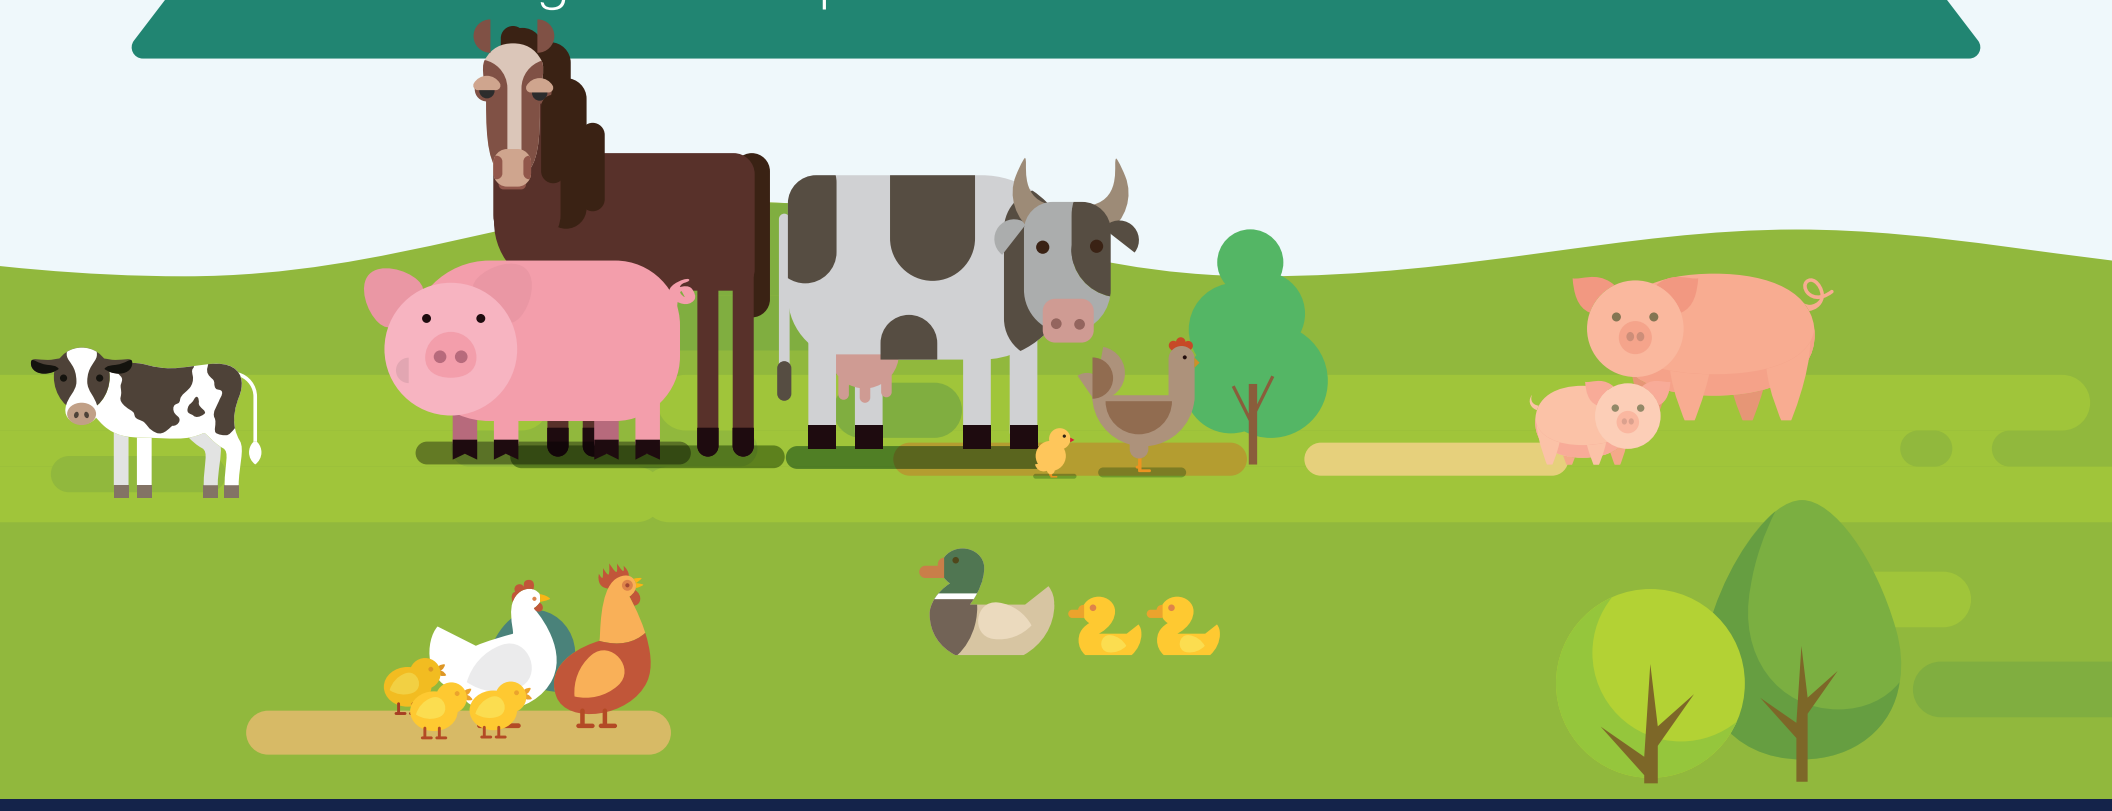
When it comes to animal habitat and pet care, look for:

Biobased pet cleaning products, like fur and coat shampoos for all types of animals, including cats, dogs, horses and cattle!

Kitty (rabbit, ferret and critter) litter made from renewable resources like whole-kernel corn, wood materials and all-natural hemp.

Poop-bags, pet stain removers, odor removers and urine cleaners.

Even the big animals in your life, like horses, pigs, sheep, goats and cows can have their stalls and corrals freshened using microbial products like A.C.T. Corral Cleaner.



What are your pet products made of?

Find these and many other biobased options in the BioPreferred Program Catalog.
