

USDA Rural Development  
Rural Energy for America Program (REAP)  
Renewable and Energy Efficiency Program

Senators	Representatives	Recipient	Loan Amount	Grant Amount	Project Description
Josh Hawley (MO);Eric Schmitt (MO)	Sam Graves (MO06)	Neil Weiler		\$52,083	This Rural Development investment will be used to help Neil Weiler, swine production operation in Rutledge, Missouri, install a 45 kilowatt (kW) solar array system. This project is expected to save \$6,284 per year. It will replace 62,615 kilowatt hours (kWh) (100 percent of the farm's energy use) per year which is enough electricity to power five homes. Special Initiative: Medically Underserved
Josh Hawley (MO);Eric Schmitt (MO)	Sam Graves (MO06)	David Palmer Farms Inc.		\$163,858	This Rural Development investment will be used to help David Palmer Farms Inc., an ag producer in Bolckow, Missouri, install a new energy efficient grain dryer to replace one diesel tractor for his farming operation. This project is expected to save \$30,945 per year. It will replace 495,661 kilowatt hours (kWh) (59.92 percent of the farm businesses energy use) per year, which is enough energy to power 46 homes.
Josh Hawley (MO);Eric Schmitt (MO)	Mark Alford (MO04)	Compton Custom Services Inc.		\$48,976	This Rural Development investment will be used to assist Compton Custom Services Inc. upgrade two diesel pumps to propane. Compton Custom Services Inc. is a row crop operation in Lamar and Webb City, Missouri. This project is expected to save \$3,078 dollars in energy cost per year, which is enough energy to power seven homes. DISTRESSED COMMUNITY
Josh Hawley (MO);Eric Schmitt (MO)	Eric Burlison (MO07)	Stebler Farms Inc.		\$231,718	This Rural Development investment will be used to assist Dale Stebler purchase and install a 81.5 kilowatt (kW) and 99.4 (kW) solar array. Dale Stebler is the owner operator of his farm in Monett, Missouri, is expected to generate 251,143 kilowatt hours (kWh) of energy annually, resulting in \$24,110 dollars saved in energy use. This is enough to power 23 homes.
Josh Hawley (MO);Eric Schmitt (MO)	Mark Alford (MO04)	Ben Voeller		\$55,250	This Rural Development investment will be used to help Ben Voeller, a beef cattle production business in Hallsville, Missouri, install a 15 kilowatt (kW) wind turbine. This project is expected to save \$1,927 per year. It will generate 19,267 kilowatt hours (kWh) (100 percent of the farm's energy use) per year.
Josh Hawley (MO);Eric Schmitt (MO)	Mark Alford (MO04)	James Alan Cox		\$79,560	This Rural Development investment will be used to assist James Alan Cox purchase and install a 27.3 kilowatt (kW) and 52.26 kW solar array for James Alan Cox. James Alan Cox owns and operates a farm in Butler, Missouri. This project is expected to save \$8,046 per year. It will replace 100,577 kilowatt hours (kWh) (54 percent), which is enough energy to power nine homes.

USDA Rural Development  
Rural Energy for America Program (REAP)  
Renewable and Energy Efficiency Program

Josh Hawley (MO);Eric Schmitt (MO)	Jason Smith (MO08)	Wolf Island Farms Inc.		\$91,520	This Rural Development investment will be used to help Wolf Island Farms Inc., a farming operation in East Prairie, Missouri, install a energy efficient grain dryer. This project is expected to save \$10,504 per year. It will save 13,984 kilowatt hours (kWh) (48 percent of the farm's energy use) per year, which is enough energy to power one home.
Josh Hawley (MO);Eric Schmitt (MO)	Mark Alford (MO04)	Century K Solutions LLC		\$25,105	This Rural Development investment will be used to help Century K Solutions LLC purchase and install a 15.17 kilowatt (kW) solar array in Metz, Missouri. Century K Solutions LLC a farmer assisted business, is expected to generate 21,761 kilowatt hours (kWh) of energy annually, resulting in \$435 dollars saved in energy use. This is enough energy to power two homes. Special Initiatives: Disadvantaged Community, Strike Force Area
Josh Hawley (MO);Eric Schmitt (MO)	Jason Smith (MO08)	Heimbürger Construction Inc.		\$32,725	This Rural Development investment will be used to assist Heimbürger Construction Inc., with purchase and installation of a 37.2 kilowatt (kW) solar array. Heimbürger Construction, a construction company specializing in metal buildings in Bonne Terre, Missouri, is expected to generate 37,234 kilowatt hours (kWh) of energy annually, resulting in \$4,353 dollars saved in energy use. This is enough to power three homes. Special Initiative: Underrepresented Groups (FEMALE-OWNED BUSINESS)
Josh Hawley (MO);Eric Schmitt (MO)	Jason Smith (MO08)	M.S.T. Farms LLC		\$30,606	This rural development investment will be used to help M.S.T. Farms LLC, a row crop farming operation in Neelyville, Missouri, install a new grain bin monitoring system for six grain bins. This project is expected to save \$3,426 per year. It will replace 41,521 kilowatt hours (kWh) (53 percent of the farm's energy use per year), which is enough energy to power three homes.
Josh Hawley (MO);Eric Schmitt (MO)	Jason Smith (MO08)	Palma Academy Of Learning LLC		\$38,153	This rural development investment will be used to help Palm Academy of Learning LLC, a learning center for autistic persons in Kennett, Missouri, install a new HVAC system and upgrade the center's electrical system. This project is expected to save \$1,330 per year. It will replace 15,607 kilowatt hours (kWh) (30 percent of the center's energy use per year), which is enough energy to power one home.
Josh Hawley (MO);Eric Schmitt (MO)	Sam Graves (MO06)	Austin Parman		\$229,889	This Rural Development investment will be used to help Austin Parman, an Agriculture producer in Barnard, Missouri, install a new energy efficient grain handling system to replace two diesel tractors for his farming operation. This project is expected to save \$11,528 per year. It will replace 132,478 kilowatt hours (kWh) (83.99 percent of the farm businesses energy use) per year, which is enough energy to power 12 homes.

USDA Rural Development  
Rural Energy for America Program (REAP)  
Renewable and Energy Efficiency Program

Josh Hawley (MO);Eric Schmitt (MO)	Mark Alford (MO04)	Matthew Simpson dba Valhalla Farms LLC		\$34,130	This Rural Development investment will be used to help Matthew Simpson dba Valhalla Farms LLC, an ag producer in Richards, Missouri, replace 3 diesel irrigation pumps with 2 electrical irrigation pumps. This project is expected to save \$8,797 per year. It will replace 142,361 kilowatt hours (kWh) (83.71 percent of the farms energy use) per year, which is enough electricity to power 13 homes.
Josh Hawley (MO);Eric Schmitt (MO)	Mark Alford (MO04)	Viebrock Farms Stover LLC		\$344,666	This Rural Development investment will be used to help Viebrock Farms Stover LLC, a poultry farm in Stover, Missouri, install a new 282.42 kilowatt (kW) solar array system. This project is expected to save \$22,747 per year. It will generate 393,897 kilowatt hours (kWh) (100 percent of the businesses energy use) per year, which is enough energy to power 36 homes.
Josh Hawley (MO);Eric Schmitt (MO)	Jason Smith (MO08)	Toppertown Inc. dba Castor River Farms		\$195,978	This rural development investment will be used to help Toppertown Inc., an agriculture producer in Bell City, Missouri, install a new monitoring system on the farm's grain bins. This project is expected to save \$17,743 per year. It will save 197,643 kilowatt hours (kWh) (63 percent of the farm's energy use per year), which is enough energy to power 18 homes.
Josh Hawley (MO);Eric Schmitt (MO)	Sam Graves (MO06)	The Solar Guys LLC		\$49,751	This Rural Development investment will be used to help The Solar Guys LLC, a solar installation company in Holt, Missouri, install a 25.6 kilowatt (kW) solar array. This project is expected to save \$3,202 per year. It will replace 35,583 kilowatt hours (kWh) (100 percent of the business's energy use) per year.
Josh Hawley (MO);Eric Schmitt (MO)	Mark Alford (MO04)	MarChloe Midwest LLC		\$99,500	This Rural Development investment will be used to help MarChloe Midwest LLC purchase and install a 90.3 kilowatt (kW) solar array. This project is expected to save \$19,057 per year. It will replace 142,971 kilowatt hours (kWh) (105 percent of the company's energy use) per year, which is enough energy to power 13 homes.
Josh Hawley (MO);Eric Schmitt (MO)	Mark Alford (MO04)	Matt Knehans		\$57,250	This Rural Development investment will be used to help Matt Knehans, a hay producer in Pleasant Hill, Missouri, install a 15 kilowatt (kW) wind turbine. This project is expected to save \$1,098 per year. It will generate 43,911 kilowatt hours (kWh) (100 percent of the farm's energy use) per year.
Josh Hawley (MO);Eric Schmitt (MO)	Blaine Luetkemeyer (MO03)	Doolittle Trailer Mfg. Inc.		\$646,491	This Rural Development investment will be used to help Doolittle Trailer Mfg. Inc., a utility trailer manufacturing business in New Bloomfield, Missouri, install a geothermal system for a new facility. This project is expected to save \$48,001 per year. It will generate 685,731 kilowatt hours (kWh) per year, which is enough electricity to power 63 homes.

USDA Rural Development  
Rural Energy for America Program (REAP)  
Renewable and Energy Efficiency Program

Josh Hawley (MO);Eric Schmitt (MO)	Blaine Luetkemeyer (MO03)	Forck Farms & Services LLC		\$90,538	This Rural Development investment will be used to help Forck Farms & Services LLC, a farming operation in Holts Summit, Missouri, install a 62.16 kilowatt (kW) solar array system. This project is expected to save \$5,751 per year. It will replace 83,469 kWh (100 percent of the farms energy use) per year, which is enough energy to power seven homes.
Josh Hawley (MO);Eric Schmitt (MO)	Blaine Luetkemeyer (MO03)	Sustainable Biogas Energy Company LLC	\$15,084,500		This Rural Development investment will be used to help SBEC TR QALICB, LLC, a developer and operator of landfill gas to energy projects, upgrade the existing landfill gas collection system at Timber Ridge Landfill in Richwoods, Missouri, by constructing and operating an upgraded landfill to renewable natural gas plant. The plant is expected to generate 93,108,147 kilowatt hours (kWh) of energy annually, which is enough energy to power 8,689 homes.
Josh Hawley (MO);Eric Schmitt (MO)	Blaine Luetkemeyer (MO03)	SBEC TR QALICB LLC	\$9,915,500		This Rural Development investment will be used to help SBEC TR QALICB LLC, a developer and operator of landfill gas to energy projects, upgrade the existing landfill gas collection system at Timber Ridge Landfill in Richwoods, Missouri, by constructing and operating an upgraded landfill to renewable natural gas plant. The plant is expected to generate 93,108,147 kilowatt hours (kWh) of energy annually, which is enough energy to power 8,689 homes.
Josh Hawley (MO);Eric Schmitt (MO)	Sam Graves (MO06)	Altona Solar LLC	\$24,600,000		This Rural Development investment will be used to assist West Town Bank & Trust construct a utility-scale solar field to be located near Centralia, Missouri. The 41.700-megawatt (MW) solar array is projected to generate 70,938,143 kilowatt hours (kWh) of energy in its first year of production. This is enough energy to power more than 6,620 homes annually. All energy generated will be sold to Google Energy LLC by way of an interconnection agreement to the power grid of Ameren Missouri. This project will create three new jobs with an average wage rate of \$30 per hour. West Town Bank & Trust will fund this project with a \$24,600,000 guaranteed loan through Rural Development's Rural Energy for America Program. Additionally, the borrower will contribute \$50,067,854 of equity to the project. Total project cost is \$74,667,854. Rural Pov Target.
Josh Hawley (MO);Eric Schmitt (MO)	Blaine Luetkemeyer (MO03)	Tab Farms LLC		\$39,484	This Rural Development investment will be used to assist cattle farm, TAB Farms LLC, purchase and install a 16.2 kilowatt (kW) solar array. The farm is located in Eldon, Missouri, and is expected to generate 20,621 kilowatt hours (kWh) of energy annually, resulting in \$412 in energy savings. The new solar array is enough to power one home.

USDA Rural Development  
Rural Energy for America Program (REAP)  
Renewable and Energy Efficiency Program

Josh Hawley (MO);Eric Schmitt (MO)	Jason Smith (MO08)	Tony's Tire Service LLC		\$47,328	This Rural Development investment will be used to assist Tony's Tire Service LLC purchase and install a 36.66 kilowatt (kW) solar array. Tony's Tire Service, a tire dealer in West Plains, Missouri, is expected to generate 43,654 kilowatt hours (kWh) of energy annually, resulting in \$4,322 dollars saved in energy use. This is enough to power four homes.
Josh Hawley (MO);Eric Schmitt (MO)	Sam Graves (MO06)	Envoy Solar LLC	\$46,750,000		This Rural Development investment will be used to provide two loan guarantees to Pathward National Association for the construction of a utility-scale solar field to be located just outside of Mexico, Missouri. The 69.596-megawatt solar array is projected to generate 114,105,367 kilowatt hours of energy in its first year of production. This is enough energy to power more than 10,649 homes annually. All energy generated will be sold to Google Energy LLC by way of an interconnection agreement to the power grid of Ameren Missouri. This project will create three new jobs with an average wage rate of \$30 per hour. Pathward National Association will fund this project with a \$21,750,000 guaranteed loan through Rural Development's Business & Industry Loan Guarantee program and a \$25,000,000 guaranteed loan through Rural Development's Rural Energy for America Program. Additionally, the borrower will contribute \$84,790,981 of equity to the project. Total project cost is \$131,540,981.
Josh Hawley (MO);Eric Schmitt (MO)	Jason Smith (MO08)	Dave K. Jain DO PC		\$29,923	This Rural Development investment will be used to help Dave K. Jain DO, PC, a physician in Kennett, Missouri, install an energy efficient HVAC system. This project is expected to save \$3,624 in energy costs per year. Special Initiatives: Disadvantaged and Distressed Community, Equity, Medically Underserved, Opportunity Zone, Persistent Poverty County, High Poverty, FEMA Disaster
Josh Hawley (MO);Eric Schmitt (MO)	Sam Graves (MO06)	Binney Farms Inc.		\$114,500	This Rural Development investment will be used to help Binney Farms, a grain production farm in Trenton, Missouri, install two 15 kilowatt (kW) wind turbines. This project is expected to save \$7,000 per year. It will generate 71,564 kilowatt hours (kWh) (96 percent of the farm's energy use) per year which is enough electricity to power six homes. Special Initiatives - Distressed Area, Medically Underserved
Josh Hawley (MO);Eric Schmitt (MO)	Eric Burlison (MO07)	myCPAguy LLC		\$49,855	This Rural Development investment will be used to help myCPAguy LLC, an accounting firm business in Highlandville, Missouri, install a 33.8 kilowatt (kW) solar array. This project is expected to save \$5,557 per year. It will replace 46,951 kilowatt hours (kWh) (87 percent of the business's energy use) per year. Special Initiative: Medically Underserved
