Rural Energy for America Program
Projects: 10; Grant: \$3,211,179**

Borrower	Grant	Project Description
Gerad Puterbaugh	\$174,512	This Rural Development investment will be used to install a grain dryer at a farm near Cavour, South Dakota. This project will save \$17,427 and replace 282,051 kilowatt hours (kWh) per year, which is enough energy to power 26 homes.
Golden Dakota Farms LLC	\$1,000,000	This Rural Development investment will be used to install an anaerobic digester at Golden Dakota Farms LLC, a dairy farm operation in Elkton, South Dakota. This project is expected to save \$1,652,080 and will generate 24,209,848 kilowatt hours (kWh), which is enough energy to power 2,233 homes.
Reed Swenson	\$63,022	This Rural Development investment will be used to install a 20-loop geothermal heat pump system for an agricultural producer farm near Bath. The project will save \$2,017 per year in energy costs and will replace 79,856 kilowatt hours (kWh) of electricity per year, which is enough electricity to power seven homes.
KF Farms LLC	\$83,094	This Rural Development investment will be used to install a more efficient grain dryer system at a farm located near Brandt, South Dakota. This project will save \$2,098.00 and save 29,933 kilowatt hours (kWh) of electricity per year, which is enough electricity to power two homes.
Coteau Tiling Inc.	\$22,480	This Rural Development investment will be used to install a 52.5 kilowatt (kW) ground mounted, fixed-tilt solar array at a rural tiling business near Revillo, South Dakota. This project will replace \$4,987 per year in energy costs and 71,460 kilowatt hours (kWh) of electricity per year, which is enough electricity to power six homes.
Jason Scott Hofer	\$122,412	This Rural Development investment will be used to install a grain dryer at a farm near Bridgewater, South Dakota. This project will save \$8,820 and replace 130,734 kilowatt hours (kWh) per year, which is enough energy to power 12 homes.
Sturgis Meats LLC	\$483,694	This Rural Development investment will be used to install a refrigeration system at Sturgis Meats in Meade. This project will save \$32,262.00 per year in energy costs and will save 255,358 kilowatt hours (kWh) of electricity per year, which is enough electricity to power 23 homes.
Dakota Line Energy LLC	\$1,000,000	This Rural Development investment will be used to install an anaerobic digester at Dakota Line Energy LLC in Humboldt. This project is expected to save \$1,612,140. It will generate 23,624,560 kilowatt hours (kWh), which is enough energy to power 2,179 homes.
Amy Piotter	\$207,300	This Rural Development investment will be used to install a more efficient grain dryer at a farm located near New Effington, South Dakota. This project will save \$1,474.00 and 20,383 kilowatt hours (kWh) of electricity per year, which is enough electricity to power two homes.
Paul Deboer	\$54,665	This Rural Development investment will be used to install a 20 loop geothermal heat pump system at a farm shop near Corona, South Dakota. The project will save \$4,404 and generate 22,212 kilowatt hours (kWh) of electricity per year, which is enough electricity to power two homes.
