

Recipient	Grant	Project Description
Randy Weaver	\$225,000	This Rural Development investment will be used to purchase and install a 254.25 kilowatt (kW) solar photovoltaic system the Randy J. Weaver chicken farm operating for 13 years in Richland, Pennsylvania. The project annually is expected to save the farm approximately \$37,200 and replace 282,846 kilowatt hours (kWh), enough energy to power 26 homes.
Johnson Farms	\$48,586	This Rural Development investment will be used to purchase and install a more energy-efficient grain dryer at Johnson Farms, a grain farm operating since 2018 in Bloomberg, Pennsylvania. The project annually is expected to save the farm approximately \$16,900 and decrease its energy consumption by 43 percent.
Steve Strickland	\$157,225	This Rural Development investment will be used to purchase and install a 178.2 kilowatt (kW) solar photovoltaic system for the Steve Strickland farm operating more than 40 years in Bainbridge, Pennsylvania. The project annually is expected to save the farm approximately \$22,800 and replace 184,084 kilowatt hours (kWh), enough energy to power 16 homes.
Dawson's Orchards Inc.	\$229,824	This Rural Development investment will be used to help purchase and install a 201.6 kilowatt (kW) solar photovoltaic system at Dawson's Orchards Inc., a family-owned orchard operating since 1946 in Enon Valley, Pennsylvania. The business specializes in wholesale fruit packaging and shipping. The project annually is expected to save the orchard approximately \$30,200 and replace 213,305 kilowatt hours (kWh), enough energy to power 19 homes.
Mad Dog 159 LLC	\$28,959	This Rural Development investment will be used to purchase and install a 25.22 kilowatt (kW) solar photovoltaic system at Mad Dog 159 LLC, a family-owned restaurant operating since 2020 in Kane, Pennsylvania. The project annually is expected to save the business approximately \$4,800 and replace 72,479 kilowatt hours (kWh), enough energy to power six homes.

Lapp Family Market	\$123,900	This Rural Development investment will be used to purchase and install a 132 kilowatt (kW) solar photovoltaic system at Lapp Family Market, a family-owned grocery store operating for 10 years in Latrobe, Pennsylvania. The project annually is expected to save the business approximately \$12,800 and replace 128,159 kilowatt hours (kWh), enough energy to power 11 homes.
Allegro Wine Company LLC	\$46,400	This Rural Development investment will be used to help purchase and install a 45 kilowatt (kW) solar photovoltaic system at Allegro Wine Company LLC, an independent craft winery operating for 22 years in Stewartstown, Pennsylvania. The project annually is expected to save the winery approximately \$7,000 and replace 50,665 kilowatt (kWh), enough energy to power four homes.
Performance Motors	\$226,700	This Rural Development investment will be used to purchase and install a 236 kilowatt (kW) solar photovoltaic system at Performance Motors, a retail automotive business operating since 1970 in Sinking Springs, Pennsylvania. The project annually is expected to save the business approximately \$28,600 and replace 128,159 kilowatt hours (kWh), enough energy to power 26 homes.
BHL Partnership	\$52,497	This Rural Development investment will be used to purchase and install a 50 kilowatt (kW) solar photovoltaic system at BHL Partnership, a building materials seller operating since 1991 in Spring Mills, Pennsylvania. The project annually is expected to save the business approximately \$5,800 and replace 56,937 kilowatt hours (kWh), enough energy to power five homes.
A Plus Landscaping	\$44,400	This Rural Development investment will be used to purchase and install a 58 kilowatt (kW) solar photovoltaic system at A Plus Landscaping, operating 10 years in Reinholds, Pennsylvania. The project annually is expected to save the business approximately \$16,300 and generate 63,948 kilowatt hours (kWh), enough energy to power five homes.

Brubaker Farms	\$193,382	This Rural Development investment will be used to help purchase and install a 224.07 kilowatt (kW) solar photovoltaic system at Brubaker Farms, a dairy farm operating since 2015 in Mount Joy, Pennsylvania. The project annually is expected to save the farm approximately \$30,630 and replace 255,250 kilowatt hours (kWh), enough energy to power 23 homes.
Gardell Weaver	\$250,000	This Rural Development investment will be used to purchase and install a 415.8 kilowatt (kW) solar photovoltaic system at the Gardell Weaver layer-chicken farm, operating since 2010 in Lebanon, Pennsylvania. The project annually is expected to save the farm approximately \$10,500 and generate 487,236 kilowatt hours (kWh), enough energy to power 44 homes.
Michael W. Ohler	\$23,335	This Rural Development investment will be used to purchase and install a 20 kilowatt (kW) solar photovoltaic system for the Michael W. Ohler grain farm operating since 1975 in Polk, Pennsylvania. The project annually is expected to save the farm approximately \$3,000 and replace 23,760 kilowatts (kWh), enough energy to power two homes.
Jason L. Shives	\$159,717	This Rural Development investment will be used to help Jason L. Shives purchase and install a 141.1 kilowatt (kW) solar photovoltaic system for his hog farming operation located in Harrisonville, Pennsylvania. He and his wife have been hog farming since 2011. This project is expected to save the farm approximately \$18,000 per year and will replace 168,815 kilowatt hours (kWh) per year, which is enough energy to power 15 homes.
Brook Valley Farms LLC	\$98,495	This Rural Development investment will be used to help Brook Valley Farms LLC, a farming operation located in Strasburg, Pennsylvania, purchase and install a 103.95 kilowatt (kW) solar photovoltaic system. Brook Valley Farms LLC has been operating for 27 years. This project is expected to save the farm approximately \$11,900 per year. It will replace 129,276 kilowatt hours (kWh) per

		year, which is enough energy to power 11 homes.
Good View Farm LLC	\$139,667	This Rural Development investment will be used to help Good View Farm LLC, a dairy farming operation in Canton, Pennsylvania, purchase and install a 129.15 kilowatt (kW) solar photovoltaic system. Good View Farm LLC has been operating since 2009. This project is expected to save the farm approximately \$17,400 per year and will replace 138,279 kilowatt hours (kWh) per year, which is enough energy to power 12 homes.
Melody Lawn Farms LLC	\$49,599	This Rural Development investment will be used to help Melody Lawn Farms LLC, a dairy farming operation in Ronks, Pennsylvania, purchase and install a 49.05 kilowatt (kW) solar photovoltaic system. Melody Lawn Farms LLC has been operating for 34 years. This project is expected to save the farm approximately \$8,000 per year and will replace 50,186 kilowatt hours (kWh) per year, which is enough energy to power four homes.
Peruzzi Toyota	\$213,244	This Rural Development investment will be used to help Peruzzi Toyota, located in Hatfield, Pennsylvania, purchase and install a 222.13 kilowatt (kW) solar photovoltaic system. Peruzzi Toyota is a family-owned car dealership that has been operating since 1989. This project is expected to save the business approximately \$25,400 per year and will replace 257,056 kilowatt hours (kWh) per year, which is enough energy to power 23 homes.
Kightlinger Motors Inc.	\$152,829	This Rural Development investment will be used to help Kightlinger Motors Inc., located in Coudersport, Pennsylvania, purchase and install a 160.5 kilowatt (kW) solar photovoltaic system. Kightlinger Motors Inc. is a car dealership and service center that has been operating since 1978. This project is expected to save the business approximately \$10,300 per year and will replace 180,271 kilowatt hours (kWh) per year, which is enough energy to power 16 homes.

Benjamin Barnett	\$57,139	This Rural Development investment will be used to purchase and install a 58.2-kilowatt (kW) solar photovoltaic system. Benjamin Barnett runs his family-owned farming operation in Waynesboro, Pennsylvania. He has been farming for seven years. This project is expected to save the farm approximately \$5,500 per year and will replace 50,148 kilowatt hours (kWh) per year, which is enough energy to power four homes.
Douglas Brubaker	\$51,900	This Rural Development investment will be used to purchase and install a 65.47 kilowatt (kW) solar photovoltaic system. Douglas Brubaker operates Donegal Valley Farms, a chicken farming operation, in Mount Joy, Pennsylvania. The farm has been operating for 43 years. This project is expected to save the farm approximately \$9,800 per year and will generate 77,885 kilowatt hours (kWh) per year, which is enough energy to power seven homes.
The Rainier Group LP	\$40,910	This Rural Development investment will be used to purchase and install a 37.83-kilowatt (kW) solar photovoltaic system. The Rainier Group LP, in Lock Haven, Pennsylvania, is a real estate property management business operating since 2009. This project is expected to save the business approximately \$2,900 per year and will generate 49,575 kilowatt hours (kWh) per year, which is enough energy to power four homes.
Tulpehocken Spring Water Inc.	\$250,000	This Rural Development investment will be used to purchase and install a 673.2-kilowatt (kW) solar photovoltaic system. Tulpehocken Spring Water Inc., in Northumberland, Pennsylvania, has been bottling and distributing spring water since 1924. This project is expected to save the business approximately \$78,800 per year and will replace 758,003 kilowatt hours (kWh) per year, which is enough energy to power 69 homes.
UnityLab Corporation	\$58,156	This Rural Development investment will be used to purchase and install energy-efficient LED lighting throughout UnityLab Corp.'s factory. The business has been operating since 2018 and specializes in building and buying

		small business brands ranging from commercial laundry equipment to industrial steam generators, presses, and boilers. This project is expected to save the company approximately \$10,800 per year and will decrease its energy consumption by 52 percent.
Hilltop Lab Animals Inc.	\$119,600	This Rural Development investment will be used to purchase and install a 108-kilowatt (kW) solar photovoltaic system. Hilltop Lab Animals Inc., Scottdale, Pennsylvania, began operations in 1928. It produces and supplies the highest quality research animals available to the pharmaceutical industry, universities, contract research organizations, hospitals, toxicological testing facilities and a wide variety of government laboratories. This project is expected to save the business approximately \$12,200 per year and will replace 136,355 kilowatt hours (kWh) per year, which is enough energy to power 12 homes.
Grovedale Winery and Vineyard Inc.	\$43,280	This Rural Development investment will be used to purchase and install a 34.92 kilowatt (kW) solar photovoltaic system. Since 2007, Grovedale Winery and Vineyard Inc., in Wyalusing, Pennsylvania, has produced premium wines made from grapes grown throughout its eight acres of vineyards. This project is expected to save the business approximately \$5,800 per year and will replace 26,958 kilowatt hours (kWh) per year, which is enough energy to power two homes.
Bassett Masonry Inc.	\$41,440	This Rural Development investment will be used to help Bassett Masonry Inc., in Carrolltown, Pennsylvania, purchase and install a 62 kilowatt (kW) solar photovoltaic system. Since 1996, Bassett Masonry Inc. has been providing masonry services throughout Cambria County. This project is expected to save the business approximately \$6,900 per year and will replace 62,842 kilowatt hours (kWh) per year, which is enough energy to power five homes.

John Wiker	\$50,560	This Rural Development investment will be used to help John Wiker purchase and install a 54 kilowatt (kW) solar photovoltaic system for his hog, hay and tobacco farming operation located in Conestoga, Pennsylvania. The Wiker family has been farming since the 1940's. This project is expected to save the farm approximately \$8,900 per year and will replace 61,289 kilowatt hours (kWh) per year, which is enough energy to power five homes.
Camp Wayne For Boys Inc.	\$211,248	This Rural Development investment will be used to help Camp Wayne for Boys Inc., located in Preston Park, Pennsylvania, purchase and install a 207.4 kilowatt (kW) solar photovoltaic system. Camp Wayne for Boys Inc. has been providing a stay-over camp for boys since 1921. This project is expected to save the campground approximately \$30,000 per year and will replace 216,208 kilowatt hours (kWh) per year, which is enough energy to power 19 homes.
Steven Wenger dba Wen-Crest Farms LLC	\$229,200	This Rural Development investment will be used to help Steven Wenger dba Wen-Crest Farms LLC purchase and install a 243 kilowatt (kW) solar photovoltaic system for his chicken farming operation located in Lebanon, Pennsylvania. Wen-Crest Farms LLC has been operating for 17 years. This project is expected to save the farm approximately \$29,500 per year and will replace 246,616 kilowatt hours (kWh) per year, which is enough energy to power 22 homes.
