DECISION MEMORANDUM

DATE: September 19, 2025

SUBJECT: Availability-Based Project-Specific Waiver of American Iron and Steel Requirements for two (2x) three-inch backflow preventer assemblies for the Chetek Wastewater Treatment Facility project in Barron County, WI

Waiver Number: 25-005

FROM: Steven Polacek
Director
Water and Environmental Programs

Decision: The U.S. Department of Agriculture (USDA) is hereby granting an availability-based project-specific waiver of American Iron and Steel (AIS) requirements to the City of Chetek Wisconsin for the purchase of two (2x) three-inch reduced pressurized zone backflow preventer assemblies for its Wastewater Treatment Facility project in Barron County, WI. This waiver permits the use of a non-domestic backflow preventer because no known domestic manufacturers can deliver a product that meets the project's technical specifications.

This is a project-specific waiver which applies only to the use of the specified product for the referenced project funded by the USDA Rural Development (RD) Rural Utilities Service (RUS) Water and Waste Disposal (WWD) Loan and Grant program under the Water and Environmental Programs (WEP). Any other project that wishes to use the same product must submit a separate waiver request based on the specific project circumstances.

Rationale: The AIS provision of the Consolidated Appropriations Act of 2017 (Public Law 115-31) and subsequent statutes require WEP assistance recipients to use domestic iron and steel products unless RD determines that it is necessary to waive this requirement. USDA has the authority to issue waivers in accordance with section 746 (b)(2) of P.L.115-31, which states in part: "[the requirements] shall not apply in any case or category of cases in which the Secretary of Agriculture ... or the designee of the Secretary finds that ...iron and steel products are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality." As per the delegation memo of July 2017, approval of project specific waivers has been delegated to the Engineering and Environmental Staff Director.

"USDA is an equal opportunity provider, employer, and lender."

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

Background of Waiver Request: The City of Chetek's Wastewater Treatment project in Barron County, WI, includes installation of backflow preventer assemblies in their wastewater system. The contractor stated that they could not find a manufacturer to furnish assemblies that adhered to AIS requirements, and furnished documentation from six suppliers corroborating this.

USDA RD had earlier been made aware of the lack of AIS-compliant backflow preventers regarding projects in Lisbon, ME, Searsport, ME, Constantine, MI, Blossburg, PA, Dubuque, IA, Murdock, MN, and Camden, ME. In all cases, the applicants reached out to multiple manufacturers or distributors, who all stated that they cannot supply backflow preventers meeting domestic preference requirements. Based on this research, USDA granted the Lisbon, Searsports, Constantine, Blossburg, Dubuque, Murdock, and Camden projects a waiver of AIS for the backflow preventers on January 28, 2025 (25-001), November 6, 2024 (24-005), August 13, 2024 (24-004 and 24-003), October 25, 2023 (23-006), August 23, 2023 (23-005), and May 26, 2023 (23-003).

USDA's AIS contractor contacted thirteen manufacturers and suppliers between August 27 – September 3, including those contacted by the applicants. Of the companies that responded, none of them manufacture 3-inch backflow preventer assemblies meeting both the project specifications and domestic preference requirements.

The Town of Chetek submitted to RD a formal request to waive AIS requirements for the assemblies on August 26, 2025. Per statutory requirement, the waiver request was posted on RD's AIS website for a 15-day public comment period, and the Agency received no comments.

Finding: USDA is granting an availability-based waiver from the AIS requirements to the City of Chetek for two (2x) three-inch backflow preventer assemblies. This waiver permits the purchase of this assembly using WEP funds for the City of Chetek's Wastewater Treatment Facility project as documented in the waiver request submittal.

Legal Authority: Legal authority for the AIS requirements for WEP projects is included under the Consolidated Appropriations Act of 2017 and subsequent statutes, under the authority of section 746 (b)(2) of P.L.115-31.
