

Position Now Open in Maine: Climate Fellow

USDA Rural Development in Maine has an opening for a new Climate Fellow position. The job will be based in the State Office in Bangor. **Applications are being accepted online April 4-10** (or until 300 applications have been received for the eight positions open in multiple states). The person who accepts the position will assist in all aspects of the Rural Energy for America Program (REAP), including:

- Answering questions from applicants and stakeholders
- Attending outreach events
- Data entry and archiving
- Application review and processing
- National Environmental Policy Act (NEPA) compliance
- Preparation of award documents
- Site visits and inspections
