USDA Rural Business Development Grant

Application Toolkit

Background

USDA Rural Development is charged with assisting in the startup, development, and expansion of small and emerging businesses and/or non-profits in rural communities. Rural Development supports this portion of the overall mission through two grant programs, the RBEG and RBOG programs.

The Agency combined 7 CFR part 1942, subpart G and 7 CFR part 4284, subpart G into the RBDG rule at 7 CFR part 4280, subpart E. Rural Development has also integrated applicable general provisions of 7 CFR part 4284, subpart A into the RBDG rule. Essentially, the Agency did not change any of the requirements of either program but blended the two regulations into one and eliminated duplicative portions so that there is only one set of requirements. The Agency also combined definitions so that the public has one definition for both programs as well as blended the scoring requirements of both former regulations. Finally, the Agency blended the application processes into one streamlined set of procedures under the RBDG funding, incorporating the statutory language of the 2014 Farm Bill (7 U.S.C. 1932(c)) specifying how the funding would be split.

Rural Development makes RBEGs to public bodies, non-profit corporations and federally recognized Indian Tribes so that they may support the development and/or expansion of small and emerging businesses in rural communities.

Enterprise Grant type funds may be used to: Acquire or develop land, buildings, plants, equipment; access streets and roads, parking areas, utility extensions, necessary water and supply and waste disposal facilities; provide technical assistance; establish revolving loan funds; and to create, expand, or operate rural distance learning programs that provide educational, or job training instruction related to potential employment or job advancement to adult students.

Opportunity Grant type funds are made to public bodies, non-profit corporations and federally recognized Indian Tribes to analyze rural business (small and emerging or larger business) opportunities, identify and/or provide training opportunities to rural entrepreneurs, conduct leadership development, establish training or technology centers, and conduct technical assistance or area-wide planning activities.

Grant funds may be used for projects identified as either business opportunity type grants or business enterprise type grants. The Agency will set aside 10 percent of its RBDG appropriation for business opportunity type grants. The Agency reserves the right to reallocate funds set aside for business opportunity type grants to business enterprise type grants if it becomes apparent to the Agency that there is insufficient demand for the funds set aside for the business opportunity type grants.

Strategic Economic and Community Development

Background and Discussion

The Agency administers a multitude of Federal programs for the benefit of rural America, ranging from housing and community facilities to infrastructure and business development. Its mission is to increase economic opportunity and improve the quality of life in rural communities by providing the leadership, infrastructure, capital, and technical support that enables rural communities to prosper. To achieve its mission, the Agency provides financial support (including direct loans, grants, and loan guarantees) and technical assistance. The purpose of this subpart is to support projects, by awarding reserved funds, that implement strategic community investment plans on a multi-jurisdictional and multi-sectoral basis through the submission and review of applications for the promoting regional economic and community development. Reservation of targeted funds are available for covered Rural Development programs including Rural Business Development Grants to encourage regional economic and community development. Section 6401 of the 2018 Farm Bill amended Section 379H, Strategic Economic and Community Development of the Consolidated Farm and Rural Development Act to state that **projects must be part of both a multi-jurisdictional and multi-sectoral Strategic Community**
