- Finance income-producing property (in home businesses are usually acceptable).
- Should not be in a flood hazard area (or need life-time flood insurance).
- Finance furniture or other personal property.
- Finance camps, existing mobile homes, duplexes and unusual designed homes.

LOAN RATES AND TERMS

- These are fixed rate, 33 year mortgages with subsidy payments based on total household income. Although the note rate is fixed, the subsidized interest is reviewed each year for possible adjustments up or down depending on household income. Payment assistance (subsidy) could be as low as 1%.

SUBSIDY RECAPTURE

- The subsidized portion of your monthly payments will accrue as a separate account. This account is subject to being repaid or recaptured at the time you sell or transfer your property to another owner. The maximum amount that could ever be recaptured will never exceed 50% of your appreciation in the property after your USDA debts, selling expenses, and any prior liens are paid off. The value appreciation is based on the appraised value and/or sales price at the time you sell or refinance. This value excludes any of your original equity or any value that resulted from improvements that you made to the property. If you refinance, you have the option to defer the final amount of recapture due (no interest will accrue if you defer payment), or you may pay it off at a 25% discount.
