Application Cycle Open: USDA Rural Development invites applications to compete for Fiscal Year 2020 funding for the Rural Business Development Grant Program.

Eligible applicants for grant funds include non-profits, municipalities, development corporations, and state agencies.

Rural Business Development Grant Program (RDBG) has consolidated both the Rural Business Enterprise and Rural Business Opportunities grant programs into one grant program. Please indicate which project type you are applying for (see below).

- **Rural Business Enterprise Activities:** Technical assistance (i.e. feasibility studies, marketing plans) and equipment purchases (grantee must retain ownership) are encouraged (i.e. shared business incubator equipment).
- **Rural Business Opportunity Activities:** Promote sustainable economic development in rural communities, economic planning for rural communities, provide technical assistance to rural businesses, or provide training for rural entrepreneurs, or comprehensive area wide planning.

Please note: Funding for RBOG like activities has been limited to 10% of available funds. Please contact Rural Development if you are seeking funds for an RBOG like activity.

Agency Initiative: Nearly all business sectors can be assisted with the program. However, Pennsylvania is placing specific emphasis on the following business sectors for Fiscal Year 2020:

1. Projects that bring jobs back to rural America and/or promote energy security and infrastructure
2. Projects that enhance access to broadband in rural communities
3. Federal Opportunity Zones
4. Projects that impact locally produced/locally manufactured food networks and/or distribution systems
5. Projects targeting strategic economic and community development (SECD-6025) communities
