(04-29-04) SPECIAL PN
PART 4284 – GRANTS

Subpart K – Agriculture Innovation Demonstration Centers

§ 4284.1001 Purpose.

This subpart implements a demonstration program administered by the Rural Business-Cooperative Service whereby grants are made to innovation centers responsible for providing technical and business development assistance to agricultural producers seeking to engage in the marketing or the production of Value-Added products.

§ 4284.1002 Policy.

It is the policy of the Secretary of Agriculture to fund Centers which evidence broad support from the agricultural community in the state or region, significant coordination with end users (processing and distribution companies and regional grocers), strategic alliances with entities having technical research capabilities and a focused delivery plan for reaching out to the producer community. It is also the policy of the Secretary, using the research and technical services of the U.S. Department of Agriculture, to assist the grantees in establishing Centers. This program is not intended to fund scientific research.

§ 4284.1003 Program administration.

The Agriculture Innovation Demonstration Center program is administered by Cooperative Services within the Agency. This Instruction is used by State Office personnel in administering the Agriculture Innovation Demonstration Center (AIC) program. In the AIC program, activities through the awarding of grants are administered from the National Office. Post-award activities are administered by the State Offices.

§ 4284.1004 Definitions.

Board of Directors. The group of individuals that govern the Center.

Center - The Agriculture Innovation Center to be established and operated by the grantees. It may or may not be an independent legal entity, but it must be independently governed in accordance with the requirements of this subpart.
Qualified Board of Directors. A Board of Directors that includes representatives from each of the following groups: (1) the two general agricultural organizations with the greatest number of members in the State in which the Center is located, (2) the State department of agriculture, or equivalent, of the State in which the Center is located and (3) entities representing the four highest grossing commodities produced in the State in which the Center is located, as determined on the basis of annual gross cash sales.

Producer Services. Services to be provided by the Centers to agricultural producers. Producer Services consist of the following types of services:

(1) Technical assistance, consisting of engineering services, applied research, Scale Production Assessments, and similar services, to enable the agricultural producers to establish businesses to produce Value-Added agricultural commodities or products;

(2) Assistance in marketing, market development and business planning, including advisory services with respect to leveraging capital assets; and

(3) Organizational, outreach and development assistance to increase the viability, growth and sustainability of businesses that produce Value-Added agricultural commodities or products.

Scale Production Assessments. Studies that analyze facilities, including processing facilities, for potential Value-added activities in order to determine the size that optimizes construction and other cost efficiencies.

$4284.1007$ Eligibility for grant assistance.

Non-profit and for-profit corporations, institutions of higher learning and other entities, including a consortium where a lead entity has been designated and agrees to act as funding agent, that meet the following requirements are eligible for grant assistance:

(a) The entity-

1. has provided services similar to those listed for Producer Services; or

2. demonstrates the capability of providing Producer Services.
(b) The application includes a plan that meets the requirements of § 4284.1010(c)(5)(iv) that also outlines:

(1) the support for the entity in the agricultural community;

(2) the technical and other expertise of the entity; and

(3) the goals of the entity for increasing and improving the ability of local agricultural producers to develop markets and processes for Value-Added agricultural commodities or products;

(c) The entity demonstrates that adequate resources (in cash or in kind) are available, or have been committed to be made available to the entity, to increase and improve the ability of local agricultural producers to develop markets and processes for Value-Added agricultural commodities or products; and

(d) The proposed Center has a Qualified Board of Directors.

§ 4284.1008 Use of grant funds.

Grant funds may be used to assist eligible recipients in establishing Centers that provide Producer Services and may only be used to support operations of the Center that directly relate to providing Producer Services. Grant funds may be used for the following purposes, subject to the limitations set forth in § 4284.10:

(a) Consulting services for legal, accounting and technical services to be used by the grantee in establishing and operating a Center;

(b) Hiring of employees, at the discretion of the Qualified Board of Directors;

(c) The making of matching grants to agricultural producers, individually not to exceed $5,000, where the aggregate amount of all such matching grants made by the grantee does not exceed $50,000;

(d) Applied research;

(e) Legal services; and

(f) Such other related purposes as the Agency may announce in the RFP.
§ 4284.1009 Limitations on awards.

The maximum grant award for an agriculture innovation center shall be in an amount that does not exceed the lesser of $1,000,000 or twice the dollar amount of the resources (in cash or in kind) that the eligible entity demonstrates are available, or have been committed to be made available, to the eligible entity.

§ 4284.1010 Application processing.

(a) Applications. USDA will solicit applications on a competitive basis by publication of one or more Requests for Proposals (RFPs). Unless otherwise specified in the applicable RFP, applicants must file an original and one copy of the required forms and a proposal.

(b) Required forms. The following forms must be completed, signed and submitted as part of the application package. Other OMB approved forms may be required. This will be published in the applicable RFP.

(1) Standard Form 424, "Application for Federal Assistance."

(2) Standard Form 424-A, "Budget Information—Non-Construction Programs."

(3) Standard Form 424-B, "Assurances---Non-Construction Programs."

(c) Proposal. Each proposal must contain the following elements. Additional elements may be published in the applicable RFP.

(1) Title Page.

(2) Table of Contents.

(3) Executive Summary. A summary of the proposal should briefly describe the project including goals, tasks to be completed and other relevant information that provides a general overview of the project and the amount requested.

(4) Eligibility. A detailed discussion describing how the applicant meets the eligibility requirements.

(5) Proposal Narrative. The narrative portion of the proposal must include, but is not limited to, the following:

   (i) Project Title. The title of the proposed project must be brief, not to exceed 75 characters, yet describe the essentials of the project.
(ii) **Information Sheet.** A separate one page information sheet listing each of the evaluation criteria referenced in the RFP followed by the page numbers of all relevant material and documentation contained in the proposal that address or support the criteria.

(iii) **Goals of the Project.** The first part of this section should list each Producer Service to be offered by the Center. The second part of this section should list one or more specific goals relating to increasing and improving the ability of identified local agricultural producers to develop a market or process for Value-Added agricultural commodities or products.

(iv) **Work Plan.** Actions that must be taken in order for the Producer Services to be available from the Center. Each action listed should include a target date by which it will be completed. General start up tasks should be listed, followed by specific tasks listed for each Producer Service to be offered, as well as tasks associated with the start of operations. The tasks associated with the start of operations should include a focused marketing and delivery plan directed to the local agricultural producers that were identified in paragraph (c)(5)(iii) of this section. The actions to be taken should include steps for identifying customers, acquiring personnel and contracting for services to the Center, including arrangements for strategic alliances.

(v) **Performance Evaluation Criteria.** Performance criteria suggested by the applicant for incorporation in the grant award in the event the proposal receives grant funding under this subpart. These suggested criteria are not binding on USDA.

(vi) **Agricultural Community Support.** Evidence of support from the local agricultural community should be included in this section. Letters in support should reflect that the writer is familiar with the provisions of the Plan for the Center, including the stated goals. Evidence of support can take the form of making employees available to the Center, service as a board member and other in-kind contributions.

(vii) **Strategic Coordination and Alliances.** Describe arrangements in place or planned with end users (processing and distribution companies and regional grocers) as well as arrangements with entities having technical research
capabilities, broad support from the agricultural community in the state or region, significant coordination with end users (processing and distribution companies and regional grocers), strategic alliances with entities having technical research capabilities and a focused delivery plan for reaching out to the producer community.

(viii) **Capacity.** Evidence of the ability of the grantee(s) to successfully establish and operate a Center. A description of the grantee's track record in providing services similar to those listed for Producer Services or evidence that the entity has the capability to provide Producer Services. Resumes of key personnel should be included in this section. Past successes should be described in detail, with a focus on lessons learned, best practices, familiarity with producer problems in Value-Added ventures, and how these barriers are best overcome should be elaborated on in this section. For every challenge identified, the applicant should demonstrate how they are addressed in the Work Plan (see paragraph (c)(5)(iv) of this section). All successes should include a monetary estimate of the Value-Added achieved.

(ix) **Legal structure.** Provide a description of the legal relationship between the grantee(s) and the proposed Center. If the Center is to be an independent corporate entity, provide copies of the corporate charter, bylaws and other relevant organizational documents. Describe how funds for the Center will be handled and include copies of the agreements documenting the legal relationships between the Center and related parties. If the Center is not to be an independent legal entity, provide copies of the corporate governance documents that describe how members of the Board of Directors for the Center are to be determined.

(x) **Evaluation Criteria.** Each of the evaluation criteria referenced in the RFP must be specifically and individually addressed in narrative form. Supporting documentation, as applicable, should be included in this section, or a cross reference to other sections in the application should be provided, as applicable.

(xi) **Verification of Adequate Resources.** Present a budget to support the work plan showing sources and uses of funds during the start up period prior to the start of operations and for the first year of full operations. Present a copy of a bank
statement evidencing sources of funds equal to amounts required in excess of the grant requested, or, in the alternative, a copy of confirmed funding commitments from credible sources such that USDA is satisfied that the Center has adequate resources to complete a full year of operation. Include information sufficient to facilitate verification by USDA of all representations.

(xii) Certification of Adequate Resources. Applicants must certify that non-Federal funds identified in the budget pursuant to paragraph (c)(5)(xi) of this section will be available and funded commensurately with grant funds.

§ 4284.1011 Evaluation screening.

The Agency will conduct an initial screening of all proposals to determine whether the applicant is eligible and whether the application is complete and sufficiently responsive to the requirements set forth in the applicable RFP so as to allow for an informed review. Incomplete or non-responsive applications will not be evaluated further, and may be returned to the applicant. Applicants may revise their applications and re-submit them prior to the published deadline if there is sufficient time to do so.

§ 4284.1012 Evaluation process.

(a) Applications will be evaluated by qualified reviewers appointed by the Agency.

(b) After all proposals have been evaluated using the evaluation criteria and scored in accordance with the point allocation specified in the applicable RFP, Agency officials will present to the Administrator of RBS a list of all applications in rank order, together with funding level recommendations.

(c) The Administrator reserves the right to award additional points, as specified in the applicable RFP, to accomplish agency objectives (e.g., to ensure geographic distribution, put emphasis on a specific commodity, or to accomplish presidential initiatives.) The maximum number of points that can be added to an application under this paragraph cannot exceed ten percent of the total points the application originally scored.

(d) After giving effect to the Administrator's point awards, applications will be funded in rank order until all available funds have been obligated.
§ 4284.1013 Evaluation criteria and weights.

Unless supplemented in a RFP, the criteria listed in this section will be used to evaluate grants under this subpart. The distribution of points to be awarded per criterion will be identified in the applicable RFP.

(a) Ability to deliver. The application will be evaluated as to whether it evidences unique abilities to deliver Producer Services so as to create sustainable Value-Added ventures. Abilities that are transferable to a wide range of agricultural Value-Added commodities are preferred over highly specialized skills. Strong skills must be accompanied by a credible and thoughtful plan.

(b) Successful track record. The applicant's track record in achieving Value-Added successes.

(c) Work plan/budget. The work plan will be reviewed for detailed actions and an accompanying timetable for implementing the proposal. Clear, logical, realistic and efficient plans will result in a higher score. Budgets will be reviewed for completeness and the strength of non Federal funding commitments.

(d) Qualifications of personnel. Proposals will be reviewed for whether the key personnel who are to be responsible for performing the proposed tasks have the necessary qualifications and whether they have a track record of performing activities similar to those being proposed. If a consultant or others are to be hired, points may be awarded for consultants only if the proposal includes evidence of their availability and commitment as well. Proposals using in-house employees with strong track records in innovative activities will receive higher points relative to proposals that out-source expertise.

(e) Local support. Proposed Centers must show local support and coordination with other developmental organizations in the proposed service area and with state and local institutions. Support documentation should include recognition of rural values that balance employment opportunities with environmental stewardship and other rural amenities. Proposed Centers that show strong support from potential beneficiaries and coordination with other developmental organizations will receive more points than those not evidencing such support.

(f) Future support. Applicants that can demonstrate their vision for funding center operations for future years, including diversification of funding sources and building in-house technical assistance capacity, will receive more points for this criterion.
§ 4284.1014  Grant closing.

(a)  Letter of Conditions.  The Agency will notify an approved applicant in writing, setting out the conditions under which the grant will be made.

(b)  Applicant's intent to meet conditions.  Upon reviewing the conditions and requirements in the letter of conditions, the applicant must complete, sign and return the Agency's "Letter of Intent to Meet Conditions," or, if certain conditions cannot be met, the applicant may propose alternate conditions to the Agency.  The Agency must concur with any changes proposed to the letter of conditions by the applicant before the application will be further processed.

(c)  Grant agreement.  The Agency and the grantee must enter into an "Agriculture Innovation Center Grant Agreement" prior to the advance of funds.

§§ 4284.1015 - 4284.1099  [Reserved]

§ 4284.1100  OMB control number.

The reporting and recordkeeping requirements contained in this regulation have been approved by the Office of Management and Budget and have been assigned OMB control number 0570-0045.
