USDA Rural Development has approved a grant of $844,023

Program: Community Connect Grants
State/County: ND/Barnes
Congressman: Armstrong, Kelly (ND 00)
Senators: Cramer, Kevin (ND), Hoeven, John (ND)
Recipient: BEK Communications Cooperative
Recipient Contact: Derrick Bulawa
Mailing Address: 200 E Broadway Steele, ND 58482
Email Address: derrick@bektel.com
Phone Number: 701-475-2361
Project Description: BEK Communications Cooperative (BEK) will utilize grant funding provided by Rural Development to spark economic opportunities, facilitate educational aspirations, enhance healthcare and bolster public safety, in the unserved area of Morton County, in south central North Dakota with deployment of a 48.66 mile Fiber-to-the Home network, and the much-needed services it can deliver. BEK will connect the Community Connect Proposed Funded Service Area to their existing network by using its existing crossing under the Missouri River. This will bring all the current and future BEK services and capabilities to this area in desperate need. This project will bring high-speed broadband capabilities to 125 households who otherwise have no broadband or lesser quality services such as dial-up or satellite, all of which offer speeds below the Rural Utilities Service defined broadband service level or lack the ability to deliver real-time services like, distance learning, video streaming, remote healthcare, work from home Virtual Private Networks and access to agricultural sites online. The proposed fiber network will be very flexible for future growth and will support the implementation of new technologies and new services anticipated in the future.

Project Description: iGo Technology, Inc. received $3,000,000 from Community Connect to extend their existing 2016/2017 Community Connect grants to enhance broadband opportunities to an additional 820 homes and businesses. Central Appalachia and southwest Virginia is beautiful but has a rugged mountainous terrain which causes unique challenges when installing infrastructure. The people of the area have struggled for decades because of a century-old reliance on coal as an economic driver. The people are generally poorly educated which has led to low wages. Average household incomes are far below the national average and even farther below wages offered in other parts of Virginia. This investment in broadband infrastructure will in turn increase opportunities for employment, education, and services along these relatively poor rural communities located in far southwest Virginia in the Appalachian Mountains. The Bee Community Center will be used to fulfill the grant's purpose.
