

Meet Jason Cali Financial Program Specialist

Jason Cali is a Financial Program Specialist at the United States Department of Agriculture Rural Development. His day-to-day is spent collaborating and resolving challenge credit situations. Jason wanted a career change after working in the banking industry and found that USDA RD was the perfect fit.

“As a resident of a rural community, I like working for Rural Development because its mission provides vital resources to the communities it serves,” Jason said.

As a USDA RD employee, Jason utilizes the agency’s mentoring program, which has afforded him the opportunity to pass skills down to someone else. He has also taken advantage of the agency’s internal and external training opportunities.

“I enjoy meeting with our customers, seeing firsthand the variety of projects completed and their impact on the community. I have also met many new colleagues within RD which have turned into friendships,” he said.

A highlight at USDA RD for Jason has been working with community-driven projects such as helping small businesses with energy efficiency improvements, improving infrastructure for a small community, and working closely with non-profits.

“RD has afforded me many opportunities in my career. I remain grateful to be a part of this agency. The variety of programs administered by RD creates a great opportunity for finding your fit,” Jason said.
