

## **Telecom Addendum- Kit Carson Electric Cooperative, NM11 “AW8” Taos -\$47,521,000**

This loan includes \$7.5 million to be investmented for fiber communications to establish 7,497 drops (at 225 feet per drop). Network Interface Devices will be provided to the customers, the cost of which is included in the cost of each drop. The drops will be used for smart grid applications such as smart meter reading and backhaul, SCADA, real time monitoring, and smart switched and smart devices at the home and in the system. The Borrower will be the retail provider of the broadband services.

Kit Carson Electric Cooperative is an active Telecom Borrower (NM1107). In Fiscal Year 2010 Kit Carson received a Direct BB Treasury Rate Grant in the amount of \$44,625,401, and a Direct BB Treasury Rate Loan for \$19,125,172.00

The Electric Program GIS Map was used to locate neighboring Electric/Telecom/Broadband service providers and their associated service territories. As the mapping continues to be updated, the Electric Borrower's Territory is below in blue. No portion of the Borrower's service territory is currently served by a Telco Infrastructure Loan Participant, nor any other recipients of Broadband Initiatives Program funds. The Borrower itself is a recipient of Broadband Initiatives Program Funds and is designated as NM1107.

The closest Telco Infrastructure Borrower to Kit Carson is La Jicarita Rural Telephone Cooperative (NM0517).
