Draw or Upload a Site/Route
Click 'Upload Files' to upload an ESRI zipped shapefile of your Site or Route or drag and drop your shapefile to the 'Drop files' zone.

The shapefile must comply with the following specifications:
1. For Sites, the shapefile can only include a single contiguous polygon.
2. For Routes, the shapefile can include a single polygon or polyline, multi-part feature or multiple non contiguous polygons and polylines.
3. The polygon(s) must be closed, non-overlapping, and must have an assigned projection with an accompanying .prj file.
4. The shapefile must use an unprojected WGS84 Geographic Coordinate System.
5. The shapefile must be submitted as a .zip file. This can be done with WinZip or in Windows by selecting the files associated with a Shapefile, right-clicking the files, then clicking "Send to" Compressed (zipped) folder.
6. Please note, once the Route geometry is initially uploaded, the width of that Route cannot be modified. Users may draw/upload additional segments to the Route and specify the width using the Edit Attribute tool on the map. Please consult the Application User Guide for additional guidance.

Upload Files
Or drop files
No file chosen.

OR

☐ I do not have a file to upload. I will draw my area on the map using the draw tool.

Drawing a Route
Construction Map – Drawing a Route

Add A Site or Route

- **CONSTRUCTION ASSET NAME**: Route
- **CONSTRUCTION ASSET TYPE**: Route

**Draw or Upload a Site/Route**

Click ‘Upload File’ to upload an ESRI zip file of your Site or Route and drag and drop your shapefile to the ‘Drop files’ zone.

- The shapefile must comply with the following specifications:
  1. For Sites, the Shapefile can only include a single contiguous polygon.
  2. For Routes, the Shapefile can include a single polygon or polyline, multi-part feature or multiple non-contiguous polygons and polylines.
  3. The polygon(s) must be closed, non-overlapping, and must have an assigned projection with an accompanying .prj file.
  4. The Shapefile must use an unprojected WGS84 Geographic Coordinate System.
  5. The Shapefile must be submitted as a .zip file. This can be done with WinZip or in Windows by selecting the files associated with a Shapefile, right-clicking the files, then clicking ‘Send’ to Compressed (zipped) folder.

- **Specify Width of the Route**

  - **Width**: 10 ft

**1. For Routes, use the draw polyline tool to draw the route. Once the route saves on the map, it will save as a polygon based on the designated width of the route.**

**2. Please note, once the Route geometry is initially drawn, the width of that Route cannot be modified. Users may draw/upload additional segments to the Route and specify the width using the Edit Attributes tool on the map. Please consult the Application User Guide for additional guidance.**

# Site Description – Building Asset

## Site 1 Building Asset

**Is this an existing building or a building to be constructed?**  
To be Constructed

**Please select the type of building to be constructed:**  
Pre-fabricated building/hut

**Please indicate the total limits of disturbance that will be required (in feet):**

- **Length:**
  - 20

- **Width:**
  - 50

- **Depth:**
  - 5

**Is the land for this building currently owned by the applicant or to be purchased?**  
Owned
Site Description – Building Asset (continued)

Is the Applicant proposing to install any network & access equipment in this building? *

- Yes

Please select the type of equipment that will be installed. Select all that apply: *

- Antenna(s)
- Batteries/UFS
- Rack-mounted equipment

Is a FCC license required for any of the equipment? *

- No

Where is this equipment going to be installed? *

- Inside of the building
- Outside of the building

Is the Applicant proposing to install a generator at the building? *

- No
Site Description – Asset Added

Route 1 Description

Is the proposed route located on or does it cross Tribal Land(s) as identified in the Tribal Lands layer of the construction map?

* Yes

Is the proposed route located on or does it cross Federally Managed Land(s) as identified in the Formally Classified Lands layer of the construction map?

* Yes

Is the route New or Upgrading / rebuilding existing telecommunication facilities?

☐ New
☐ Upgrading/Rebuilding

Is the route in a previously-developed, existing right-of-way? (Select all that apply)

☐ Yes. The Route will be in a previously-developed, existing Right-of-Way
☐ No, a new right-of-way or easement will be required
☐ No, but area is already in or committed to urbanized development as characterized by a highly disturbed environment with human-built features
### Route Description (continued)

**What is the installation method? (Select all that apply)**
- [x] Plowed
- [ ] Bored
- [ ] Open Trench
- [ ] Existing Conduit Systems
- [ ] Existing Ducts
- [x] Aerial Cables on Existing Poles
- [ ] Aerial Cables on New Poles
- [ ] Underwater

**Buried Miles:**

Environmental Questionnaires

By checking the box, I affirm that I have completed the Construction Map and affiliated Site/Route Descriptions. While checked, all mapping tools will lock for completion of the below EQs. To edit either the Service Area Map, the Construction Map, and/or Site/Route Descriptions, uncheck the box. Changing the information provided on the previous pages may result in changes to the requirements for the EQs.

One Project Level EQ should be completed for the entire project and a Site/Route EQ should be completed for each site or route. All Site/Route EQs should be completed first as those answers will be used to identify requirements in the Project Level EQ. Download the Project Level EQ and Site/Route EQ below.

Site/Route Environmental Questionnaire
Project Environmental Questionnaire
NHPA Section 106 Environmental Questionnaire

By checking the box, I affirm that I have completed the Construction Map and affiliated Site/Route Descriptions. While checked, all mapping tools will lock for completion of the below EQs. To edit either the Service Area Map, the Construction Map, and/or Site/Route Descriptions, uncheck the box. Changing the information provided on the previous pages may result in changes to the requirements for the EQs.

Do not complete the NHPA Section 106 Environmental Questionnaire or initiate the Section 106 process at this time unless the S106 process has already been initiated with Tribos, the State Historic Preservation Office, or other interested parties. Please reach out to RUS by submitting a question through Contact Us before proceeding with initiating S106 process. The proposed actions identified in the Site/Route Description section of this application could require completion of the Section 106 process.

One Project Level EQ should be completed for the entire project and a Site/Route EQ should be completed for each site or route. All Site/Route EQs should be completed first as those answers will be used to identify requirements in the Project Level EQ. Download the Project Level EQ and Site/Route EQ below.
Site and Route EQ
Site and Route EQ

- **Wetlands (Subpart G):** Use the National Wetland Inventory (NWI) layer available in the construction map to determine potential impact to a wetland. If the site or route overlaps with a wetland but you believe the Area of Interest (AOI) is not located within a wetland, use Soil Hydric Class (NRCS) (Wetlands Subpart G) to determine the predominance of hydric soils in an area. Be advised, if any part of the AOI lists a Soil Hydric Class of 'Partially Hydric' (1 – 95 percent) or ‘All Hydric’ (96 – 100 percent), the AOI will be considered to be located in a wetland.

USDA is an equal opportunity provider, employer, and lender.

---

**ReConnect Program | Site and Route Environmental Questionnaire ... continued**

Detailed guidance related to evaluating impacts to wetlands can be found in RD Instruction 1970 - Subpart G - Wetland Protection (available at this link: [https://www.rd.usda.gov/files/1970g.pdf](https://www.rd.usda.gov/files/1970g.pdf)).

1) Is the applicant’s proposed action located in a wetland?

- **NO** Go to Wetlands Question 3.
- **YES** Go to Wetlands Question 2.

Endangered Species Information - IPaC

Endangered species
Listed species and their critical habitats are managed by the Ecological Services Program of the U.S. Fish and Wildlife Service (USFWS) and the fisheries division of the National Oceanic and Atmospheric Administration (NOAA Fisheries).

Species and critical habitats under the sole responsibility of NOAA Fisheries are not shown on this list. Please contact NOAA Fisheries for species under their jurisdiction.

Additional information on endangered species data is provided below.

The following species are potentially affected by activities in this location:

Mammals

[Image of a threatened mammal]
Endangered Species Information – IPaC (continued)
Define project

Define a project at this location to evaluate potential impacts, get an official species list, and make species determinations.

Endangered Species Information – IPaC (continued)

Endangered Species Act Review

1. Request an official species list
2. Evaluate Determination Keys
3. Analyze project (optional)
4. Download documentation

Step 1: Request an official species list

An official species list is a letter from the local U.S. Fish and Wildlife Service field office that assists in the evaluation of potential impacts of your project. It includes a list of species that should be considered under Section 7 of the Endangered Species Act, a project tracking number, and other pertinent information from the field office.

Does this project require an official species list?

Federal agencies are required to “request of the Secretary of Interior information whether any species which is listed or proposed to be listed may be present in the area of a proposed action” (Section 7 of the Endangered Species Act).

This requirement applies to projects that are conducted, permitted, funded, or licensed by any Federal agency.

NOTE: Generating an official species list does not start the consultation clock for a project.

YES, REQUEST A SPECIES LIST

SKIP / DOES NOT APPLY
Tell us about the project and your organization or agency

Is this project being conducted, permitted, funded, or licensed by a Federal agency?

- [ ] Yes
- [ ] No
Endangered Species Information – IPaC (continued)

What kind of organization are you working for directly?

Please select...
- Tribe
- State Agency

Select your project type

SUBMIT OFFICIAL SPECIES LIST REQUEST

I understand that I am providing this information so an official species list can be generated, based on data provided by my local U.S. Fish and Wildlife Service office for the project area that I entered.

The following authorizes the collection of the above information (5 U.S.C. 301; the Federal Records Act, 44 U.S.C. 3101; Homeland Security Act of 2002: Public Law 107-296, 6 U.S.C. 121; and Executive Order 9373) and will be maintained in accordance with the Privacy Act (5 U.S.C. 552a).
Endangered Species Information – IPaC (continued)

Endangered Species Act Review

Step 1: Request an official species list
An official species list is a letter from the local U.S. Fish and Wildlife Service field office that assists in the evaluation of potential impacts of your project. It includes a list of species that should be considered under Section 7 of the Endangered Species Act, a project tracking number, and other pertinent information from the field office.

Processing species list request  Updating...
The request was submitted less than a minute ago and should be available shortly.

Your species list request was submitted and is currently being processed. An official species list will be available momentarily. Note that official species lists are no longer emailed.

You may continue your review, or wait for the processing to complete. This page will refresh when the official species list is available. After processing, the official species list can also be found on the Documents page.

NEXT STEP: DETERMINATION KEYS
Endangered Species Information – IPaC (continued)

Endangered Species Act Review

Step 1: Request an official species list

An official species list is a letter from the local U.S. Fish and Wildlife Service field office that assists in the evaluation of potential impacts of your project. It includes a list of species that should be considered under Section 7 of the Endangered Species Act, a project tracking number, and other pertinent information from the field office.

Species list request complete

This species list was generated 6 minutes ago. Species lists are considered valid for 90 days.

An official species list has been generated for the following office:

Species List: North Dakota Ecological Services Field Office

This document is also available on the Documents page.
Project EQ
• **Air Quality (Subpart O):** Use the *Air Quality* group layer available in the construction map to determine overlap with any non-attainment or maintenance areas. Detailed guidance related to evaluating impacts to Air Quality and General Conformity can be found in RD Instruction 1970 – Subpart O – Miscellaneous Resources (available at this link: https://www.rd.usda.gov/files/1970o.pdf).

Is any part of the proposed project located in a non-attainment or maintenance area as identified by the *Air Quality* group layer on the construction map?

- [ ] **NO** The Air Quality review for this project is complete.
- [ ] **YES** *Air Quality (Subpart O)* under the Detailed Environmental Responses section must be completed by the applicant.
