Service Report 84 **[UNPUBLISHED DRAFT]**

AGRICULTURAL COOPERATIVE STATISTICS, 2020

Service Report 84

November 2021

The 2020 agricultural cooperative statistics database was developed by James Wadsworth and Judith Rivera of USDA's Rural Development, Rural Business-Cooperative Service. This report was developed by Rural Development employees James Wadsworth, Charita Coleman, and Judith Rivera.

USDA Rural Development invites you to explore a wide variety of cooperative information on the internet. Rural Development's website is: www.rd.usda.gov. Aggregated agricultural cooperative statistics (1913-2020) can be provided in Excel workbook format by request from: coopinfo@usda.gov. The USDA Home Page is: www.usda.gov

Introduction

Agricultural cooperative statistics are collected annually and published to provide information on the position and trends among the Nation's farmer, rancher, and fishery cooperatives. These statistics are used for cooperative benchmarking, research, technical assistance, education, planning, and public policy. The collection, analysis, and dissemination of cooperative statistics by the United States Department of Agriculture (USDA) are authorized by The Cooperative Marketing Act of 1926.

Aggregate statistics are reported for cooperative business years ending in calendar year 2020. The information was collected by a mail survey of all organizations identified by USDA Rural Development's Cooperative Programs as farmer, rancher, or fishery cooperatives. See Note 1 in the appendix for further explanation of the methodology used. Note 2 provides a financial glossary of the terms calculated in the financial tables.

USDA depends on the responses from agricultural cooperatives to its annual survey to develop a detailed and comprehensive set of statistics on agricultural cooperatives. The time and effort taken by cooperatives to provide information to USDA, and the timeliness with which it is furnished, are greatly appreciated.

This report presents agricultural cooperative statistics for 2020 in table and chart format and consists of six sections: (I) overall summary cooperative statistics; (II) number of cooperatives, memberships, and employees; (III) business volume by State, and losses; (IV) Top 100 cooperatives; (V) benchmark statistics for comparing cooperatives; and (VI) cooperative statistical trends. Selected highlights are provided at the beginning of each section, and associated tables follow.

Definitions Used in Report

Type ¹ or product	Notes
Marketing Cooperatives	A majority of business volume is from the sale of members' products.
<u>Products marketed²:</u>	Cooperatives are also further classified by the majority of business volume from the sale of a particular commodity
Bean and pea (dry edible)	
Cotton	Sales of cottonseed meal are included in feed sales; oil sales are included in "other marketing" sales.
Cotton ginning	Cottonseed accounts for majority of marketing.
Dairy	Includes milk and dairy products.
Fish	
Fruit and vegetable	Includes fresh and processed fruit and vegetables.
Grain and oilseed	Excludes oilseed meal and oil. Oilseed meal is included in feed sales while oil sales are included in other marketing sales.
Livestock	
Poultry	Includes chicken, eggs, turkeys, ratite, squab, and related products
Rice	
Sugar	Includes sugar beets, sugarcane, honey, maple syrup, molasses, and sorghum and related products.
Other marketing	Includes forest products, hay, hops, seed marketed for growers, nursery stock, bioenergy (e.g., ethanol), coffee, manufactured food products and other farm products not classified separately.
Farm supply cooperatives	A majority of business volume from the sale of farm supplies.
<u>Farm products:</u>	
Crop protectants	Chemicals applied to crops for weed and pest control.
Feed	Animal feed.
Fertilizer	Liquid and solid fertilizer for crops.
Petroleum	Includes all types of petroleum products and lubricants as well as bioenergy fuels such as ethanol and biodiesel.
Seed	Seed for crops.
Other supplies	Includes building materials, containers and packaging supplies, machinery and equipment, meats and groceries, automotive supplies, hardware, chicks, artificial insemination supplies and other supplies not separately identified.
Service cooperatives	All business volume is from providing services such as livestock shipping, crop storage, grinding and/or drying. Sales include charges for services related to marketing or purchasing, but not included in the volume reported for those activities.
Membership structures	Cooperative organization can be described according to how their members are organized. All three types are included in the cooperative numbers presented in this report.
Centralized	Individual agricultural producer members only.
Federated	Centralized cooperatives and/or associations are members.
Mixed	Both individual producers and cooperatives/associations are members.

¹Marketing, farm supply, and service are identified as "operating types" of co-ops.

²The nature of marketing provided further identifies co-ops into categories according to the primary product marketed. Some cooperatives have multiple sources of revenue, so the "primary product" category may change from year to year as the relative level of business volume from each source changes.

SECTION I: Overall Summary Cooperative Statistics

This section (Tables 1-11) provides an overall summary, followed by income statements, balance sheets, and financial ratios of U.S. agricultural cooperatives for 2020. Some of the analysis is categorized by type (operating type and primary product marketed) and size.

Summary Highlights

- Total gross business volume for agricultural cooperatives dropped by \$2.1 billion in 2020, down 1 percent from 2019. However, net business volume (net of inter-cooperative business) dropped by less than 1 percent and was \$178.7 billion for 2020 ([Table 1](#)).
- There were 1,744 ag co-ops in 2020, 35 fewer than in 2019. The decrease was due mostly to mergers among cooperatives and some dissolutions. Of the 1,744 co-ops, 1,475 operate within 1 State, the other 269 operate in 2 or more States.
- By overall type, there were 915 marketing co-ops in 2020, 742 supply co-ops, and 87 service co-ops.
- Ag co-ops operated 7,801 branch and other locations in 2020, and including headquarters, served their members from 9,545 locations.
- Ag co-ops reported having 1,868,851 voting members in 2020, down 1.6 percent from 2019.
- Ag co-ops employed 136,363 people full time in 2020, down 1,356 from 2019. However, part-time or seasonal labor increased by 3,178 to 49,094 people in 2020. These changes resulted in a net increase of 1,822 total co-op employees from 2019, to 185,457.
- There are 306 ag co-ops (17.5 percent of all ag co-ops) that are 100 or more years old ([Appendix Table A](#)). There are 934 75 years old or more (53.6 percent).
- There are 347 ag co-ops involved with one or more limited liability companies, subsidiaries, or partnerships: 201 marketing co-ops, 140 supply co-ops, and 6 service co-ops. Most often these associated businesses conducted some or all of a co-op's business in a certain sector or sectors of operations (e.g., agronomy).
- The co-op average board size was 8 directors in 2020. By total sales sizes, co-ops with up to \$99 million in sales averaged 7 directors, those with \$100 million to \$1 billion in sales

averaged 11 directors, and those with sales of more than \$1 billion in sales averaged 19 directors (975 co-ops reported director numbers).

Operations

- Total net business volume dropped from \$179.8 billion in 2019 to \$178.7 billion in 2020. Total gross business volume fell from \$203 billion in 2019 to \$200.9 billion in 2020.
- Total assets and member equity both increased and reached record amounts in 2020, \$102.4 billion and \$47.5 billion, respectively.
- Co-ops hit record net income before taxes, increasing by 6.5 percent, from \$7.9 billion in 2019 to \$8.4 billion in 2020.
- Gross value-added (what co-ops add to the commodities they market, the supplies they sell, and the services they provide) was at \$24 billion in 2020, up \$642 million from 2019.
- Total marketing sales increased by \$1.4 billion from \$124.9 billion in 2019 to \$126.3 billion in 2020 ([Table 2](#)).
- Total supply sales fell in 2020, from \$71 billion to \$67.1 billion (a drop of almost 4 billion from 2019).
- Service and other operating income increased slightly, from \$5.2 billion in 2019 to just under \$5.3 billion in 2020.
- Total co-op expenses increased by 4.6 percent to \$22.5 billion in 2020.
- Among expenses, interest costs decreased by 11.7 percent, while wages, depreciation and other expenses all increased from 2019.
- Ag co-ops paid \$11.2 billion in wages and benefits to their employees in 2020, up by \$146 million from 2019.
- Net operating margins increased by \$74.8 million from 2019 to \$6.1 billion in 2020. Patronage income from other cooperatives increased by \$77.9 million to \$742 million, and non-operating income increased by \$355.4 million to \$1.5 billion in 2020.
- Income taxes paid decreased by \$40 million, from \$126 million in 2019 to \$86 thousand in 2020.

- Net income after taxes reached a record \$8.3 billion in 2020, up \$548 million (7 percent) from 2019.

Commodities

- Grain and oilseed sales were \$48.5 billion in 2020, down \$1.2 billion from 2019 ([Table 2](#)). Conversely, dairy sales (milk and milk products) rose by almost \$2 billion to \$45.5 billion from 2019. Fruit and vegetable sales also increased to \$8.2 billion in 2020, an increase of \$98.6 million.
- Sugar (sugar beets, sugar cane, honey, maple syrup) sales dropped slightly to \$5.9 billion in 2020, while livestock sales fell by \$294 million to \$3.5 billion in 2020. Rice sales increased slightly to just over \$1.7 billion in 2020.
- Supply sales of crop protectants and feed increased in 2020 by \$266.8 million and \$43.7 million, respectively, to \$8.4 billion in crop protectants and \$11.8 billion in feed. Fertilizer, seed, petroleum, and other supplies sales all dropped in 2020, with energy products seeing the largest decrease, by \$3.3 billion. Sales levels in 2020 for these groups were \$12.9 billion for fertilizer, \$23.6 billion for petroleum, \$5.3 billion for seed, and \$5 billion for other supplies.
- Marketing co-ops had total sales of \$142.5 billion, supply co-ops \$50.8 billion, and service co-ops \$25.9 million ([Table 3](#)). Both marketing and supply co-ops sales dropped from 2019, while service co-ops revenue increased.
- Marketing co-ops' net income after taxes of \$6.9 billion in 2020 increased by \$320 million from 2019. Supply co-ops' net income after taxes was \$1.3 billion in 2019, an increase of \$200 million from 2019, and service co-ops; net income of \$99 million increased by almost \$28 million.
- Co-ops that market milk and milk products (dairy) had the highest net income of all marketing co-ops, at almost \$1.4 billion in 2020 ([Table 4](#)). Following were co-ops marketing grains and oilseeds with \$1.3 billion in net income, and co-ops marketing sugar ranked third, with net income of \$1.2 billion. Fruit and vegetable co-ops were fourth with net income of at \$968.4 million, and rice co-ops followed with \$703 million.

- Similar to 2018 and 2019, all 10 category sizes of co-ops had positive net income in 2020 (Table 5). The 26 largest co-ops (more than \$1 billion in sales and service revenue) comprised just 1.5 percent of all ag co-ops, but had 52.7 percent of the total gross business volume of all cooperatives.

Balance sheet

- Total assets increased by \$2.4 billion from 2019, and hit a record \$102.4 billion in 2020, the seventh straight year of a record ag co-op asset level (Table 6).
- Property, plant, and equipment of \$31.4 billion increased by 3.1 percent from 2019, or by \$932 million.
- Co-ops reported that their investments in other co-ops dropped to \$6.1 billion in 2020.
- Total liabilities increased by \$661 million to \$54.9 billion in 2020.
- Total member equity set another record at \$47.5 billion, up \$1.6 billion from 2019.
- Co-ops that marketed primarily grain and oilseeds had a slightly lower \$39.2 billion in assets in 2020 than they had in 2019, while dairy co-ops increased to \$15 billion, and fruit and vegetable co-ops a slightly lower \$5.8 billion in assets (Table 8).
- The largest co-ops (sales and service revenue of more than \$1 billion) accounted for \$49.6 billion (48.4 percent) of all co-op total assets in 2020 (Table 9).

Ratios

- Overall, ag co-ops showed solid liquidity and solvency in 2020 with solid ratios, similar to past years (Table 10).
- Equity as a percent of assets was 46 percent in 2020, same as in 2019 and 2018.
- Gross margin as a percent of sales, return on assets, and return on equity all remained at strong levels and all showed improvement over 2019 in 2020.

TABLE 1—Summary comparison of U.S. agricultural cooperatives, select statistics, 2020 and 2019

	2020	2019	Difference	Change <i>Percent</i>
Number of ag co-ops (number)¹	1,744	1,779	(35)	(1.97)
Breakdown for structure:				
Centralized	1,631	1,674	(43)	(2.57)

Mixed	82	73	9	12.33
Breakdown for type:				
Marketing	668	676	(8)	(1.18)
Mixed marketing ²	247	255	(8)	(3.14)
Total marketing	915	931	(16)	(1.72)
Supply	560	564	(4)	(0.71)
Mixed supply ³	182	195	(13)	(6.67)
Total supply	742	759	(17)	(2.24)
Total service	87	89	(2)	(2.25)
Cooperative branch locations ⁴	7,801	7,587	214	2.82
Total cooperative locations	9,545	9,366	179	1.91
Memberships (number)	1,868,851	1,899,625	(30,774)	(1.62)
Full-time employees (number)	136,363	137,718	(1,356)	(0.98)
Part-time employees (number)	49,094	45,917	3,178	6.92
Total employees (number)	185,457	183,635	1,822	0.99
Gross business volume (billion \$)	200.918	203.047	(2.129)	(1.05)
Net business volume (billion \$)	178.671	179.807	(1.136)	(0.63)
Net income before taxes (billion \$)	8.389	7.881	0.508	6.45
Net income after taxes (billion \$)	8.304	7.756	0.548	7.07
EBDIT ⁵	12.848	12.355	0.493	3.99
Gross value added ⁶ (billion \$)	24.000	23.358	0.642	2.75
Net value added ⁶ (billion \$)	20.635	20.122	0.513	2.55
Total assets (billion \$)	102.361	100.121	2.240	2.24
Total equity (billion \$)	47.502	45.923	1.579	3.44

¹Of the 1,744 cooperatives, 1,475 operate within one State, 269 operate in two or more States; 347 co-ops were involved with LLCs (201 marketing, 140 supply, and 6 service)..

²Mixed marketing: 25-49 percent of sales are from supplies, the rest are from marketing commodities.

³Mixed supply: 1 to 49 percent of sales are from marketing commodities, rest are from supplies.

⁴For 2018 and 2019 data, extra efforts were made to update locations of cooperatives, thus the significant increases.

⁵EBDIT = earnings before depreciation, interest, and taxes, i.e. (see Appendix Note 2: Financial Glossary).

⁶Gross and net value added (see Appendix Note 2: Financial Glossary).

SECTION II: Number of Cooperatives, Memberships, and Employees

Section II (Tables 12–16) provides tables showing the number of co-ops by operating type, primary product marketed, State, and size. It is important to note that for Table 12, the number of co-ops by State are counted by where the cooperative is headquartered, even though many co-ops do business in multiple States. However, the number of memberships in Table 12 is the actual number of voting members that co-ops have in the corresponding States.

Highlights

- In 2020, there were 150 ag co-ops with headquarters in both Minnesota and Texas, the top two States. Following were North Dakota (112), California (101), and Wisconsin (96) (Table 12).
- Texas was home to the largest number of marketing co-ops, with 117, followed by California with 68. Minnesota had 67 while Wisconsin had 63. Illinois was next (54), followed by Kansas (49), and North Dakota (45).
- Minnesota was home (headquarters in the State) to the largest number of supply and service co-ops, with 83, followed by North Dakota with 67. Tennessee had 52, Missouri had 38, and South Dakota had 34.
- Kentucky had the most ag co-op memberships within it, with 161,507. Following were Missouri with 126,934, Minnesota with 123,502, Kansas with 116,071, and Virginia with 109,677.
- Minnesota was also the high State for the number of ag co-ops conducting business with 192, followed by Texas with 175 co-ops operating, North Dakota with 135, California with 127, Illinois with 113, and then Iowa and Kansas with 102.
- Grains and oilseeds were marketed by 524 co-ops (co-ops that had any sales of the commodity); these crops accounted for a majority of total sales for 349 co-ops (Table 13).
- Fruit and vegetable marketing accounted for the majority of sales of 109 co-ops, while 147 co-ops sold some fruit and/or vegetables.
- Dairy co-ops handle more than 85 percent of the Nation's milk (see Note 4, reference C), the highest market share of all the commodities handled by ag co-ops. There were 105 co-ops that marketed dairy products in 2020, with dairy sales being the majority sales commodity for 94 of those co-ops.
- By majority of sales criteria, there were 915 ag marketing co-ops, 742 ag supply co-ops, and 87 ag service co-ops in the United States in 2020.

Co-op numbers by size

- There are 519 ag co-ops that were in the “less than \$5 million in sales” category; combined, they had \$988.3 million in total gross business volume (Table 14).
- There are 229 co-ops in the “\$5 million to \$9 million sales category”; 146 co-ops in the “\$15 million to \$24 million category”; and 195 co-ops in the “\$25 million to \$49 million sales” group.

- There are 64 co-ops in the two largest categories (\$500 billion or more of business volume) and these co-ops account for 66.3 percent of all co-op gross business volume.
- Twenty-six co-ops were in the “sales over \$1 billion” category, accounting for a combined \$105.9 billion in total gross business volume, or 52.7 percent of all co-op volume in 2020.

Memberships, employees, and locations

- The 519 ag co-ops in the “less than \$5 million in sales” category have 124,200 members, or 6.7 percent of all memberships.
- The 26 largest co-ops have 390,658 members, or 20.9 percent of all memberships. Co-ops in the \$200 million to \$400 million size category had the next most memberships: 369,133, or 19.8 percent of all memberships.
- Total employment by ag co-ops was 185,457 in 2020, an increase of 1,822 employees or an one (1) percent rise from 2019. The increase was due to a 3,178 person increase in part-time employment, while full-time employment fell by 1,356. In 2020, ag co-ops employed 136,363 people in full-time positions, and 49,094 people in part-time or seasonal positions ([Table 15](#)).
- In 2020, marketing co-ops had 87,032 full-time employees (down from 2019), while supply co-ops had 46,663 full-time workers (also down from 2019).
- Grains and oilseeds co-ops had 33,797 full-time employees, followed by dairy co-ops with 24,586. Next were fruit and vegetable co-ops with 13,089 full-time employees. The fruit and vegetable co-ops had the most part-time or seasonal employees, with 15,023.
- The 26 co-ops in the largest sales group (more than \$1 billion in sales and service revenue), had 56,417 total employees in 2020, 30.4 percent of total ag co-op employees ([Table 16](#)).
- Those same 29 large co-ops operated 2,081 branch and other locations in 2020, 26.7 percent of the total 7,801 branch and other locations of all ag co-ops.
- Ag co-ops operated 9,545 locations in 2020 (includes headquarters location), and ag co-ops in the largest sales category operated 22 percent of those.

¹Total sales category reflects cooperatives' total sales plus service and other operating revenue.

²Branch (branches, plants, C-stores, other locations) numbers do not include cooperatives' headquarters location, but all locations does include headquarters.

SECTION III: Cooperative Business Volume By State, and Losses

This section (Tables 17 through 19) presents cooperative sales volume of commodities and inputs by State and type, aggregate net business volume by type, and ag co-ops that experienced a loss in 2020.

Highlights

- Iowa had the most net co-op sales (commodity and supply sales together) of any State, with \$16.6 billion in 2020 (Table 17). The majority of these sales were from co-op marketing of grains and oilseeds (\$7.0 billion) and selling feed (\$2.1 billion).
- The rest of the top 10 States included Minnesota with \$15.0 billion in marketing and supply sales, followed by California (\$13.5 billion), Illinois (\$10.4 billion), Wisconsin (\$9.6 billion), Nebraska (\$8.0 billion), Kansas (\$7.2 billion), Washington (\$7.3 billion), North Dakota (\$5.9 billion), and Texas (\$5.8 billion).
- Focusing only on commodity sales (note that these refer to where commodity is sourced), California was the top State, with \$12.5 billion in sales, followed by Minnesota (\$10.1 billion), Iowa (\$9.8 billion), Wisconsin (\$6.3 billion), Washington (\$6 billion), and Illinois (\$5.9 billion). Next came Nebraska (\$4.9 billion), Kansas (\$4.8 billion), New York (\$4.6 billion), and Michigan and Texas (\$4.5 billion).
- For supply sales, Iowa was the top State with \$6.4 billion, followed by Minnesota (\$5.0 billion), Illinois (\$4.5 billion), Wisconsin (\$3.3 billion), Nebraska (\$3.1 billion), North Dakota (\$2.8 billion), Missouri and Kansas (\$2.5 billion), Indiana (\$2.2 billion), and South Dakota (\$2.0 billion).
- Minnesota was first in service and other operating income, with \$1.3 billion, followed by Texas (\$1.2 billion), Nebraska (\$831.6 million), Iowa (\$745.9 million), and California (\$625.0 million).
- Ag co-ops had commodity and supply sales of \$9.8 billion in foreign markets.
- Total net business volume (eliminating sales to other co-ops) was \$178.7 billion in 2020, down \$1.1 billion from 2019 (Table 18).

- Net sales of beans and dry peas, cottonseed, dairy products, fruit and vegetables, nuts, rice, and other marketings all increased from 2019 to 2020, while all the others decreased. For supplies, only net sales of crop protectants increased in 2020 from 2019, while the other supply categories all decreased with petroleum (and energy products) falling the most, by 11.6 percent.

Losses

- Co-ops experienced losses of \$121.8 million (negative net income before taxes) in 2020, which was \$130.8 million less than the \$252.6 million in losses in 2019 (Table 19).
- In 2020, 131 co-ops suffered losses, down from 172 co-ops with losses in 2019.
- By type, the co-ops with losses in 2020 included 78 marketing (\$71.1million in losses), 49 farm supply (\$49.3 million in losses) and 4 service co-ops (\$1.3 million in losses).
- The largest commodity segment for losses was fruit and vegetable, which had 195 percent of the total losses of all ag co-ops. The 78 marketing co-ops that finished the year with a loss had 71.1 percent of the losses of all ag co-ops, while the 49 farm supply co-ops “in the red” had 49.3 percent of all losses.
- Net income after taxes for these co-ops that experienced losses was an aggregate negative \$100.0 million.

¹Cooperatives with negative net income before taxes.

²Negative net income before taxes.

³Includes rice, bean and pea, tobacco, nut, rice, sugar, fish, wool & mohair, local foods and other marketing cooperatives.

⁴For 2020, net income after taxes for these cooperatives was negative \$100.021 million.

SECTION IV: TOP 100 AGRICULTURAL COOPERATIVES

This section (Tables 20 through 24) presents income statements, balance sheets, and financial ratios of the Top 100 agricultural cooperatives in the United States in 2020. It also shows the proportional share of the Top 100 co-ops compared to all ag co-ops, and also provides a list of the Top 100 cooperatives, including rank, name, type of co-op, total business revenue, and total assets. Some Top 100 co-ops requested to be left off the list (as noted).

Highlights

- The Top 100 largest ag co-ops (ranked by total gross business volume) had gross business volume of \$147.4 billion in 2020, a drop of \$336 million, or 0.2 percent, from 2019 (Table 20).
- However, net income of the Top 100 co-ops set a new record of \$6.2 billion and was up \$292 million from 2019.
- Service and other operating revenue of \$2.9 billion was roughly the same in 2020 as it was in 2019, having experienced a slight increase of \$16 million.
- Total expenses of the Top 100 increased in 2020 by \$1.2 billion to \$14.3 billion. Personnel, depreciation, and other expenses were up, but interest expense fell.
- Total assets of the Top 100 were a record \$70.6 billion (up by 4.5 percent from 2019, the previous record high year), while member equity rose to \$30.4 billion, of which \$18.8 billion was allocated (Table 21).
- Property, plant and equipment (fixed assets) of \$21.6 billion rose 6.3 percent for the Top 100 in 2020, while investments on \$2.4 billion in other co-ops dropped from 2019.
- Current liabilities of the Top 100 was about the same as in 2019 at \$24.9 billion, but long-term liabilities increased by 10.9 percent to \$15.3 billion. Total liabilities of \$40.2 billion in 2020, were up 3.9 percent.
- The Top 100 largest ag co-ops continued with strong financial performance in 2020 with sound ratios in 2020 (Table 22). Gross margin as a percent of sales dropped slightly, but return on total assets, and return on member equity both improved in 2020.
- The Top 100 largest ag co-ops had 73.9 percent of total sales, and 55.7 percent of service receipts and other income compared to the total population of ag co-ops in 2020 (Table 23).

- Patronage received from other co-ops increased to 42.8 percent of all ag co-ops patronage.
- Total gross business volume of the Top 100 ag co-ops accounted for 73.4 percent of business volume of all ag co-ops in 2020 (a slight increase in proportion from 2019), while net income of the Top 100 accounted for 75.1 percent of all ag co-op net income.
- The Top 100 co-ops owned almost 70 percent of all co-op assets and had 73.3 percent of total liabilities. The Top 100 held about 64 percent of equity of all ag co-ops.
- The Top 100 co-ops had 34.9 percent of co-op memberships and employed 57.3 percent of all ag co-op workers.

Top 100 List

- Iowa is home to more Top 100 co-ops than any other State, with 15 (by headquarters State). Following are Minnesota with 14 and Nebraska with 10 ([Table 24](#)). Illinois had 6 and California, Wisconsin, and Kansas all had 5 Top 100 ag co-ops.
- CHS Inc., a fuel, grain and food cooperative based in Inver Grove Heights, Minn., remains the Nation's largest ag co-op, with \$28.6 billion in total revenue (total gross business volume serves as the proxy for revenue) for 2020.
- CHS was followed by Dairy Farmers of America, a Kansas-based dairy cooperative, with \$17.9 billion in revenue. Land O'Lakes, Inc., a Minnesota mixed cooperative (supplies, dairy, food products), was third with just under \$14 billion in revenue.
- Of the co-ops in the 2020 Top 100 listing, 58 had revenue increases from 2019 to 2020, while 42 had decreases. Seven ag co-ops moved onto the Top 100 list in 2020 while 92 stayed on the list from 2019 (1 co-op that made the list was new to USDA's database for fiscal 2020). Of those co-ops who were in the Top 100 for both 2019 and 2020, 9 remained in the same position, 43 moved up in ranking, and 47 dropped in ranking. (Note that given the differences in co-op types and that ranking is based on revenue, changed prices from year to year of marketed commodities and supplies sold given various economic and environmental factors have impacts on rankings of various co-ops. Thus, ranking does not indicate positive or negative overall financial performance of specific co-ops.)

TABLE 20—Abbreviated income statement for Top 100 ag co-ops, 2020 and 2019

Cooperatives opting out: numbers 13, 18, 34, 37, 41, 45, 47, 53, 57, 65, 66, 70, 74, 81, 85, and 86.

SECTION V: Benchmark Statistics for Cooperative Comparisons

This section (Tables 25 through 29) presents benchmark statistics (common-size) for operating statements, balance sheets, and other data by operating type and primary product handled. These tables provide benchmarks to allow cooperatives to compare their own financial performance with cooperatives of similar type and size. Table 29 provides the best method for comparing co-ops since it is comprehensive and broken down by type and size.

Highlights

- In 2020, farm supply co-ops had higher gross margins as a percent of gross business volume (12.3 percent) than did marketing (11.4 percent) or service co-ops (2.4 percent). For all co-ops, gross margin was 11.6 percent of total gross business volume (Table 25).
- Total operating expenses were 13.8 percent of business volume for supply co-ops and 9.8 percent for marketing co-ops. Net income before taxes was higher for marketing co-ops (4.7 percent of business volume) than farm supply co-ops (2.6 percent). Service co-ops had the highest net income before taxes as a percent of total business, at 11.9 percent.
- For marketing co-ops, gross margins as a percent of business volume was highest for rice at 53.0 percent, followed by other marketing (43.8 percent), sugar (37.7 percent), fish (25.5 percent), fruit and vegetables (24.5 percent), poultry (15.9 percent), and cotton gins (14.2 percent) (Table 26). Dairy co-ops had 8.9 percent gross margins as a percent of business volume, while grains and oilseeds co-ops had 7.2 percent.
- Total operating expenses as a percent of business volume were highest among cotton gin co-ops, at 40.0 percent. Following were fruit and vegetable (19.5 percent), sugar (19.4 percent), rice (18.5 percent), fish (17.1 percent), poultry (14.3 percent), grains and oilseeds (8.5 percent), dairy (8.2 percent), and cotton (6.2 percent). Livestock co-ops had the lowest operating expenses, at 2.6 percent of business volume.
- Allocated member equity as a proportion of assets was highest for service co-ops (39.5 percent), followed by marketing co-ops at 26.4 percent, and then supply co-ops at 23.7 percent (Table 27).

- Among marketing co-ops, fish co-ops had the highest proportion of fixed assets to total assets (48.1 percent) (**Table 28**). Cotton gins were next (47.0 percent), and then sugar (45.8 percent).
- Total liabilities as a percent of assets were highest for livestock co-ops at 74.5 percent. Following were dairy (67.3 percent), cotton (63.8 percent), sugar (58.6 percent), and rice (57.2 percent) co-ops.
- Total equity as a percent of assets was highest among cotton gin co-ops (58.0 percent), followed by combined “other” marketing co-ops (56.5 percent), fish (54.0 percent), poultry (53.8 percent), grains and oilseeds (50.7 percent), rice (42.8 percent), sugar (41.4 percent), cotton (36.2 percent), fruit and vegetable (33.2 percent), and dairy (32.7 percent). Livestock was lowest at 25.6 percent.

Benchmarks

Cooperatives may compare their performance with the set of cooperatives that most closely matches their operating type and amount of sales. The 20 common-size financial statements in Tables 29.1 through 29.20 represent 104 different combinations of primary source of business volume and various total sales ranges as follows:

- Grain marketing (29.1)¹
- Mixed grain marketing (29.2)²
- Dairy marketing (29.3)
- Cotton marketing (29.4)
- Cotton ginning (29.5)
- Fresh fruit and vegetable (29.6)
- Fresh and processed fruit and vegetable (29.7)
- Processed fruit and vegetable (29.8)
- Livestock marketing (29.9)
- Poultry marketing (29.10)
- Fish and seafood marketing (29.11)
- Rice marketing (29.12)
- Sugar marketing (29.13)
- Nut marketing (29.14)

- Local foods (29.15)
- Bioenergy marketing (29.16)
- Dry bean and pea marketing (29.16)
- Tobacco marketing (29.16)
- Wool marketing (29.16)
- Other marketing—seed, flower, forestry, coffee (29.16)
- Farm supply (29.17)³
- Mixed farm supply (29.18)⁴
- Artificial insemination (29.19)
- Cotton service (29.20)
- Crop service (29.20)
- Hulling service (29.20)
- Dairy service (29.20)
- Fruit and vegetable service (29.20)
- Livestock service (29.20)
- Nut service (29.20)
- Rice drying (29.20)
- Storage (29.20)
- Transportation (29.20)
- Other service (29.20)

¹*Grain marketing co-ops market grain and oilseeds, and less than 25 percent of their total sales are from farm supplies.*

²*Mixed grain marketing co-ops have most sales from marketing grain and oilseeds (more than 50 percent), but also have farm supply sales in the 25 to 49.9 percent range.*

³*Farm supply co-ops' sales are 100 percent from farm supplies.*

⁴*Mixed farm supply co-ops have most sales from supplies (more than 50 percent), but also market commodities (up to 49.9 percent).*

TABLE 25—Common-size income statement, U.S. ag co-ops, by type, 2020

	Marketing	Supply	Service	Total

Section VI: Cooperative Statistical Trends

This section presents 4 tables and 12 charts depicting statistical trends of U.S. agricultural cooperatives covering 10 years, 2011 through 2020.

Highlights

- In 10 years, the number of ag co-ops dropped 23.7 percent, from 2,285 in 2011 to 1,744 in 2020. This was an average drop of 3.0 percent per year ([Tables 30 and 33](#), and [Figure 1](#)).
- Membership numbers have fallen from 2.3 million in 2011 to 1.9 million in 2020, a drop of 18.0 percent ([Tables 30 and 33](#), and [Figure 2](#)).
- The number of total employees of ag co-ops have fluctuated during the last 10 years, from lows of 183.6 thousand employees in 2011 and 2019 to a high of 191,300 employees in 2014. For 2020, co-ops reported 185.5 thousand employees ([Tables 31 and 33](#), and [Figure 3](#)). Over the same period, full-time employment grew by 4.3 percent (2011 to 2020), but the high year was 2017 with 140,653 full-time employees.
- Net and gross business volume fluctuated over the 10-year period, and both decreased in 2020 from 2019 ([Tables 30 and 32](#) and [Figure 4](#)).
- Net co-op sales of dairy and fruit and vegetables increased by 9.3 percent and 23.0 percent, respectively from 2011 to 2020, but grains and oilseeds, livestock, and sugar all decreased ([Table 32](#) and [Figures 5 and 6](#)).
- Over the 10-year period, petroleum, feed, fertilizer, and crop protectants all decreased (though fluctuations occurred between various years), while other supplies net sales increased ([Table 32](#) and [Figures 7 and 8](#)).
- In 2020, net operating margins and income before taxes both increased for the third year in a row ([Table 32](#) and [Figure 9](#)).
- From 2011 to 2020, total assets grew by 28.9 percent, increasing 7 years in a row. Over the period, total members' equity grew by 69.0 percent and hit yet another record in 2020 ([Table 32](#) and [Figure 10](#)). Liabilities increased for the third year in a row in 2020.

Top 100 Co-op Trends

- Total assets of the Top 100 co-ops grew 41.0 percent from 2011 to 2020, while gross business volume decreased for the second year in a row ([Table 33](#) and [Figures 11 and 12](#)).
- 2014 remains the highest year on record for total business volume, at \$176.6 billion.
- Net income hit a record for the third straight year and was \$6.2 billion for 2020 for the Top 100 ag co-ops ([Table 32](#)).

APPENDIX

Appendix Table A—Miscellaneous ag co-op profile information, 2020

	Number	Percent
Total ag co-ops	1,744	
Age of ag co-ops¹		
Co-ops 100 years or older	306	17.5%
Co-ops 75 to 99 years	628	36.0%
Co-ops 50 to 74 years	400	22.9%
Co-ops 25 to 49 years	209	12.0%
Co-ops 24 years or younger	190	10.9%
Unknown co-op age	11	0.6%
Total	1,744	100.0%
Scope of ag co-op operations		
Operating in more than 1 State	269	15.4%
Operating in only one State	1,475	84.6%
Total	1,744	100.0%
Board of directors (average size)²		
<u>Board size of co-op by total sales:</u>		
Up to \$99 million in sales	7	
\$100 million to \$1 billion in sales	11	
\$1 billion or more in sales	19	
Average of all 975 co-ops reporting	8	
Co-ops with LLCs³		
Marketing co-ops	201	57.9%
Supply co-ops	140	40.3%
Service co-ops	6	1.7%
Total	347	100.0%

¹When merged with others, some co-ops used year combined rather than year of a predecessor co-op.

²Co-ops where board size known = 975 co-ops.

³LLC's also includes partnerships and subsidiaries.

Note 1: Methodology

USDA conducts an annual survey of the population of U.S. farmer, rancher, and fishery cooperatives to gain information on the Nation's agricultural cooperative sector. Survey returns from cooperatives typically represent 93-96 percent of the total business volume of the entire cooperative sector.

Information obtained from individual cooperatives is combined with data from other cooperatives to maintain confidentiality; thus, aggregate statistics are reflected in all analysis, articles, and reports generated from the data. When individual cooperative data are released, it is only done with permission from the individual cooperatives involved (for example, those included in the Top 100 cooperatives listing of Table 24).

USDA considers four major criteria in identifying farmer, rancher, and fishery cooperatives that are then sampled for the annual statistics compilation:

- (1) Membership is limited to persons producing agricultural and aquacultural products and to associations of such producers;
- (2) Cooperative members are limited to one vote regardless of the amount of stock or membership capital owned; or, the cooperative does not pay dividends on stock or membership capital in excess of 8 percent a year or the legal rate in the State, whichever is higher;
- (3) Business conducted with non-members may not exceed the value of business conducted with members;
- (4) The cooperative operates for the mutual interest of members by providing member benefits based on members' use of the cooperative.

These criteria may result in larger or smaller numbers of farmer, rancher, and fishery cooperatives than found in lists or directories of State agencies or cooperative councils.

Note 2: Financial Glossary

These are the definitions and/or formulas used to calculate the financial items in this report.

Income statement — Shows the financial results (sales, service and other income, expenses, taxes, and net income) of a cooperative's operations.

Total sales — Includes all sales from marketing or supplies (less discounts), returns, and allowances from gross sales. (Service co-ops typically do not have a total sales value; the first income statement item for those co-ops is service receipts.).

Cost of goods sold — Beginning inventory plus purchases and freight costs, minus purchase returns and allowances, purchase discounts, and ending inventory.

Gross margins — The excess of net sales over the cost of goods sold.

Service and other operating income — This income is derived from any service the cooperatives provide. Some co-ops only provide services. Service-only co-ops include rice driers, storage, transportation, auctions, hulling, seed development, locker plants, pest management, scouting, farmer markets, and miscellaneous services. Marketing and supply co-ops also provide hauling, storage, grading, delivery, custom application, recordkeeping, and drying as most common services. Other operating income can also include income from providing financing for sales.

Gross revenue — Gross margins plus service and other operating income.

Operating expenses — Four categories of expenses are used: wages, depreciation, interest, and "other." Wages include salaries and wages, payroll taxes, employee insurance, unemployment compensation, and pension expense. Other expenses include administrative expenses and general expenses. Administrative expenses are overhead costs, including professional services, office supplies, telephone, meetings and travel, donations, dues and subscriptions, directors' fees and expense, and annual meetings. General expenses include advertising and promotion, auto and truck delivery, insurance, taxes (for property, business, etc.), licenses, rent and lease expenses, plant supplies, repairs and maintenance, utilities, bad debts, and miscellaneous.

Net operating margins — Net operating margins are calculated by taking gross revenue minus total expenses before taxes and not counting patronage refunds from other cooperatives or other non-operating income or expenses.

Patronage income — Patronage refunds received (usually income from other cooperatives) that result from business activity with other cooperatives (generally regional co-ops), or CoBank (a cooperative bank).

Non-operating income — Income not generated by sales. It can be interest from investments. It also can come from the sales of property, plant, and equipment, rentals, and extraordinary items.

Net income before taxes — Net operating margins plus patronage refunds and non-operating income, before taxes are subtracted.

Income taxes — Cooperatives pay income taxes on earnings not allocated to members (retained earnings) and on dividend payments.

Net income after taxes — Net operating margins plus patronage refunds and non-operating income, minus taxes.

Gross business volume — Comprised of total sales, other operating income, patronage income, and non-operating income.

Net business volume — Comprised of total sales, other operating income, patronage income, and non-operating income, but sales to other cooperatives are not included.

Earnings before interest, depreciation, and taxes — reflects the profitability of cooperatives in a different way by eliminating the effects of financing and capital expenditures.

Gross and net value-added — value added to the products cooperatives market, to the supplies they sell, and the services they provide. Value-added income represents the earnings from land, labor, capital, and management contributed by farmer cooperatives. It is calculated by adding cooperatives' reported (1) wages and benefits, (2) net income before taxes, (3) interest paid on borrowed capital, and (4) depreciation. The first three components equal net value-added, and all four components, collectively represent gross value-added. In simple terms, this method of measuring gross value-added is equivalent to subtracting cost of goods sold and total expenses from total net sales and adding service receipts and other income.

Balance sheet — The balance sheet of a cooperative states its financial position at the end of a 12-month fiscal year. It represents the co-op's assets, liabilities, member equity, and their mutual relationships.

Current assets — Assets generally comprised of cash and cash equivalents, accounts and notes (with short-term maturities) receivable, inventories, and prepaid expenses.

Investments and other assets — Investments are most often in other cooperatives and CoBank. “Other assets” is a catch-all category that contains a wide variety of items.

Property, plant, and equipment (PP&E) — Net property, plant, and equipment are tangible assets needed for a cooperative’s operations. It is calculated by taking total PP&E and subtracting accumulated depreciation.

Current liabilities — All obligations that are paid with the use of current assets and usually paid within 1 year. These include notes payable to banks and/or other trade creditors, accounts payable, current maturities of long-term debt, income taxes, other accrued liabilities (i.e., payroll, property taxes, interest), patronage dividends payable, and miscellaneous current liabilities.

Total liabilities — Include current liabilities plus long-term liabilities (primarily long-term debt).

Allocated (or member) equities — Represent member ownership in the cooperative; those equities allocated specifically to members.

Retained earnings — Equity that is not assigned to specific member accounts.

Total equity (net worth) — Sum of allocated equity, patron’s equity, and retained earnings.

Note 3: Financial ratios

Ratios provide for comparative analysis of items in balance sheets and income statements.

Current ratio = current assets divided by current liabilities.

Debt-to-assets = total debt (total liabilities) divided by total assets.

Long-term-debt-to-equity = long-term liabilities divided by total equity.

Times interest earned = income before interest expense and taxes divided by interest expense.

Fixed assets turnover = net sales divided by fixed assets (net PP&E).

Equity-to-assets = total equity divided by total assets.

Expenses-to-gross revenue = total expenses divided by gross revenue.

Gross margin = total sales minus cost of goods sold (gross margin) divided by total sales.

Return on assets = net income before taxes and interest divided by total assets.

Return on allocated member equity = net income after taxes divided by allocated equity.

U.S. Department of Agriculture

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; fax: (202) 690-7442; or e-mail: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.
