## GENERAL GUIDANCE FOR APPLYING FOR ACCEPTANCE OF PRODUCTS TECHNICAL STANDARDS COMMITTEE "A" (ELECTRIC PROGRAMS)

This document provides only general guidance for applying for acceptance. It is intended for use with <u>Specific</u> <u>Information Sheets</u>, which provide detailed information concerning samples, test reports, and other documentation that must be submitted for a particular type of product. Do not rely on this document alone. You must also obtain Specific Information Sheets. For more information, see the Electric Program website <u>For</u> <u>Engineers</u> or contact Technical Standards Committee "A".

Norris W. Nicholson, Chair Technical Standards Committee "A" Phone: (202) 720-1979 E-Mail: <u>Norris.Nicholson@usda.gov</u> Website: https://www.rd.usda.gov/programs-services/services/engineers

The application package must include 1 signed electronic copy (*in Adobe pdf format, in a single file*) of the following information:

- Letter of Application requesting acceptance of the product. The letter should be specific as to what
  products are to be considered for acceptance. The letter and all accompanying material must be submitted in
  Adobe pdf format as 1 single file. The letter must be signed by an authorized designee of the manufacturer.
  The following information must be in the letter itself or submitted as attachments to the letter.
  - 1.1. <u>Listing Format (Category/Subcategory)</u>: The submitter must provide the proposed listing format of the product. The proposed listing format must be consistent with the category/subcategory listings as shown in the currently published RUS List of Materials. Use the MS Word or Adobe pdf files to edit the page, category, subcategory, and listing format of the proposed product to show exactly how it should appear. The List of Materials can be downloaded from the RUS Electric Program website in MS Word or Adobe pdf formats:

List of Materials (<u>Microsoft Word</u> or <u>Adobe pdf</u>) Technical List of Materials (<u>Microsoft Word</u> or <u>Adobe pdf</u>) <u>RUS Material Requirement Specific Information Sheets</u>

- 1.2. Product Description: Specific catalog numbers for each item need to be included.
- 1.3. <u>Statement of Origin</u>: A statement of origin for all products under consideration in the application must be included in the letter of request and the statement should be presented in the following format:
  - 1.3.1. "(IDENTIFY PRODUCT) is manufactured in (IDENTIFY COUNTRY), substantially all from articles, materials, or supplies mined, produced, or manufactured in (IDENTIFY COUNTRY OR

## COUNTRIES)."

- 1.3.2. The statement of origin may be included in the letter of application or as a separate signed (original signature) attachment.
- 1.3.3. **Buy American Requirements**: All products applying for the List of Materials must meet RUS Electric Program regulation <u>7 CFR 1787 Buy American Requirements</u>.
- 1.4. <u>Manufacturing facility location</u>: All applications, including renewals of technical acceptances, must specify the physical addresses of all the manufacturing plants where products under consideration are produced.
- 1.5. <u>Corporate mailing address</u>: The application must clearly state the corporate mailing address to which official correspondence is to be sent.
- 1.6. <u>Background Information</u>: Manufacturers applying for the <u>first time</u> and manufacturers that merge with other companies should provide background information about their companies. Information furnished should include:
  - 1.6.1. A brief company history,
  - 1.6.2. Addresses of company headquarters,
  - 1.6.3. Names, office addresses, and telephone numbers of key personnel with brief biographies and,
  - 1.6.4. Brief description of how the company proposes to support all its products under consideration, especially products previously manufactured by the non-surviving company of a merge, should agency borrowers encounter difficulties using them.
- 1.7. <u>List of End-Users</u>: A partial list of domestic (United States) and/or non-domestic end-users should be provided <u>along with contact information (if available)</u>. Distributors will not be accepted for this requirement.
- 1.8. <u>Quality Control/Quality Assurance</u>: The application should include a description of the manufacturer's established quality control and quality assurance procedures for the products submitted for consideration.
- 2. Attachments to the Letter of Application should include the information requested on the appropriate <u>Specific Information Sheet</u>. In general, this includes all pertinent descriptive information such as drawings and catalog sheets detailing dimensions, materials, finish and ratings of the product, and the installation and maintenance instructions when appropriate. Information needed for reviewing the item needs to be sufficiently detailed and descriptive to demonstrate sound engineering and product integrity.
- 3. Samples should be submitted in accordance with the <u>Specific Information Sheet</u>. Prior to the submission of a large or bulky sample, please contact the <u>Committee Chair</u> for instructions. Samples may be returned at expense of the manufacturer after Committee consideration. If the samples are to be returned, please indicate that in your letter of application. We will need a prepaid return shipping label. In some cases, we will also need appropriate packaging. If the manufacturer does not wish the samples returned all items

will be recycled.

## 4. Test reports need to include:

- 4.1. Name of the firm performing the test and location of the test facility,
- 4.1.1. in-house testing will be acceptable if proper standards procedures are followed.
- 4.2. Names and titles of individual(s) conducting the test,
- 4.3. Date the test was performed,
- 4.4. Description of item(s) being tested, including model and serial numbers, if appropriate,
- 4.5. Test procedure followed (either a detailed description of the test procedure or reference to a RUS specification and/or appropriate national standard),
- 4.6. Units used in test reports or shown on drawings must be U.S. customary units unless the specification or standard specifies SI units,
- 4.7. Test reports, drawing/schematic details and associated information must be in
- 4.8. English, or have a translated copy attached, and
- 4.9. Signature of individual conducting the test or an official representative of the test facility.
- 4.10. The background and qualifications of the individual performing the tests should also be included.
- 4.11. If tests are performed in accordance with a standard other than the ones specified by the RUS, it is up to the submitter to provide documentation showing that the data shows compliance with the standards referenced in the specific information sheet. One method is to prepare a paragraph-by-paragraph comparison of the standards.

## 5. The application should be sent to:

<u>Electronic File:</u> Norris W. Nicholson, Chair Technical Standards Committee "A" (Electric) E-Mail: <u>Norris.Nicholson@usda.gov</u>

Samples: Chair, Technical Standards Committee "A" (Electric) United States Department of Agriculture (USDA) Rural Utilities Service 1400 Independence Ave., S.W., South Building, Room 4134 Washington, D.C. 20250
