

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
FL	Marco Rubio, Rick Scott	Neal Dunn (02)	City of Marianna	\$141,500	This Rural Development investment will be used to purchase a nurses call station for the Marianna Nursing Home. The existing nursing call station is more than 10 years old and does not meet current guidelines. The new equipment will improve and increase the facility's capacity to serve patients during normal times as well as emergent times such as during a pandemic.
FL	Marco Rubio, Rick Scott	Al Lawson (05)	Madison County Hospital Health Systems Incorporated	\$1,000,000	This Rural Development investment will be used to purchase an Electronic Health Record System and install security upgrades for Madison County Hospital. The existing system is nearing the end of its useful life. The new equipment will allow the hospital to strengthen capacity, streamline processes and improve tracking for Covid 19 and future pandemics. The project will also allow for the ability to data share more effectively for reporting purposes with the Department of Health and other healthcare partners.
IA	Joni Ernst, Charles Grassley	Randy Feenstra (04)	Belmond Community Hospital	\$984,600	This Rural Development investment will be used to assist Belmond Community Hospital with increasing capacity for vaccine distribution by providing cold storage, transportation, and vehicle support. This project will purchase medical supplies, laboratory equipment, and personal protective equipment to increase medical surge capacity. The project will also provide for equipment and software to increase telehealth capabilities.
IA	Joni Ernst, Charles Grassley	Randy Feenstra (04)	Ida County, Iowa Community Hospital	\$1,000,000	This Rural Development investment will be used to expand and renovate the emergency and laboratory departments for Ida County, Iowa Community Hospital, doing business as Horn Memorial Hospital. The expansion will create more space for testing equipment and help increase the efficiency needed to process COVID-19 tests. There will also be more room for vaccine storage.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
IA	Joni Ernst, Charles Grassley	Randy Feenstra (04)	Shelby county Chris A. Myrtue Memorial Hospital	\$1,000,000	This Rural Development investment will be used to help Shelby County Chris A. Myrtue Memorial Hospital with an emergency room addition and renovation. □
IA	Joni Ernst, Charles Grassley	Ashley Hinson (01)	Regional Health Services of Howard County	\$1,000,000	This Rural Development investment will be used to help Regional Health Services of Howard County build a clinic addition of 3,900 square feet which will include nine exam rooms, three offices, three nurse stations, and a procedure room to support COVID-19 pandemic recovery efforts. The expansion proactively prepares for a future pandemic event and long-term healthcare sustainability for Howard county residents and surrounding communities.
IA	Joni Ernst, Charles Grassley	Randy Feenstra (04)	Hancock County Health System	\$622,200	This Rural Development investment will be used to construct a respiratory clinic in both Garner and Britt. These clinics will be used for COVID-19 testing and will offer safer enhanced care to patients affected by COVID-19 and future pandemics.
IA	Joni Ernst, Charles Grassley	Ashley Hinson (01)	Jones Regional Medical Center	\$236,500	This Rural Development investment will be used to help fund equipment needed to support the COVID-19 pandemic and higher-acuity patients. These tools will help prepare for a future pandemic event, increase medical surge capacity, increase access to quality health care services, and increase capacity for vaccine distribution, including cold storage, vehicle, transportation, and other equipment expenses.
IA	Joni Ernst, Charles Grassley	Randy Feenstra (04)	City of Pocahontas	\$344,200	This Rural Development investment will be used to help the Pocahontas Community Hospital purchase equipment necessary to better serve COVID-19 patients at the local level instead of being transferred to larger facilities for medical care. The equipment includes ventilators, x-ray machines and imagining equipment, chemistry analyzers, ultraviolet disinfection systems, cardiac rehab system, and monitoring systems.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
IL	Tammy Duckworth, Richard Durbin	Adam Kinzinger (16)	Gibson Area Hospital & Health Services, I	\$72,200	This Rural Development investment will be used to purchase lab equipment to allow COVID antibody testing and safely process COVID samples. The equipment will enable the hospital to differentiate between the COVID virus and bacterial pneumonia to administer proper medical treatment. The project includes purchasing a vented safety hood to protect lab staff while processing COVID swabs. Gibson Area Hospital & Health Services operates a critical access hospital with 12 clinics serving five counties in East Central Illinois.
IL	Tammy Duckworth, Richard Durbin	Darin LaHood (18)	Blessing Care Corporation dba Illinois Community Hospital	\$891,500	This Rural Development investment will be used to construct a drive through clinic at Illini Community Hospital located in Pike County. The new facility will provide COVID vaccinations, testing and treatment for patients. The drive through clinic will see all patients with COVID-19 related exposures and symptoms, which will decrease exposure to staff and other patients. This project will broaden access to COVID-19 testing and vaccines as well as increase access to health care services to patients in the rural service area. The project serves 16,430 people.
IL	Tammy Duckworth, Richard Durbin	Mary Miller (15)	Ferrell Hospital Community Foundation	\$869,500	This Rural Development investment will be used to convert ten existing patient rooms that were constructed in 2020 to negative-pressure COVID treatment rooms, upgrade five existing semi-private rooms for COVID treatment, provide a new training room to adequately serve the present and future client base and renovate nurse support stations. This project will improve ventilation and isolation needed during pandemic situations.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
IL	Tammy Duckworth, Richard Durbin	Mary Miller (15)	Salem Township Hospital	\$792,400	This Rural Development investment will be used to renovate the existing Salem Township Hospital and includes construction to the main registration bays, procurement room, installation of med/surgical negative pressure rooms and four glass doors in emergency room treatment rooms, infusion rooms recliners/Geri chairs, video monitoring system for infusion rooms, nurse call system, Phreesia pads, blood culture incubators, Vapotherm breathing devices, disinfecting sprayer and chemicals, ultraviolet-C disinfection system, personal protective equipment and COVID tests. This project will serve 39,437 people in Marion County, Illinois and will broaden access to COVID-19 testing and vaccines and care as well as treatment and prevention of the spread of the virus and any future viruses.
IL	Tammy Duckworth, Richard Durbin	Mike Bost (12)	Arrowleaf	\$362,900	This Rural Development investment will be used to renovate the current community mental health center (also known as an outpatient clinic or behavioral health and addiction treatment center) located in Cairo, Illinois, that serves the residents of Alexander and Pulaski counties. Project renovations include roof, gutters, siding, windows, doors, and parking lot. Interior renovations include repairing walls, new flooring, lighting, restroom fixtures, mechanical system updates, and converting open office cubical areas into closed private offices to meet Health Insurance Portability and Accountability Act privacy requirements. These rooms will be utilized for COVID testing areas. COVID vaccination clinics will be held in the lobby area of the facility. Renovations also

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
IL	Tammy Duckworth, Richard Durbin	Mary Miller (15)	Tri-State Food Bank Incorporated	\$201,800	This Rural Development investment will be used to purchase handling and transport equipment for Tri-State Food Bank Incorporated located in Johnson County, Illinois to improve rural communities' access to food. This equipment includes electric forklifts and chargers, electric pallet jack and charger, pallet rack assembly, shrink wrap station, weigh scale, conveyor system assembly, guardrail assembly and a 53' trailer. This vital equipment ensures continued and improved services provided by Tri-State Food Bank Incorporated. While the project is located in the Vienna, Illinois Hub it will serve Johnson, Hardin, Pope, Pulaski, and Alexander counties. This project will strengthen nutritional assistance, help prepare for future pandemics, and ensure continued services through the existing COVID-19 pandemic. This project will serve 35,771 people.
IN	Mike Braun, Todd Young	Greg Pence (06)	Neighborhood Health Center Incorporated	\$313,800	This Rural Development investment will be used to purchase a fully equipped mobile health care clinic. The mobile clinic will allow for expansion of vaccine distribution and to conduct COVID-19 and other disease testing in the community of Liberty, Indiana. It will also allow Neighborhood Health Center to expand access to primary care, behavioral health services, dental services and health care screenings to all 2,133 residents. □
IN	Mike Braun, Todd Young	Greg Pence (06)	Rush Memorial Hospital	\$407,900	This Rural Development investment will be used to purchase an equipped mobile health clinic. Rush Memorial Hospital will be able to expand COVID-19 vaccine distribution and ensure the residents in Rushville, Indiana have convenient and accessible access to COVID-19 testing. This project will also allow Rush Memorial Hospital to expand behavioral health services throughout the community. □
IN	Mike Braun, Todd Young	Jim Baird (04)	Memorial Hospital	\$391,400	This Rural Development investment will be used to reimburse Memorial Hospital in Logansport, Indiana for revenues lost due to increased expenses from COVID-19. This reimbursement will assist the hospital to continue to provide quality health care services to residents. □

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
IN, IL	Mike Braun, Todd Young (IN), Tammy Duckworth, Richard Durbin (IL)	Jim Baird (IN 04), Adam Kinzinger (IL 16)	Iroquois Memorial Hospital & Resident	\$582,500	This Rural Development investment will be used to reimburse expenses associated with the COVID-19 pandemic, the purchase of a portable pulmonary function test equipment and IT infrastructure. Funds will also support personal protective equipment, supplies, staffing, testing and vaccine administration for Iroquois Memorial Hospital & Residential Home. This project ensures the continuation and improved services for the community, which consists of 80,933 people in Kankakee County, Illinois and parts of Vermilion, Newton County, Indiana. This project serves Distressed and Equity communities.
KS	Roger Marshall, Jerry Moran	Tracey Mann (01)	Cheyenne County PBC	\$54,200	This Rural Development investment will be used to purchase and install flooring and equipment to help prevent the spread of the COVID-19 virus in the Saint Francis skilled nursing facility. The facility's flooring and dining tables and chairs cannot withstand the Center for Disease Control and Prevention new required cleaning and sanitizing standards. The project will replace over 9,000 square feet of carpet and laminate flooring and purchase new dining room tables and chairs.
KS	Roger Marshall, Jerry Moran	Tracey Mann (01)	Cloud County Health Center	\$369,600	This Rural Development investment will be used to purchase a Magnetic Resonance Imaging machine. An on-site Magnetic Resonance Imaging service will provide faster diagnosis and treatment, improving the quality of care.
KS	Roger Marshall, Jerry Moran	Ron Estes (04)	Winfield Rest Haven Incorporated	\$307,600	This Rural Development investment will be used to reimburse Winfield Rest Haven Incorporated for lost revenues suffered during the COVID-19 pandemic. Winfield Rest Haven, a skilled nursing home, is open to all residents regardless of their ability to pay. The COVID-19 pandemic greatly reduced operating revenue to the facility.
KS	Roger Marshall, Jerry Moran	Jake LaTurner (02)	Atchison Hosp Association	\$414,800	This Rural Development investment will be used to reimburse Atchison Hospital Association (Amberwell Health) located in Atchison, for lost revenue in 2020 due to the COVID-19 pandemic. This facility provides in-patient, out-patient, emergency care, and physician services to patients in the county and surrounding areas.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
KS	Roger Marshall, Jerry Moran	Jake LaTurner (02)	Neosho Memorial Regional Medical Center	\$434,300	This Rural Development investment will be used to purchase and install telehealth infrastructure and upgrade health information systems to Neosho Memorial Regional Medical Center. The critical access hospital has faced unprecedented challenges related to the COVID-19 pandemic.
KS	Roger Marshall, Jerry Moran	Ron Estes (04)	Sumner County Hospital District #1	\$91,100	This Rural Development investment will be used to purchase equipment and supplies, to replace what was used during the COVID-19 pandemic, increase telehealth capabilities, purchase additional equipment to continue serving COVID-19 patients and provide vaccinations and testing at this Caldwell facility. This project will allow the only hospital in Sumner County to continue providing health care protection and treatment for the COVID-19 pandemic and increase telehealth services.
KS	Roger Marshall, Jerry Moran	Tracey Mann (01)	Prairie Sunset Home Incorporated	\$74,600	This Rural Development investment will be used to reimburse Prairie Sunset Home Incorporated, a skilled nursing home, for lost revenues from 2020 and 2021. The investment will also purchase supplies and equipment, and improve information technology and telehealth capabilities to help the facility in its continued fight over COVID-19. This facility provides services to residents in a very small community and parts of Reno County, KS.
KS	Roger Marshall, Jerry Moran	Jake LaTurner (02)	Coffeyville Regional Medical Center Incorporated	\$657,700	This Rural Development Investment will help to purchase medical equipment, medical vehicles, and a pharmacy storage system to prevent the spread of the COVID-19 virus and support the hospital's COVID-19 response in rural southeast Kansas.
KS	Roger Marshall, Jerry Moran	Jake LaTurner (02)	Frankfort Community Care Home	\$69,600	This Rural Development investment will be used to reimburse lost revenues that took place during the COVID-19 pandemic.
KS	Roger Marshall, Jerry Moran	Tracey Mann (01)	Sherman County PBC	\$83,100	This Rural Development investment will be used to purchase equipment to help prevent the spread of COVID-19 and improve the quality of life for their residents. The purchase includes a digital screening systems, air filtration machines and ceiling hoists. Topside Manor is the only facility of its kind in Goodland.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
MI	Gary Peters, Debbie Stabenow	Jack Bergman (01)	Munson Healthcare Grayling	\$1,000,000	This Rural Development investment will be used to supplement lost revenue experienced as a direct result of the COVID-19 global pandemic. The primary cause of lost revenue was COVID-19 testing and vaccination in the community. More than 2,000 seniors and essential workers were vaccinated in the winter of 2021 at Munson Healthcare's Grayling clinic.
MI	Gary Peters, Debbie Stabenow	Jack Bergman (01)	Otsego County Ambulance	\$37,485	This Rural Development investment will be used to purchase ambulance equipment that became overused during the COVID19 pandemic. Previous electrocardiogram units underwent increased strain during the pandemic, directly related to the Ambulance Corps' significant increase in call volume and COVID transports. The new equipment will replace the older machines and allow the grantee to align with new telehealth standards.
MI	Gary Peters, Debbie Stabenow	Jack Bergman (01)	Munising Memorial Hospital Association	\$195,680	This Rural Development investment will be used to purchase a computed tomography (CT) scanner. The new CT scanner will allow for enhanced care for COVID-19 patients and benefit the community by offering tests that were previously unavailable.
MN	Amy Klobuchar, Tina Smith	Michelle Fischbach (07)	Appleton Area Health	\$174,300	This Rural Development investment will be used to provide upgrades to the telemedicine and telehealth capabilities and replace hospital equipment at Appleton Area Health. This project will purchase and install 28 flat panel television monitors with cameras for clinic exam rooms and hospital patient rooms. This project will also help to purchase and install an air conditioning unit for the laboratory, purchase four new hospital beds, and five powered air-purifying respirators (PAPR). These improvements will help to reduce the negative effects of the COVID-19 pandemic for the 1,412 residents of the city of Appleton and the rural populations in Swift and Lac Qui Parle counties.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
MN	Amy Klobuchar, Tina Smith	Michelle Fischbach (07)	Hendricks Community Hospital Association & Retirement Home	\$35,700	This Rural Development investment will be used to replace two heating, ventilation, and air-conditioning (HVAC) units in the Hendricks Community Hospital Nursing Home. Over the last year, the nursing home has had two COVID-19 outbreaks in the nursing home. This project will help to remove the existing air handling unit and install two new HVAC units to enhance filtration and improve air quality. Improved air filtration will reduce transmission of illness for the 1,272 residents in the city of Hendricks, the city of Ivanhoe, and the surrounding area.
MN	Amy Klobuchar, Tina Smith	Michelle Fischbach (07)	CentraCare Health - Long Prairie	\$99,500	This Rural Development investment will be used to replace the air handling unit (AHU) at the CentraCare Health System – Long Prairie Nursing Home/Long-Term Care facility. The unit will be replaced with a high efficiency packaged roof top unit with cooling and filtration capabilities. This system will meet the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) recommendations for reducing airborne infectious aerosol exposure, minimizing the airborne health effects related to the COVID-19 pandemic for the 6,802 residents in Long Prairie, Burtrum, Swanville, Browerville, Clarissa, Eagle Bend and Long Prairie Township served by the facility.
MN	Amy Klobuchar, Tina Smith	Pete Stauber (08)	Mille Lacs Health System	\$1,000,000	This Rural Development investment will be used to help to offset the costs incurred by the Mille Lacs Health System as a result of the Covid-19 pandemic. The lost revenue of the nonprofit, rural health system in northern Minnesota stems from a combination of government mandates, a state-wide stay-at-home order, stoppage of elective and non-emergency procedures, infusion therapy and rehab, and the implementation of various infection prevention strategies. The total revenue lost is estimated at \$1,781,374.28 that would normally go towards providing services to the 4,823 residents in the cities of Hillman, Isle, Garrison, Milaca and Onamia.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
MN	Amy Klobuchar, Tina Smith	Michelle Fischbach (07)	Lakewood Health System	\$733,300	This Rural Development investment will be used to help meet financing needs resulting from the COVID-19 pandemic for the Lakewood Health Care Center. The 100-bed, Medicare certified, skilled, long-term care facility in Staples, Minnesota serves 38,738 residents across Todd, Wadena, Cass, Crow Wing and Morrison counties. The facility uses the Mayo Health Laboratory for COVID testing supplies needed to collect specimens, package samples, ship samples, analyze specimens and receive test results through a secure portal. Funds will be used to cover the costs incurred to receive this service and to support staffing needed to administer COVID-19 testing.
MN	Amy Klobuchar, Tina Smith	Pete Stauber (08)	Cook-Orr Health Care District	\$488,300	This Rural Development investment will be used to help make improvements to the heating, ventilation, and air conditioning (HVAC) system in 15 rooms of the Cook-Orr Health Care District (Cook Hospital) facility and convert seven hospital rooms to negative air pressure. The Cook Hospital serves 10,053 residents in the cities of Cook, Virginia, Tower, and the surrounding areas.
MO	Roy Blunt, Josh Hawley	Jason Smith (08)	Texas County Memorial Hospital	\$1,000,000	This Rural Development investment will be used to assist Texas County Memorial Hospital complete the interior of a surgery area, thus improving critical access to quality health care services for area residents. This investment will also help the hospital prepare for future pandemics by increasing its capacity for vital medical surgery. The COVID-19 pandemic has demonstrated the need for the immediate completion of the surgical center. Completion of this project will be of great benefit for not only the hospital but the thousands of rural residents that it serves.
MO	Roy Blunt, Josh Hawley	Sam Graves (06)	Second Harvest Community Food Bank	\$211,249	This Rural Development investment will be used to assist the Second Harvest Community Food Bank with increased expenses due to the on-going COVID-19 pandemic. This food bank conducts mobile food distributions throughout Northwest Missouri.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
MT	Steve Daines, Jon Tester	Matt Rosendale (At Large)	Prairie County Hospital District	\$506,741	This Rural Development investment will be used to increase the size and improve the function of the hospital's emergency department. Prairie County Hospital (doing business as Prairie Community Hospital) is a county-owned critical access hospital that provides clinical and emergency services. The hospital is a certified Trauma Receiving Facility which fills a critical need in the community and surrounding areas. Funding will also be used to expand the laboratory capabilities, improve patient services, and improve select support spaces.
MT	Steve Daines, Jon Tester	Matt Rosendale (At Large)	Powder River County	\$122,500	This Rural Development investment will be used to purchase two ambulances and related equipment for Powder River County. Broadus, Montana is the County Seat for Powder River County, which is an isolated, rural, and medically underserved area in the southeastern corner of the state. Powder River County recently took over the provision of emergency ambulance services for the area, as no provider was interested or available to serve the county's approximate 2,000 residents.
NC	Richard Burr, Thom Tillis	G.K. Butterfield (01)	Our Community Hospital Incorporated	\$125,800	This Rural Development investment will be used to renovate the Our Community Hospital Inc. facility as well as purchase equipment. Our Community Hospital, Inc. dba Bryan Health and Rehab, is a 60-bed skilled nursing facility that also houses 20 assisted living beds. The facility offers short term therapy services as well as long term skilled assistance care. The facility was able to continue providing services, but with limited capacity as they were not able to provide a safe environment for patients and staff due to barriers with equipment and layout of the nurse's stations during the COVID-19 pandemic. The project includes renovating nurses' stations, a new phone system, new fire alarm and panel, a van, cameras, hands free equipment, as well as a variety of equipment for the nurses' stations. The van will allow the staff to transport patients to doctor's appointments with an adequately equipped vehicle for social distancing instead of relying on local transportation companies to complete the transports. The project is an essential community facility that will provide medical services primarily for rural residents of the service area. of the service area.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
NC	Richard Burr, Thom Tillis	Patrick McHenry (10)	High Country Community Health Incorporated	\$1,000,000	This Rural Development investment will be used to renovate the existing facility for High Country Community Health Inc. and purchase, medical equipment staffing expenses. High Country Community Health Inc. owns the 15 thousand square foot building and in 2019 renovated 7.5 thousand square feet to serve as a medical, integrated behavioral health practice for pediatric patients. The grant funds will be one source of funding the renovations for the remaining 7.5 thousand square feet of space. The space will be redesigned to accommodate a dental clinic, medical clinic with exam rooms, behavioral health counseling rooms, and administration office space. These spaces will be furnished with various exam tables, laboratory testing equipment, vaccine refrigerators, x-rays, sterilization equipment, scales, dental operation equipment, and other medical devices aimed at prevented care. A total of 28 new staff members will be hired within two years of construction completion. These positions include physicians, nutritionist, clinic support, counselors, patient resource specialist, nurse, dentist, hygienist, assistants, and interpreters. Also, the project will allow the hospital to expand the medical service offerings that are desperately needed in the hard-hit community due to the COVID-19 pandemic. The project is an essential community facility that will provide healthcare services primarily for rural residents of the service area.
NC	Richard Burr, Thom Tillis	David Rouzer (07)	Johnston County Public Schools	\$382,200	This Rural Development investment will be used to convert a nursing station into an on-site testing location and purchase telehealth video equipment for the Johnston County Board of Education. The borrower is a public body that operates as Johnston County Public Schools and are responsible for administering education policies and educational programs in Johnston County, North Carolina. The applicant has two facilities that are affected by the project which are Selma Elementary School and Selma Middle School in Selma and Benson Elementary School Benson Middle School in Benson. The project includes staffing a full-time nurse as well as converting a nursing station to an on-site testing location, administer vaccinations, and space to quarantine if needed. The equipment will aid in stopping the spread-transmission of COVID-19. The project is an essential community facility to provide medical services primarily for rural residents of the service area.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
NC	Richard Burr, Thom Tillis	Madison Cawthorn (11)	Hot Springs Health Program	\$25,600	This Rural Development investment will be used to purchase air purifiers for exam rooms for the Hot Spring Health Program Inc. (HSHP). HSHP is a private, non-profit corporation that was created to provide primary medical care to the citizens of Madison County, NC, and surrounding areas. The proposed project will include 40 new air purifiers to install in each exam room in all four clinic locations, which will provide better safety and reduce the potential of spreading Covid-19 and other communicable diseases to providers and clients. The JADE air purification system utilizes Surgically Clean Air's multi--stage air purifying technologies that work together to clean, purify, and re-energize the indoor air. The multistage filtration system captures dust particles, pollen, volatile organic chemicals, mold, allergens, viruses, odors (like formaldehyde and smoke), bio-aerosols, nitrous oxide, and many other pollutants that are found in the inside air in buildings. The project is an essential community facility that will provide medical services primarily for rural residents of the service area.
NC	Richard Burr, Thom Tillis	Dan Bishop (09), Greg Murphy (03), David Rouzer (07)	Goshen Medical Center Incorporated	\$1,000,000	This Rural Development investment will be used to purchase mobile medical units and miscellaneous equipment for the Goshen Medical Center. The new mobile trailers will act as the power source and transportation for each unit. Also, the new equipment, supplies, and staffing will aid in stopping the spread of COVID-19. The new equipment includes five heavy duty diesel trucks, generators, computers, five employees including a FNP or PA, LPN, receptionist, vaccine/testing coordinator, an outreach coordinator, a trailer with a customized interior to be used as a medical unit, along with a variety of medical supplies to equip the mobile units. The project is an essential community facility that will provide medical services primarily for rural residents of the service area.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
NH	Maggie Hassan, Jeanne Shaheen	Ann Kuster (02)	The Bowler-Bartlett Foundation	\$281,300	This Rural Development investment will be used to purchase a mobile clinic van as part of the Northern New Hampshire Mobile Clinic Program serving Northern Coos County. This mobile clinic van will extend community healthcare by fostering immunization and preventative screening services at often-underutilized local sites across rural northern New Hampshire. It will also include a focus on COVID-19 initial vaccinations and boosters, monoclonal antibody treatment or pop-up COVID-19 testing. This project was built through community collaboration between multiple hospitals and providers, local insurance carrier and businesses, public charities and agencies, and the NH Medical Society. The cross-section of healthcare organizations involved with the project will increase access to needed health care in the communities involved, including telemedicine capabilities to patients with no internet access close to their home. Multiple organizations donated to the purchase of the mobile van as well as additional costs for other parts of the program including operations.
NH	Maggie Hassan, Jeanne Shaheen	Ann Kuster (02)	Upper Connecticut Valley Hospital Association	\$507,700	This Rural Development investment will be used to replace and improve the HVAC system in the patient wing for the Upper Connecticut Valley Hospital Association in Colebrook. This 16-bed critical access hospital is updating the air-handling system so there is quick access to both negative and positive pressure among all the in-patient rooms, essential for dealing with the COVID-19 pandemic and other airborne contagious viral diseases. This project will improve the quality and safety of the patient care environment and relieve a significant stressor for clinical and facilities staff.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
NM	Martin Heinrich, Ben Ray Lujan	Yvette Herrell (02)	Gila Regional Medical Center	\$320,000	This Rural Development investment will be used to purchase two ambulances for the Gila Regional Medical Center located in Silver City, New Mexico. Both ambulances will be equipped with the necessary medical gear making the units fully operational to provide emergency medical service to the three southwestern counties of New Mexico. The new emergency medical vehicles will replace older ambulances, which are near or past their useful effective service life. The old ambulances have become unreliable due to high usage, and mileage. Because of their age they require constant maintenance making them unreliable which places the public's safety at great risk. The new ambulances will play an important role to quickly give effective emergency medical service which in turn provides a safer community. The service area for the ambulances includes the communities of Bayard, Columbus, Deming, Hurley, Lordsburg, Reserve, Santa Clara, Silver City, and Virden located in Grant, Hidalgo, and Luna counties. This service area is almost 2,000 square miles larger than the states of Delaware Rhode Island combined.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
NM	Martin Heinrich, Ben Ray Lujan	Yvette Herrell (02)	Gila Regional Medical Center	\$680,000	This Rural Development investment will be used to purchase updated medical equipment. The purchase of the equipment will help Gila Regional Medical Center located in Silver City, New Mexico provide better medical service to the rural residents of this area of the state. The new equipment will include anesthesia machines, ultrasound machines, ventilators, surgical tables, surgical suite lights, a washer for sterile processing, a bipap breathing machine system, a refrigerator, a neo-Vectra e-stim unit with laser, range, and computers on wheels for documentation at patient's bedside. The Gila Regional Medical Center needs the new equipment to replace old and obsolete equipment, which are near or past their useful effective life. Due to the age of the equipment, it is difficult to find parts to repair these pieces of equipment. With the onset of COVID-19, this caused more stress on the already obsolete equipment and in some cases the Medical Center did not have adequate equipment to meet the needs of the hospital. The low reliability of the older equipment places the public safety at great risk. The new equipment plays an important role in the community by enabling the medical center to quickly respond to the needs of its patients. The Gila Regional Medical Center services the communities of Bayard, Columbus, Deming, Hurley, Lordsburg, Reserve, Santa Clara, Silver City, and Virden in Grant, Hidalgo and Luna located in southwest New Mexico.
NY	Kirsten Gillibrand, Charles Schumer	Elise Stefanik (21)	Lewis County	\$1,000,000	This Rural Development investment will be used to help offset the revenue lost in 2021 due to decreased volume resulting in lower revenue for Lewis County General Hospital located in the village of Lowville, which is located in Lewis County, New York. This grant request will dramatically help the hospital navigate the financially troubling time period.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
OH	Sherrod Brown, Rob Portman	Bill Johnson (06)	Holzer Health System	\$1,000,000	This Rural Development investment will be used to provide a \$1 million grant to Holzer Health to help recover a portion of revenues lost due to the Coronavirus pandemic. Holzer Health System is a critical healthcare provider in the heart of Appalachian Ohio, serving numerous USDA designated distressed and socially vulnerable communities. At the start of the pandemic, Holzer Health established a robust system for maintaining treatment and prevention, and was a leader in the region for processing COVID lab tests. Increases in staffing and overtime for testing and treatment in addition to disruptions in ambulatory services, elective surgeries, and shutdowns of non-critical locations resulted in a significant loss to net revenue. Although covering only a portion of the total loss of revenue to Holzer, this funding will help the hospital continue to provide care to an area heavily affected by the pandemic.
OH	Sherrod Brown, Rob Portman	Mike Carey (15)	Hocking Valley Community Hospital	\$107,098	This Rural Development investment will be used to offset the cost of health care equipment needed by the Hocking Valley Community Hospital (HVCH) to address the Coronavirus pandemic. HVCH has been working with area community health care providers to help slow the spread of COVID however, the hospital's resources are overwhelmed by the number of patients needing treatment and emergency services. To aide in area COVID relief and recovery efforts, this grant will provide funding for HVCH to purchase three ventilators, a spectrum IV pump system, hot water tank, and back-up battery for the refrigeration units that house COVID vaccines. A critical health care source for the City of Logan and surrounding areas, HVCH has been providing medical services with state-of-the-art equipment since 1949.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
OH	Sherrod Brown, Rob Portman	Brad Wenstrup (02)	Franklin Township, Ross County	\$65,180	This Rural Development investment will be used to finance an ambulance for Franklin Township, Ross County, Ohio. This rural county services a population of 1,705, and has experienced an 89% increase in Emergency Management System (EMS) dispatches from 2020 to 2021. This large increase is directly correlated to the effects of Covid-19. These include, direct COVID related EMS dispatches, and a secondary result of individuals seeking less preventative care visits to hospitals and primary care physicians as a result of COVID, leading to increased usage rates for EMS services. As the current ambulance has outlived its useful life, a new ambulance was greatly needed to continue providing EMS services and handle the increased volume Franklin EMS services is experiencing. It will also provide a better response and higher quality of care for the residents.
OH	Sherrod Brown, Rob Portman	Bob Gibbs (07)	Center of Hope, Knox	\$156,000	This Rural Development investment will be used to provide funding for updates and repairs to the food prep and distribution facility in Bladensburg, Ohio. Center of Hope is a non-profit that has established itself in the former home of the East Knox Elementary School as a place where residents can go to get supplemental food assistance at no cost. Center of Hope's service area is the southeastern corner of Knox County extending into Coshocton and Licking counties in an area where the Median Household Income is just above poverty. The region is a food desert with Center of Hope being the primary option for many individuals and families in the area with the COVID-19 Pandemic only exacerbating food insecurity. The funds will allow Center of Hope to expand their services with new kitchen equipment and repair and update areas that will offer medical exams, telehealth services, and drop-in health events hosted
OK	James Inhofe, James Lankford	Frank Lucas (03)	Noble County Family Young Men's Christian Association	\$31,100	This Rural Development investment will be used to expand services to the Hunger Relief Expansion Initiative for the Noble County Family Young Men's Christian Association (YMCA). The YMCA offers food services to the local community. Expansion of services include personnel costs, travel for meal pick up costs, new rubber flooring mats, 15-passenger van, commercial kitchen island, PPE and cleaning supplies, storage bins, marketing & promotional materials and staff supplies. This Expansion Initiative will allow the YMCA to expand their service capacity to better serve the rural community and provide hunger relief to more children and their families.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
OK	James Inhofe, James Lankford	Frank Lucas (03)	Kiowa County Hospital Authority	\$28,900	This Rural Development investment will be used to purchase equipment for the Kiowa County Hospital Authority. The plan is to purchase Cepheid lab equipment to allow for in-house COVID testing and to upgrade the PACS radiology server to allow for remote reading by teleradiology physicians. This purchase will benefit the citizens of Kiowa County and the city of Hobart.
OK	James Inhofe, James Lankford	Tom Cole (04)	Grady Memorial Hospital Authority	\$191,300	This Rural Development investment will be used to purchase a wireless network. With the new wireless network and access points, the hospital will be able to increase connectivity and coverage to their parking lot pop-up clinic where vaccine administration and COVID-19 tests are performed. This includes the ability to facilitate telehealth interactive consults between the pop-up clinic and the clinicians inside the hospital. This investment will benefit the citizens in the rural area of Chickasha.
OK	James Inhofe, James Lankford	Markwayne Mullin (02)	McAlester Regional Healthcare Authority	\$71,300	This Rural Development investment will be used to implement a telehealth program for McAlester Regional Hospital. McAlester Regional Healthcare Authority (MRHC) will create a telehealth program to provide a safe alternative way for patients to see doctors during the pandemic. The implementation of virtual visits will provide an alternative to coming into the hospital or clinic, while decreasing no show appointments. This is especially needed due to Covid and the desire to keep patients out of the hospital and clinics unless medically necessary and at the same time providing access to healthcare for those in rural areas. MRHC will use the grant funds to purchase 127 computers, program license and to hire a trainer/coordinator. The coordinator will provide technical support and training for the doctors and staff.
OK	James Inhofe, James Lankford	Markwayne Mullin (02)	McAlester Regional Healthcare Authority	\$151,100	This Rural Development investment will be used to purchase hospital laboratory equipment. The new equipment, including an analyzer with automation system and two chemistry systems, will allow the hospital to test for SARS CoV-2 antigen and antibodies, metabolic chemistries, therapeutic drug monitoring and immunoassay test.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
OK	James Inhofe, James Lankford	Frank Lucas (03)	City of Erick	\$218,700	This Rural Development investment will be used to purchase an ambulance for the city of Erick, Oklahoma. This ambulance will be equipped with HEPA filters, UV lights, portable decontamination system, and infection control filtration for driver separation during calls to minimize decontamination between calls.
OR	Jeff Merkley, Ron Wyden	Cliff Bentz (02)	Blue Mountain Hospital District	\$399,300	This Rural Development investment will be used to provide purchase medical equipment for the Blue Mountain Hospital District located in the rural town of John Day, Oregon. The existing facility serves the Grant County area and operates a 25-bed critical access hospital. The hospital has been in existence since 1949 and serves a very rural area of eastern Oregon with a service area population of 7,445. These funds will be used to help purchase and install a lab chem analyzer, ultrasound machine, portable chest x-ray machine, standalone auxiliary generator, UV light cleaning robot and an i-STAT blood analyzer. Overall, this project will ensure that this vital facility in the heart of a small, rural town of 1,744 people will increase response rates, provide faster diagnosis time frames for critically ill patients, and provide ongoing medical therapies for patients recovering from respiratory illnesses such as COVID-19. This equipment will greatly improve the quality of health care in Grant County during the COVID-19 pandemic and into the future.
PA	Robert Casey, Patrick Toomey	Guy Reschenthaler (14)	Adagio Health Incorporated	\$233,300	This Rural Development investment will be used to purchase medical and food pantry equipment and supplies for the Uniontown Medical Facility in Fayette County, Pennsylvania. This investment will also allow for additional hiring to meet the demand caused by the pandemic. The facility provides COVID-19 screening, vaccine and educational services. They also have a mobile unit that visits each of their sites to administer vaccines. In addition, the medical facility launched an educational project to provide their patients and visitors with equal access to medically accurate information about the COVID-19 vaccine.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
PA	Robert Casey, Patrick Toomey	Glenn Thompson (15)	Adagio Health Incorporated	\$122,400	This Rural Development investment will be used to purchase medical supplies and equipment to increase capacity, increase telehealth capabilities and purchase food bank equipment and supplies such as cold storage units, electronic food insecurity screening equipment, edible foods, dry/canned/fresh food storage receptacles, and food pantry employment costs. The funds will be used towards promoting or administering vaccines to current and future residents and staff, as well as to increase testing.
PA	Robert Casey, Patrick Toomey	Mike Kelly (16)	Corry Memorial Hospital Association	\$404,300	This Rural Development investment will be used to reimburse lost healthcare revenue from April 1, 2020 through March 31, 2021 and reimburse COVID-19 related costs including Personal Protective Equipment, COVID-19 testing kits and supplies, staffing for COVID-19, testing of residents and increased medical supplies. The lost revenues were brought on by the COVID-19 pandemic. The funds will be used towards promoting or administering vaccines to current and future residents and staff, as well as to increase testing.
PA	Robert Casey, Patrick Toomey	Fred Keller (12)	Lock Haven Emergency Medical Services	\$309,700	This Rural Development investment will be used to purchase two ambulances, two cardiac monitors and defibrillators, a power load system, two Motorola mobile units and six Motorola portable radios. The equipment is needed to help the company provide services to the community, which has seen an influx of patients due to the COVID-19 pandemic.
PA	Robert Casey, Patrick Toomey	Fred Keller (12)	Clinton County	\$750,000	This Rural Development investment will be used to purchase and install tower communications equipment for an existing tower in Leidy Township (Tamarack Tower) and Chapman Township (Summerson Tower) in Clinton County. The funds will also be used to purchase radio communications equipment to better serve the Bucktail Regional Medical Center. This project will help ensure the emergency services call center reaches the area and guarantees communication between the hospitals, ambulance services and fire companies.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
PA	Robert Casey, Patrick Toomey	Glenn Thompson (15)	Clarion Hospital	\$1,000,000	This Rural Development investment will be used to reimburse lost healthcare revenue from March 13 through Aug. 31, 2021. The lost revenues were because of the COVID-19 pandemic. The funds will be used towards promoting or administering vaccines to current and future residents and staff, as well as to increase testing.
PA	Robert Casey, Patrick Toomey	Glenn Thompson (15)	Punxsutawney Area Hospital Incorporated	\$868,500	This Rural Development investment will be used to purchase additional equipment and supplies for COVID-19 testing, Personal Protective Equipment, a new ventilator and respirator, and further expand telehealth and remote care services, which will assist in reducing potential exposure and transmission. The funds will be used towards promoting and administering vaccines to current and future residents and staff, as well as increase testing.
PA	Robert Casey, Patrick Toomey	Glenn Thompson (15)	Warren General Hospital	\$469,000	This Rural Development investment will be used to purchase approximately 30 patient beds for Warren General Hospital's emergency and patient rooms. Warren General will also purchase a MEDITECH Expanse EHR system to support a single patient record system. The equipment is needed to provide more efficient care during the pandemic.
PA	Robert Casey, Patrick Toomey	John Joyce (13)	Fulton County Medical Center	\$136,900	This Rural Development investment will be used to reimburse lost healthcare revenue from March 2020 to June 2021. The lost revenues were brought on by the COVID-19 pandemic. The funds will be used for promoting and administering vaccines to current and future residents and staff, as well as to increase testing.
PA	Robert Casey, Patrick Toomey	Matt Cartwright (08)	Greater Pittston Ambulance Association	\$226,900	This Rural Development investment will be used to purchase approximately 210 pieces of varying medical equipment ranging from single item purchases to units of eight. The equipment includes LIFEPAK monitors, therapy cables, re-useable blood pressure cuffs in a range of sizes and battery packs. All the pieces of equipment will support the emergency and ambulatory services.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
PA	Robert Casey, Patrick Toomey	Fred Keller (12)	Citizens Hose Company of South Renovo	\$443,800	This Rural Development investment will be used to purchase a quick response unit rescue truck for South Renovo Brough in Clinton County, Pennsylvania. The new vehicle will allow for better and more reliable response times, and equip the fire department with the necessary equipment, tools and diagnostic capabilities to perform the emergency response tasks. It will also be used to serve as a mobile vaccine administration and testing unit as necessary for the Covid-19 pandemic and for future health crises. This equipment will allow emergency services to reach the remote portions of the service area. The equipment will allow the fire response team to setup a mobile medical unit during emergency situations before ambulance services arrive.
PA	Robert Casey, Patrick Toomey	Guy Reschenthaler (14)	Highlands Hospital	\$971,300	This Rural Development investment will be used to reimburse for lost healthcare revenue incurred from March 13 through December 31, 2020 due to the COVID19 pandemic. The funds will be used towards promoting or administering vaccines to current and future residents and staff, as well as to increase testing. Highlands Hospital was established to maintain, operate and manage hospital and related healthcare facilities in Fayette County, Pennsylvania.
PA	Robert Casey, Patrick Toomey	Fred Keller (12)	Evangelical Community Hospital	\$487,800	This Rural Development investment will be used to reimburse the Evangelical Community Hospital for a Mobile Intensive Care Unit ambulance with required equipment and patient monitors. The funds will be used towards promoting or administering vaccines to current and future residents and staff, as well as to increase testing.
PA	Robert Casey, Patrick Toomey	Glenn Thompson (15)	DuBois Continuum of Care Community	\$1,000,000	This Rural Development investment will be used to reimburse lost healthcare revenue from March 13, 2020 through August 31, 2021, and reimburse COVID-19 related costs including personal protective equipment, testing kits and supplies, staffing for COVID-19 testing of residents, increased medical supplies, etc. The funds will be used towards promoting or administering vaccines to current and future residents and staff, as well as to increase testing.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
PA	Robert Casey, Patrick Toomey	John Joyce (13)	Somerset Care Incorporated	\$907,200	This Rural Development investment will be used to reimburse for lost healthcare revenue from March 15, 2020 through September 30, 2021. The lost revenues were brought on by the COVID-19 pandemic. The funds will be used towards promoting or administering vaccines to current and future residents and staff, as well as to increase testing. Somerset Care, Inc. was established to maintain, operate, and manage nursing homes, hospitals, and related health care facilities, including without limitation retirement care facility for elderly persons and facilities for the housing and care of developmentally disabled persons of Somerset County.
PA	Robert Casey, Patrick Toomey	Fred Keller (12)	Broad Acres Nursing Home Association	\$1,000,000	This Rural Development investment will be used to reimburse lost healthcare revenue incurred from March 13, 2020, to August 31, 2021. The funds will be used towards promoting or administering vaccines to current and future residents and staff, as well as to increase testing of the same.
PA	Robert Casey, Patrick Toomey	Fred Keller (12)	Centre Care Incorporated	\$1,000,000	This Rural Development investment will be used to reimburse lost healthcare revenue from March 15, 2020 through August 31, 2021 due to the COVID-19 pandemic. The funds will be used for promoting or administering vaccines to current and future residents and staff, as well as to increase testing. Centre Care Incorporated. provides a nursing, assisted living and senior retirement care to qualifying persons.
PA	Robert Casey, Patrick Toomey	Glenn Thompson (15)	County of Forest	\$219,300	This Rural Development investment will be used to purchase two Medix Type III 150, 250 ambulances with power stretcher, monitor and defibrillator to assist with the rising levels of ambulance transport needs in Forest County. The rural county does not have a hospital. Since the COVID-19 pandemic, the ambulance services provided in the east side of the county were lost.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
TX	John Cornyn, Ted Cruz	Tony Gonzales (23)	Cactus Health Services Incorporated	\$328,836	This Rural Development investment will be used to construct an additional 2,100 square feet to the existing Cactus Health Clinic to accommodate the increase in patients and additional providers. The pandemic and the COVID-19 surges have changed the way the clinic visitors are separated from possible COVID cases. Along with this, the clinic has experienced an increased need for behavioral health services due to the pandemic stresses and losses. The addition will include 3 exam rooms, 4 offices for providers, an office for the chief medical officer, a mental health provider office and a conference room for training and instructions.
TX	John Cornyn, Ted Cruz	Tony Gonzales (23)	Uvalde County Hospital Authority	\$157,126	This Rural Development investment will be used to purchase equipment which includes a "Three Step" Decon System - 248 square feet Low-Pressure Inflatable Airbeam Shelter System, an ERA digital distributed antenna system for robust in-building cellular coverage, and 65 Spectrum IQ Infusion pumps for inpatient and outpatient use. The equipment will benefit in relation to the COVID-19 pandemic and to support immediate health care needs, to help prepare for a future pandemic event, and to increase access to quality health care services and improve community health outcomes.
TX	John Cornyn, Ted Cruz	Tony Gonzales (23)	County of Pecos	\$45,338	This Rural Development investment will be used to purchase medical equipment which includes 2 BiPap machines, iSTAT Analyzer, a containment wall system, and 25 O2 Flow Meters and Regulators. The equipment will benefit in relation to the COVID-19 pandemic and to support immediate health care needs, to help prepare for a future pandemic event, and to increase access to quality health care services and improve community health outcomes.
TX	John Cornyn, Ted Cruz	Tony Gonzales (23)	Ward County	\$1,000,000	This Rural Development investment will be used to renovate Ward Memorial Hospital's 25-bed medical surgical area, implement building controls for improved air quality, and improve overall facility resilience to position the hospital in meeting the demands of patients during the COVID-19 pandemic. The renovations will also allow for ten designated isolation rooms on the south side of the building with built-in negative air pressure capability.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
VA	Tim Kaine Mark Warner	Robert Wittman (01)	Healthy Harvest Food Bank Incorporated	\$258,600	This Rural Development investment will be used to construct a greenhouse, and classroom addition. This project provides healthy food production and distribution to low income families. Also, distribution to the schools cafeterias as well as back pack buddy foods to go home with students. The applicant currently has a building/warehouse with cold storage space that a front end loader can drive around inside of the cold storage to move pallets of produce and meats. The building has offices up front with the warehouse and cold storage making up most of the space.
WA	Maria Cantwell, Patty Murray	Jaime Herrera Beutler (03)	Public Hospital District #1 Klickitat County	\$673,100	This Rural Development investment will be used to renovate 1,167 square feet of existing interior space related to food preparation and service at the hospital. The renovation will provide for two additional workstations, streamline the checkout, replace the salad bar with a sandwich prep table; install a walk-in cooler, walk -in freezer, and additional dry storage. Additionally, they will construct a 663 square feet addition to a house a dishwashing galley that will provide a separate entrance from the kitchen for receiving dirty dishes reducing the potential of COVID-19 patient trays, dishes, and utensils to be cleaned prior to being returned to service in the kitchen. Public Hospital District #1 of Klickitat County is one of 40 Critical Access Hospitals (CAHs) in Washington State. CAHs are small hospitals with fewer than 25 beds located in rural areas.
WA	Maria Cantwell, Patty Murray	Jaime Herrera Beutler (03)	ERHC Lewis County Fire District #3	\$203,500	This Rural Development investment will be used to purchase an ambulance and associated equipment. The funding will enhance Lewis County Fire District # 3's ability to service the community of Mossyrock and surrounding area through distribution of COVID-19 vaccinations, COVID-19 testing, and implementation of the Community Health Triage Program while significantly improving the safety of the EMS staff and their ability to respond to emergency calls. The ambulance that will be replaced added unnecessary risk for the EMS staff as plastic and blankets were used to separate the driver from the patient in the back. The new ambulance is the latest and greatest with a safe environment for the EMS crew and the patient.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
WA	Maria Cantwell, Patty Murray	Cathy McMorris Rodgers (05)	Columbia County Public Hospital	\$840,000	This Rural Development investment will be used to construct two airborne infection isolation rooms with direct access to the outside, and an interlinking hallway between the acute floor and the hall of the Booker Rest Home annex. Columbia County Health System is a Public Hospital District with a 25-bed, Critical Access Hospital, nursing home, and two rural health clinics.
WV	Shelley Moore Capito, Joe Manchin	Carol Miller (03)	Webster County Memorial Hospital Incorporated	\$588,200	This Rural Development investment will be used to cover part of the reduction in revenue and additional expenses caused by the COVID-19 pandemic. Pandemic-related expenses included personal protective equipment, more laboratory equipment to run COVID-19 testing, and an increase in staff. Webster County Memorial Hospital is located in Webster Springs, West Virginia, and serves all of Webster County.
WV	Shelley Moore Capito, Joe Manchin	Alex Mooney (02)	Stonewall Jackson Memorial Hospital	\$64,200	This Rural Development investment will be used to purchase 20 Mindray N1 and N15 monitors along with the new software and licenses required to use the devices. These new devices will replace their outdated equipment. This new equipment will be used in the Emergency Department, Intensive Care Unit, and Acute Care Units which have seen an increase in patients throughout the COVID-19 pandemic due to the specialized care required. The devices enable monitoring of vital signs, including oxygen saturation, carbon dioxide, arterial pressure, and heart rhythm. The hospital serves Lewis and Gilmer counties.
WV	Shelley Moore Capito, Joe Manchin	Carol Miller (03)	Williamson Health and Wellness Center	\$1,000,000	This Rural Development investment will be used to hire one full time Vaccination Coordinator and two laboratory technicians to help with the COVID-19 pandemic workload. They will also use funds for various equipment for the pandemic, including a portable blood gas analyzer, portable ultrasound, high-flow nasal cannula, radiographic mobile digital equipment, lab testing equipment, and thermometers. Williamson Health and Wellness Center serves Williamson, Delbarton, Kermit, Matewan, and Gilbert in Mingo County. Williamson Health and Wellness Center has recently purchased the Williamson Memorial Hospital building. This was the only hospital in Mingo County, and it has been closed for over a year. Once internal renovations are complete, the facility will reopen as a fully functioning hospital with an emergency department.

Community Facilities Emergency Rural Health Care Grants

State	Senators	Representatives	Recipient	Grant	Project Description
WY	John Barrasso, Cynthia Lummis	Liz Cheney (At Large)	Town of Fort Laramie	\$150,000	This Rural Development investment will be used to purchase a first responder vehicle equipped with oxygen, bandages, extraction tools and equipment along with other medical necessities. The new vehicle will replace the town's outdated rig, and help respond to the increasing demands of the COVID-19 pandemic while also providing essential life-saving interventions for the town of Fort Laramie. The first responder rescue rig will provide support for emergency health care needs of the residents of Goshen County.
			Total:	\$42,978,133
