OneRD Guarantee Loan Initiative: Water and Waste Disposal Loan Guarantees

What does this program do?
This program helps private lenders provide affordable financing to qualified borrowers to improve access to clean, reliable water and waste disposal systems for households and businesses in rural areas. Affordable terms and good practices can save tax dollars, improve the natural environment and may be necessary for manufacturers and other types of businesses to locate or expand operations.

Who may apply for this program?

- Farm Credit Banks with direct lending authority.

Other non-regulated lending institutions may also be approved by the Agency under the criteria of the OneRD regulation.

What is the maximum amount of a loan guarantee?
The loan guarantee percentage is published annually in a Federal Register notice.

What are the loan terms?
The lender, with Agency concurrence, will establish and justify the guaranteed loan term based on the use of guaranteed loan funds, the useful economic life of the assets being financed and those used as collateral, and the borrower's repayment ability. The loan term will not exceed 40 years.

What are the interest rates?

- Interest rates are negotiated between the lender and borrower.
- Rates may be fixed or variable.
- Variable interest rates may not be adjusted more often than quarterly.

What are the applicable fees?

- There is an initial guarantee fee, currently 1 percent of the guaranteed amount.
- There is a fee for the Issuance of Loan Note Guarantee Prior to Construction of 0.5 percent.
- Reasonable and customary fees for loan origination are negotiated between the borrower and lender.
What are the underwriting requirements?

- The lender will conduct a credit evaluation using credit documentation procedures and underwriting processes that are consistent with generally accepted prudent lending practices and also consistent with the lender's own policies, procedures and lending practices.
- The lender's evaluation must address any financial or other credit weaknesses of the borrower and project and discuss risk mitigation requirements.
- The lender must analyze all credit factors to determine that the credit factors and guaranteed loan terms and conditions ensure guaranteed loan repayment.
- Credit factors to be analyzed include but are not limited to character, capacity, capital, collateral, and conditions.

Are there additional requirements?

- The borrower must have the legal authority needed to construct, operate and maintain the proposed facilities and the services they provide.
- All facilities financed with the aid of a loan guarantee must be used for public purposes.

Who will service the loan?

The lender is responsible for servicing the entire loan and taking all servicing actions that a reasonably prudent lender would perform in servicing its own portfolio of loans that are not guaranteed.
