RURAL DEVELOPMENT PHYSICAL SECURITY - KEY CONTROL dated 04-29-21. This Instruction is issued to identify procedures to

establish and maintain an effective key control program for each RD office. An effective key control program minimizes the possibility of unauthorized access to a facility and assets. Possession of keys, combinations or other access control devices, represent primary authorization for an individual to enter a facility or have access to a particular asset. Possession of keys, combinations and access control cards by unauthorized individuals severely affects security and neutralizes the primary purpose of an access control program.
